Dawn breaks; and with it, a flood of light gushes forth to awaken all life. Out of the silence, the shrill sound of an alarm clock sets into motion the wheels of a new day. A fresh start, another beginning in the perpetual cycle; and all facets of school life begin to function . . . those painstaking hours of practice, sweat, grime, perfection . . . the squeal of brakes, silence broken by a flood of noises, laughter, friendship in the halls . . . final preparations to be made before the day begins . . . the ball in play, both sides determined to win . . . classes . . . the last decoration in place . . . that mad rush to the lunchroom for well-deserved nourishment . . . a moment of relaxation . . . the final, thundering applause . . . that winning putt . . . the slamming shut of a locker door . . . a motion to adjourn . . . the diploma . . . silence. Each phase, often a re-run, is so vital to the molding of every minute, day, and month that passes and sets into motion that continuous cycle. All are relative—each reaching toward the ultimate end that makes a year at Westerville High School complete.

The bell has rung; everyone is in his place as the teacher begins her daily lecture, every student is experiencing the beginning of a new day's cycle, the anticipation of something more to be discovered . . . the many scribbled notes that have been taken and the many more to come . . . the satisfaction of knowing the right answer . . . later, finding that much needed book in the library to supplement the daily lessons . . . and in between those academic classes one finding the time . . . to make the interview necessary before that last deadline . . . changing a board into a carved masterpiece . . . sewing a fine seam. But it doesn't end there; many more hours of study are ahead, the cycle has begun and as the day wears on it continues and gains momentum . . .

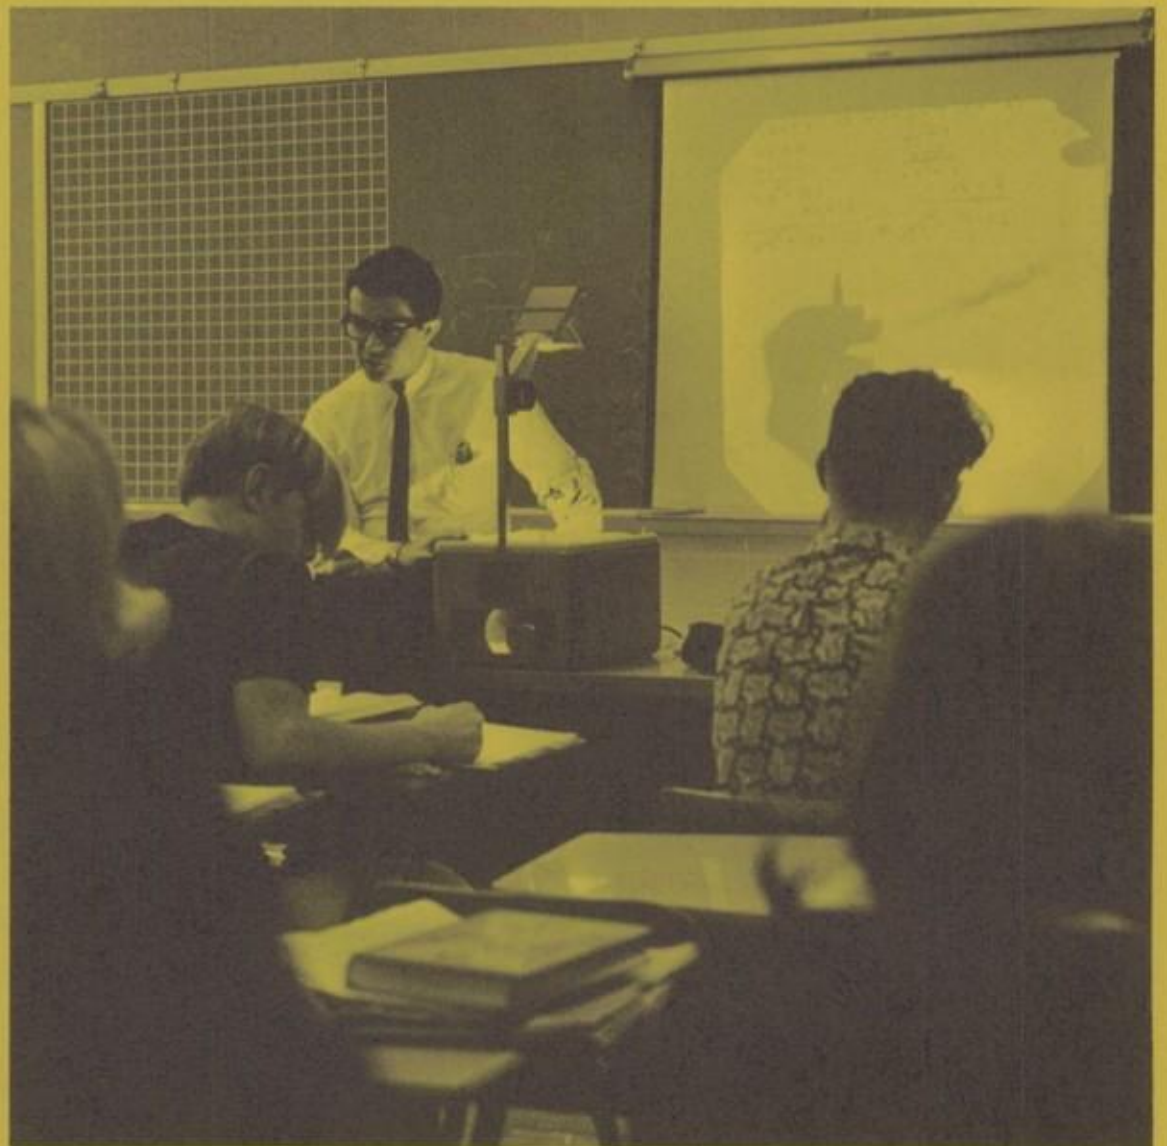

Periodically, throughout the day, the bell rings and the halls are filled with students surging toward their next class where they will learn, everyday, a little more about the world in which they live, and even more, about themselves . . . the make-up of life . . . that skills are found through coordination . . . how man can control the destiny of life . . . the fascination of forming one's own ideas . . . the relationship between numbers and the everyday world . . . the beliefs on which our country is based . . . self-expression through art.

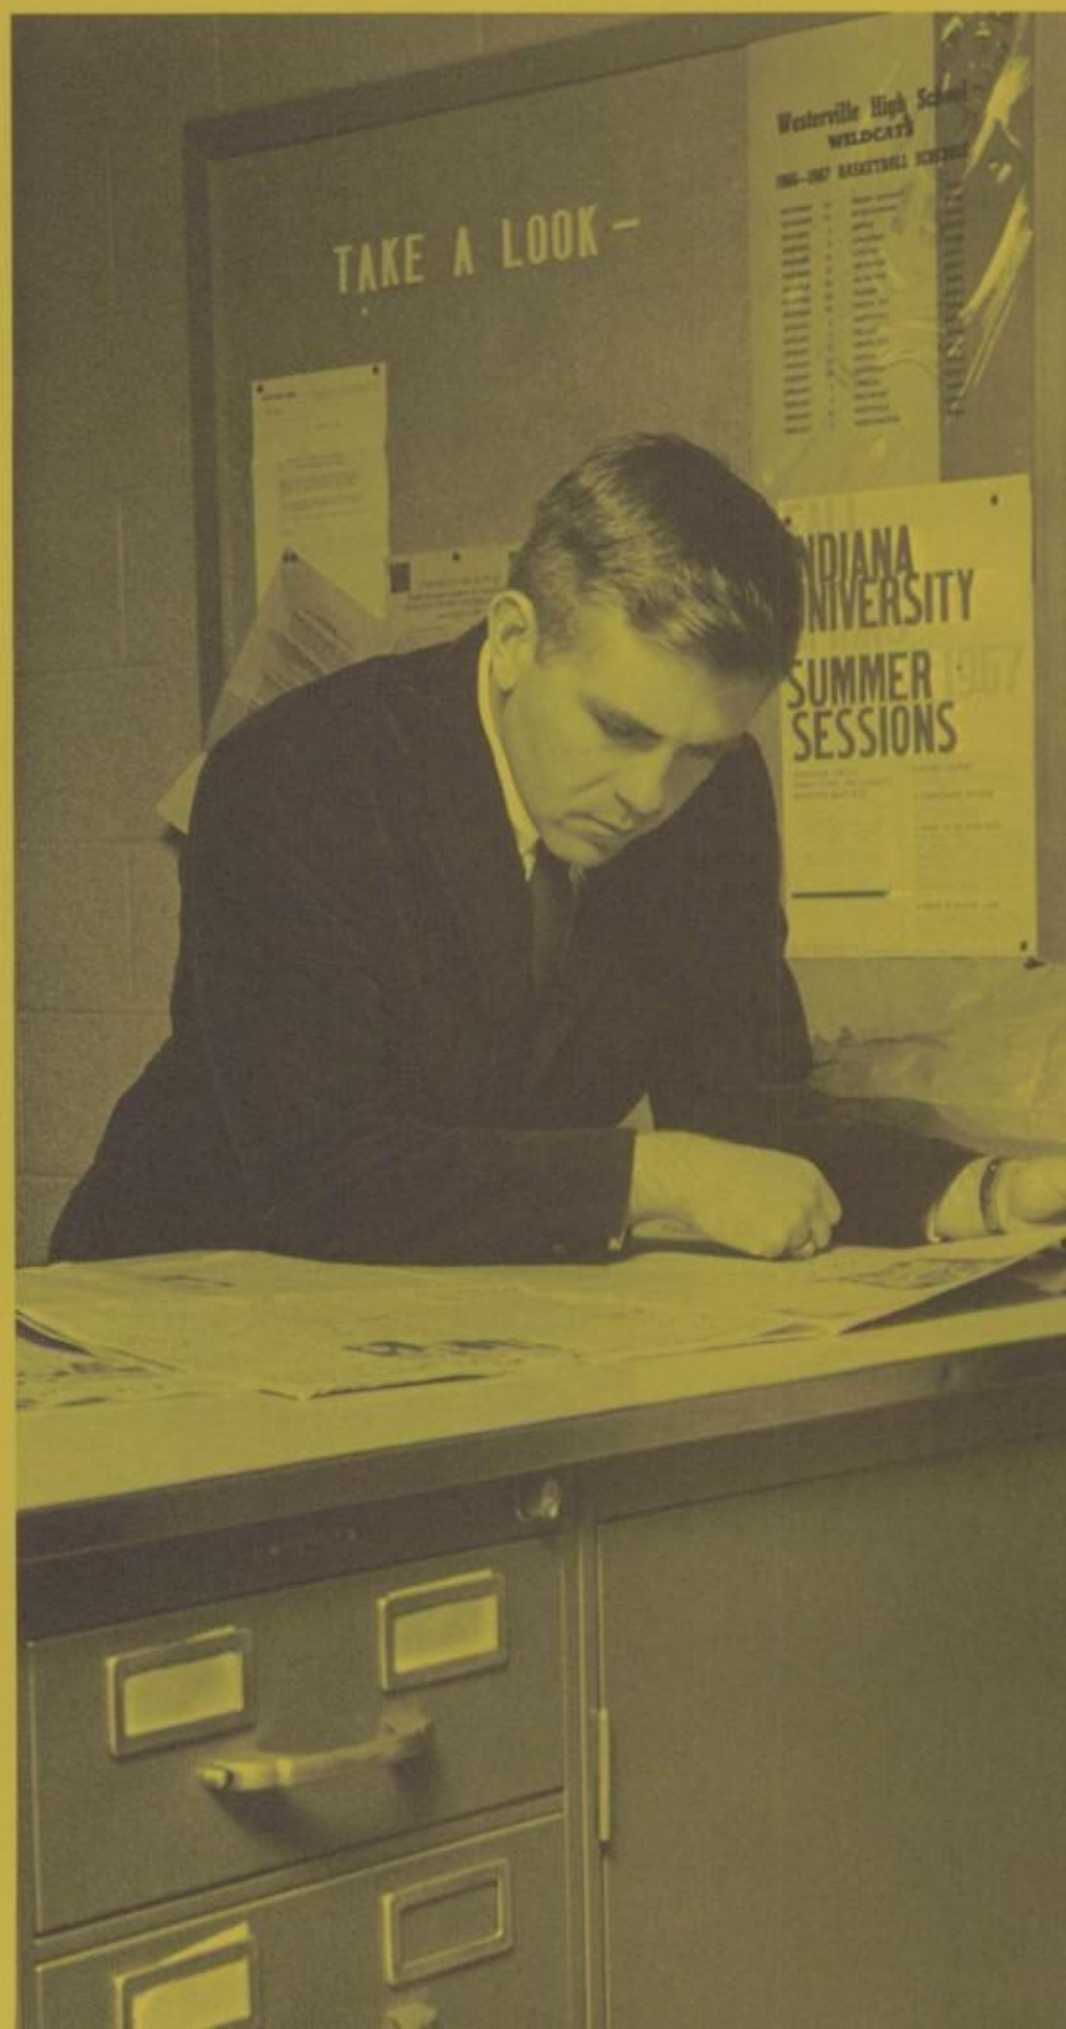

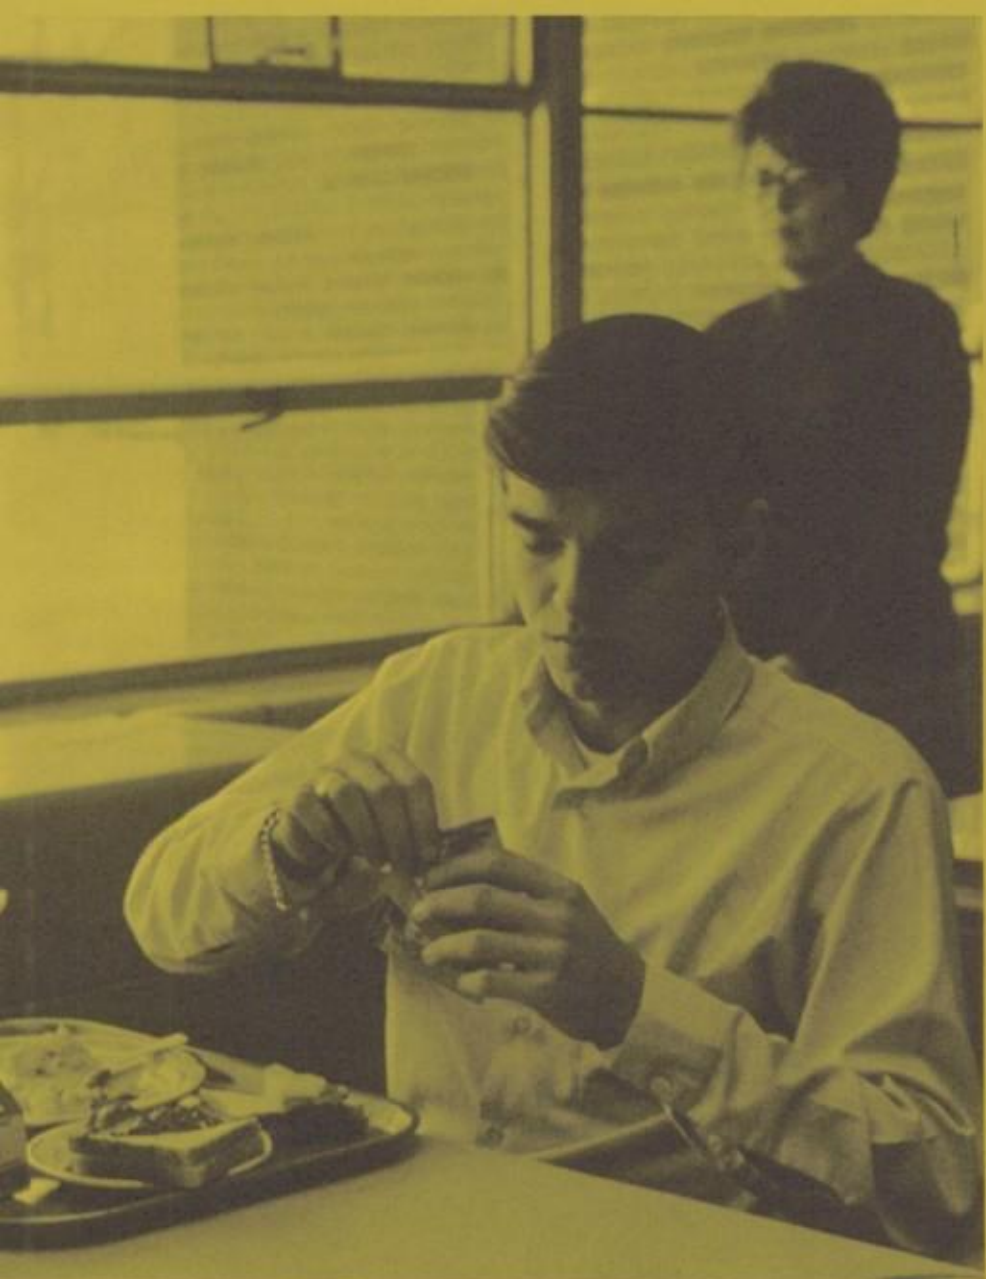

Every class is a reflection of one's own self and every reflection indicates one step more toward some additional degree of knowledge.

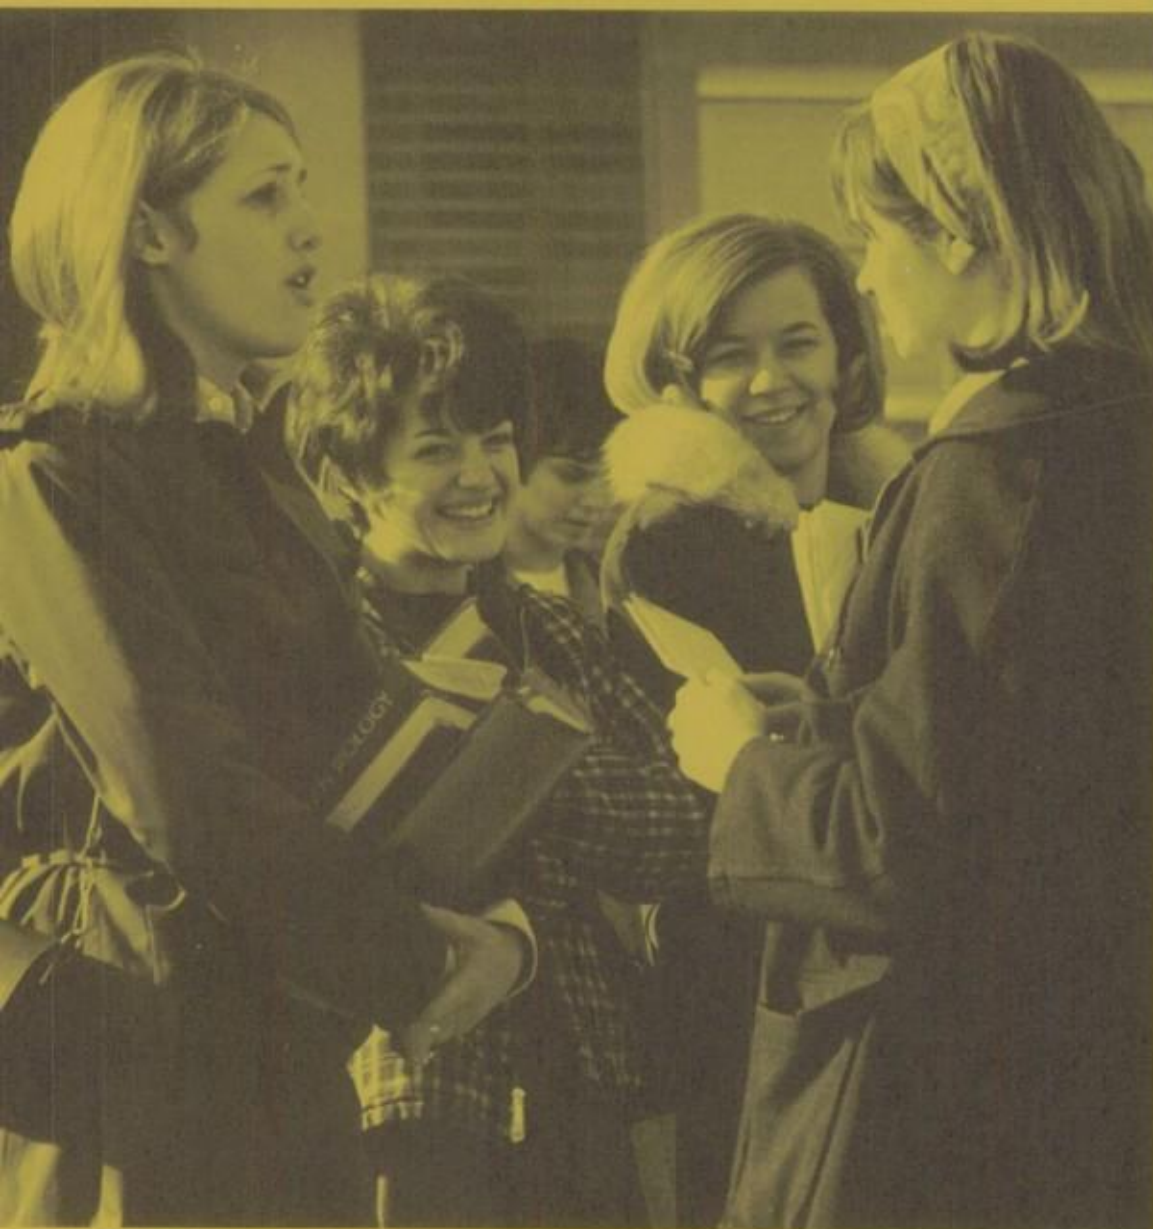

The fourth period bell rings igniting mad rush from classes, through the halls, to the cafeteria. It's lunch time! But lunch is never as simple as just eating. With it also goes that struggle for position in the line . . . taking more than one napkin . . . stacking fifteen milk cartons, trying for sixteen . . . a relaxing game of cards . . . talking over the latest gossip . . . only eight to the restrooms at a time . . . depositing the last dime to hear that favorite song . . . music to digest by . . . cramming the last five minutes for that 4B quiz . . . there goes the bell . . . classtime. The day is half over; three busy periods to go.

The last bell rings; classrooms empty quickly. Excited voices reflect the end of another school day for some . . . buses are waiting to carry students home. School is out but friends congregate in the lobby to discuss the day's events. Boy, was Delaney's test hard . . . did you see that cute boy in sixth period study hall . . . let's get a doughnut . . . are you going to Valley Dale this weekend . . . English basic research paper due Monday . . . I just got two hours detention from Mr. Raimonde . . . there goes the bus . . . five minutes until Y-Teens meeting . . . racing to basketball practice . . . getting ready for play practice . . . writing copy to meet this issue's deadline

School ends for a day, but school life and social life continue to thrive. Extra-curricular activities comprise that world outside of school and yet each is very intricately interwoven with it. All strive toward some point of completion, an end result.

The end of the day brings into focus one more phase of school life. It is apart from academic classes. Here students are free to develop themselves in many varied areas. An ordinary classroom becomes a stage complete with a set . . . minds turning to one purpose, producing the best yearbook ever . . . drilling to be sure those linemen "fire out" fast and hard at the next football game that will top the last one . . . receiving the last strategic instructions before making what might be the winning relay time . . . trying for the hundredth time to find the right spot on the backboard that will somehow push the ball through the basket.

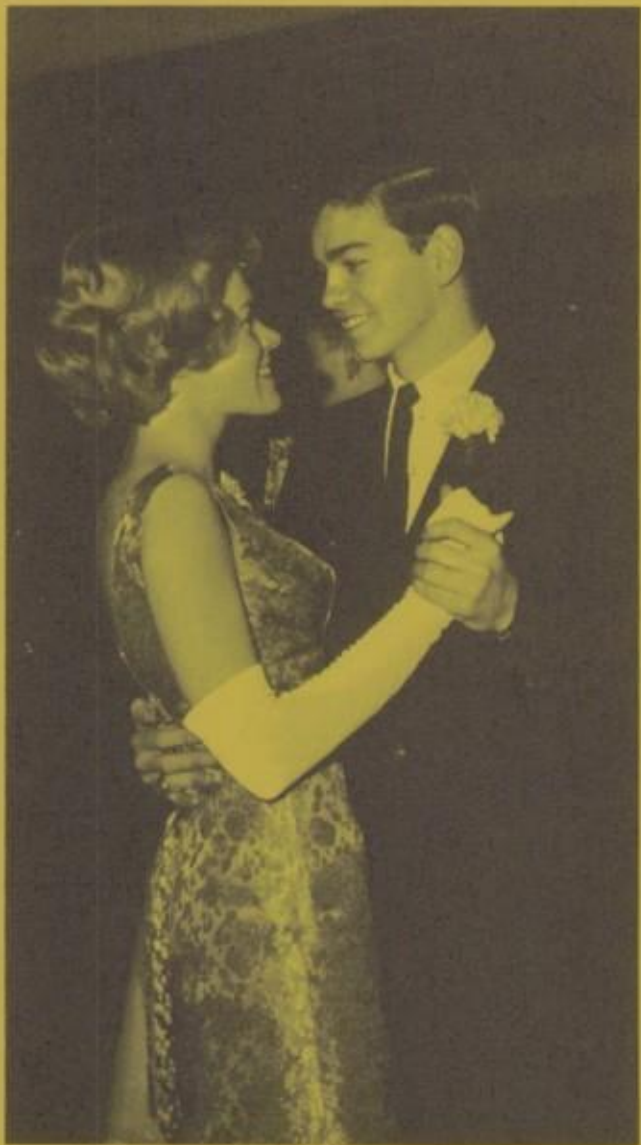

All energy is directed toward that final moment when perfection is hopefully achieved . . . that final game victory . . . success on opening night . . . a superior rating at the state . . . an "A" in government.

The final phases of the cycle completing another school day portray the results of frustrations in the drive for perfection. Basketball practice gives way to the reality of that mad scramble for possession of the ball . . . another football victory makes even eating soggy popcorn an enjoyment . . . the splendor evoked in that breathtaking wedding scene, or perhaps one of the comic routines culminates weeks of strenuous rehearsal . . . happiness at being together amidst a romantic setting adds to the beauty of the evening . . . readying to be judged on the final product of hours of research, planning and construction . . . feasting on the "foods of the gods" is the ultimate reward for sticking with the hours of memorizing and translation. The day has ended, another year has gone by; but it is only a moment before that inevitable cycle starts again and begins anew.

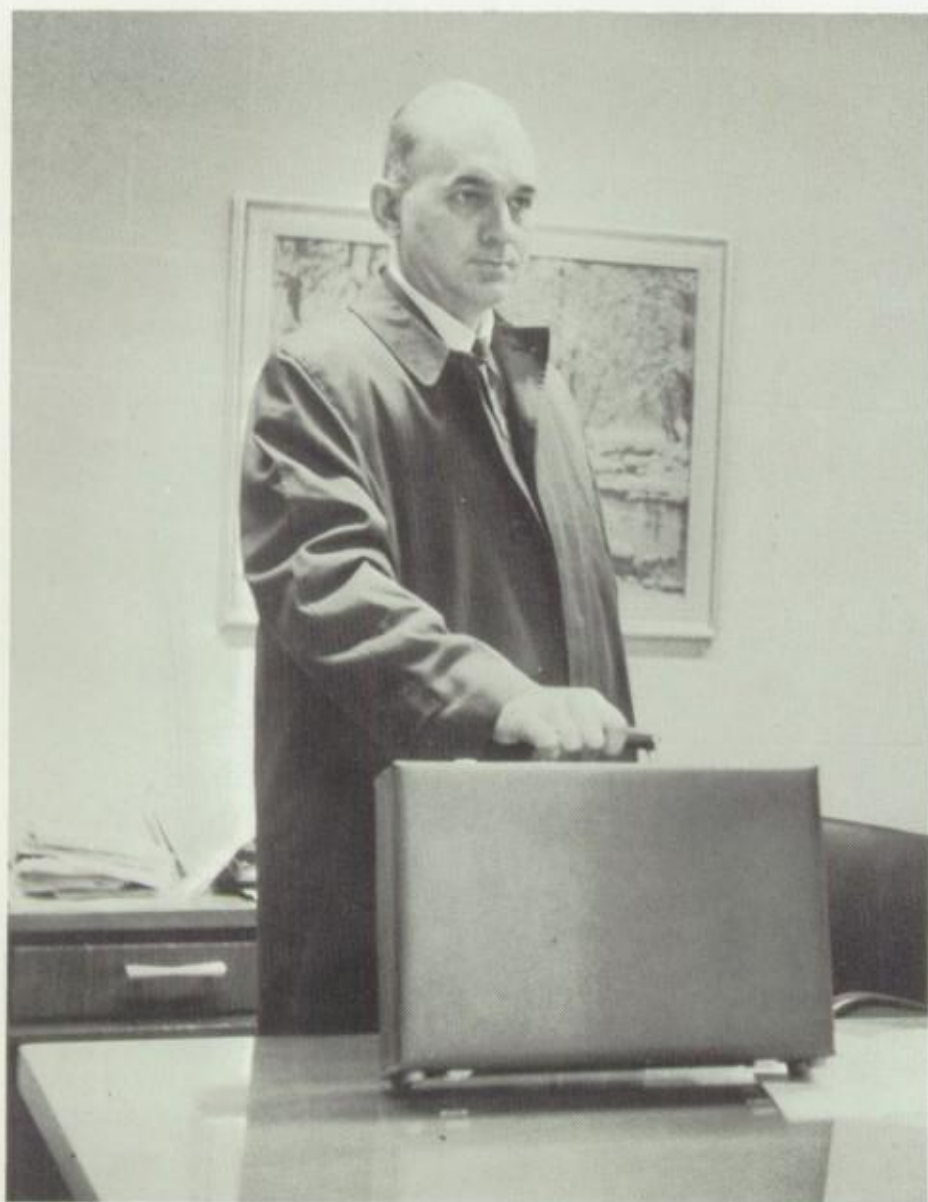

FACULTY

The purpose of any school is education, but this process can not be motivated successfully without the direction of the faculty and administration. Although their backgrounds vary, they are all united by a common goal and desire: to establish an effective school policy and an atmosphere which creates a desirable learning situation. Their work has been cut out for them, and its various phases can be detected in the hectic daily routine . . . spending the summer processing schedule cards . . . finding ways to improve the school's policies . . . getting to school early enough to finish last minute lesson planning (and get a good parking space) . . . coping with students' last names and the seating charts . . . taking time out for a coffee break in the teachers' lounge . . . (looking forward to grading that test without having to curve the scores) . . . trying to explain to a parent that his child got the grade he deserved . . . struggling with yearly averages and reports . . . sighing when it's over and looking ahead to a three month vacation before teaching starts again. Some days are often rough and disappointing; but seeing the students gain new insight in those short nine months is compensation for all the other frustrations endured.

The progress of the Westerville School System is largely dependent upon the knowledge of Superintendent Harold C. McDermott.

Superintendent of the Westerville Public Schools Mr. H. C. McDermott has the responsibility of administering the School Board's policies and managing the operation, organization, and administration of Westerville schools.

He is assisted by several well-qualified administrators. The Assistant Superintendent, Mr. Ray Morris aids Mr. McDermott in making sure the school's transportation facilities are in good condition.

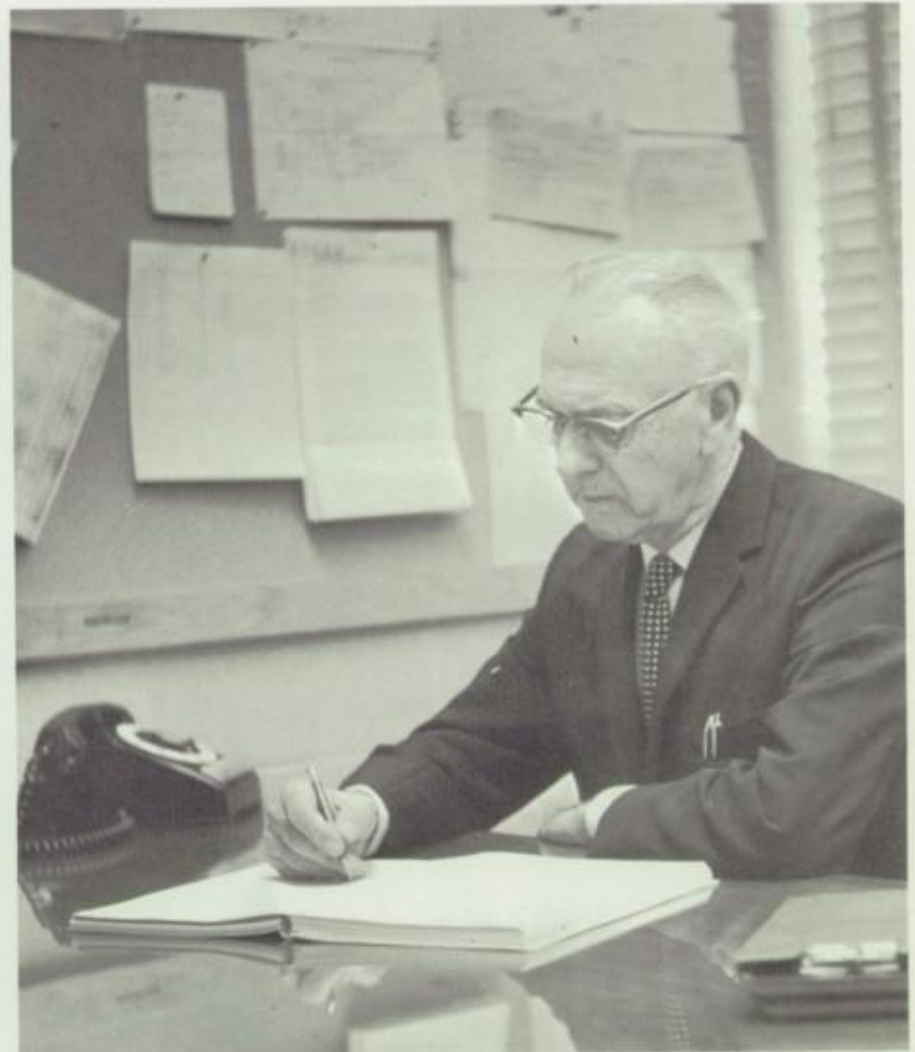

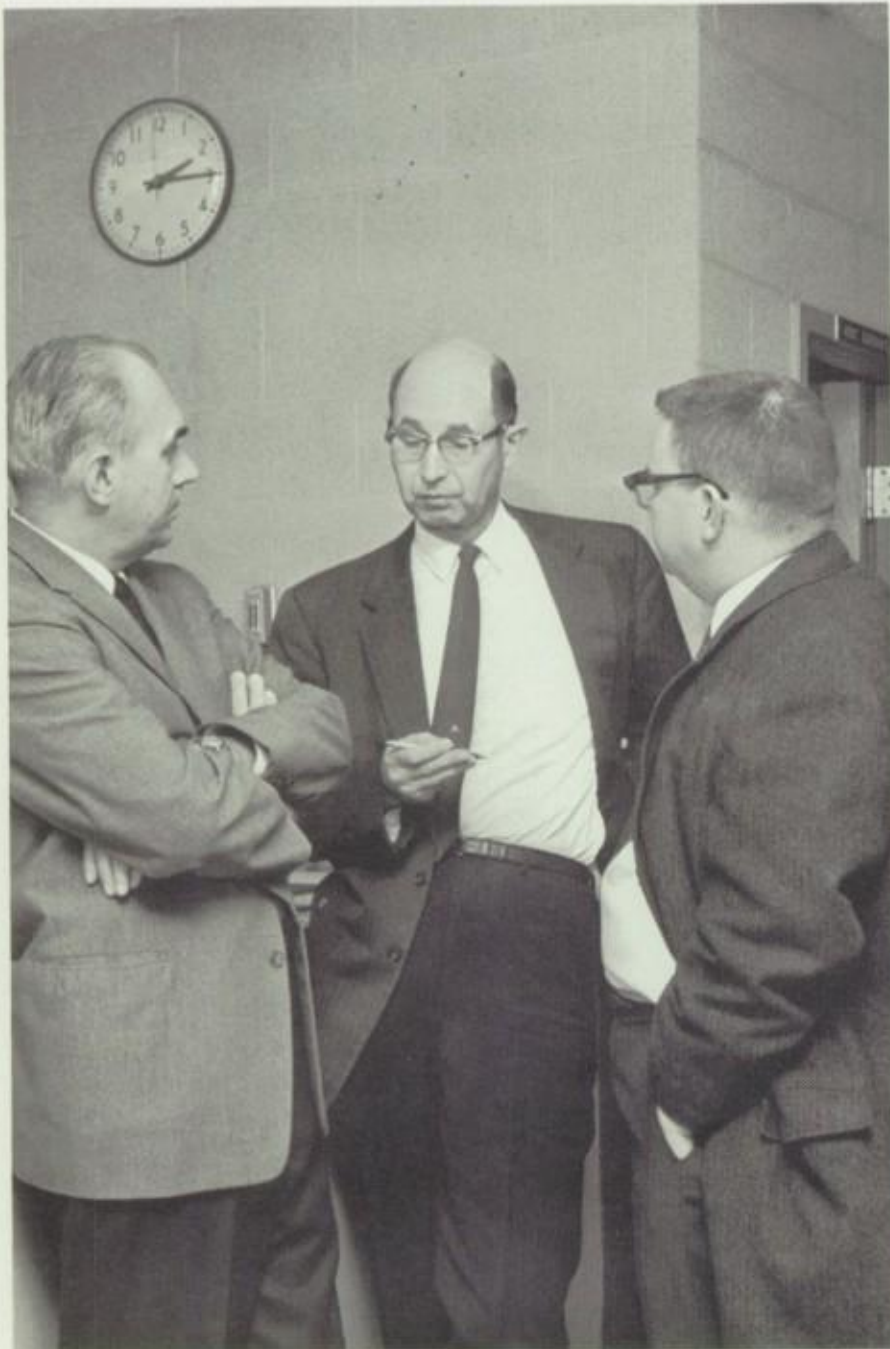

Mr. Arnold Carlson the Administrative Assistant, also aids him in his activities. He is involved in educational and financial planning, public relations, supply requisitions, placement of students and special teachers, and research in

area growth and accompanying educational needs.

The duties of Mr. Thomas Bancroft, the Junior and Senior High School Director, entail recommending teachers, planning summer school, and assisting the teachers in obtaining instructional supplies.

Mr. Philip W. Alvarado, as the school's psychologist, spends much time helping children understand their social, emotional, and intellectual developments.

The Westerville School Board of Education, is chiefly concerned with the maintenance of the public schools. They create new policies, appropriate funds for educational purposes, and appoint people to various positions.

Above: Solving the numerous problems of transporting hundreds of Westerville students is the time-consuming task assigned to Mr. Ray Morris.

Office conferences are routine in Principal Dana Aukerman's day.

The great task of overseeing some 1500 students and sixty-four faculty members was again taken on by Mr. Dana Aukerman who just completed his second year as the principal at Westerville High School. He initiated several new changes and reforms within the such as the passage of the new Senior English program for which he was largely responsible. His overall duties included looking after the organization and supervision of the building and the execution of all rules, policies, and regulations set down by the Westerville School Board of Education. His interests lay mainly in bettering the school for the students' use and helping them meet the challenges of education, encouraging individual development and worth, and trying to further better relationships with the students and faculty at Westerville High School.

After completing his first year at Westerville High School, Mr. Albert P. Raimonde has found the school to be quite a challenge but has tremendously enjoyed the experience. His duties were rather varied. He spent much time assisting Mr. Aukerman in maintaining discipline and being responsible for the organization, supervision, and administration of the school and taking care of attendance procedures. He received both his Bachelor of Science in Education and Masters' Degree in Administration and Guidance at Ohio State University; and prior to his job at Westerville he spent seventeen years at Willard High School and last year served as principal at Clyde Junior High School in Clyde, Ohio.

Keeping students informed of the many job opportunities is one of the many services performed by senior counselor Ray Eiben and his staff.

The guidance counselors engaged actively this year in directing guidance activities and counseling students. Mrs. Martha Grant and Mr. Jon Wildermuth served as counselors to the underclass students. They spent much time conferring with students and giving aptitude and other such tests.

Guidance director for the senior class is Mr. Ray Eiben. He had a full schedule reminding students about the ACT, SAT, and other tests, interpreting the results, and guiding students in decisions as to colleges or after-school careers.

The faculty and administration at Westerville High School would be stranded without the assistance of the secretaries. Efficiency in the high school office is maintained by Mrs. Betty Hall and Miss Zora Youmans. Their days are filled with typing teachers' tests, letters, and other materials, and organizational bookkeeping straight—besides writing excuses for late or ill students, keeping the teachers' mailboxes cluttered with important notices, and keeping the office girls from congregating in the coffee room.

The Guidance Department could not function properly without the aid of Mrs. Ruth Zimmerman. She spends most of her time typing vast numbers of transcripts, recommendations, and Department notices; making appointments and writing passes for students to see the guidance counselors; and acting as temporary nurse during the absence of Mrs. Fuller.

The secretaries in the Superintendent and Board of Education offices are also constantly on the go. Mrs. Joan Gould, Mrs. Wanda Schutte, Mrs. Ruth Siegfried, and Mrs. Betty Wintermute handle affairs, visitors, and secretarial duties in Mr. McDermott's office while Mrs. Grace Shelley, Mrs. Joanne Burgoon, and Mrs. Helen Quackenbush take on the vast office duties in the Board of Education office.

Typing tests, letters and countless other necessary forms is part of the never ending task of Miss Zora Youmans.

Good health is vital to any student or faculty member at Westerville High School; but when things aren't looking so "rosy", one can turn to Mrs. Marion Fuller, R.N., to get back into working order again. In her second year as both the junior and senior high schools' nurse, she spends three days a week at Westerville High School and the other two at Walnut-Springs Junior High administering her services. She is kept busy patching banged-up knees, stopping bloody noses, curing illnesses, allowing students to lie down in the sick rooms and writing passes, and calling parents when sick students request permission to go home.

A new addition to the high school this year was Mrs. Joanne Garbe who specialized as the speech therapist. Besides testing all sophomores for speech defects, she also located students who needed, or thought they needed, help. Her Tuesday and Friday mornings were filled with individual or group therapy helping the students with speech difficulties or voice trouble.

The job of a teacher engulfs more than just lecturing students and planting mass facts in their minds. It is a task of vast complexities which start at 8:00 A.M. when the tardy bell sounds and the race begins. His life is filled with attendance cards and absentee sheets; homeroom periods; yellow, pink, and blue passes; and an array of memos in his mailbox which add to the clutter on his desk. By first period he is ready to face the "energetic" students and begin the tremendous responsibilities of teaching.

Although many take it for granted, teaching is much more than just putting in a six hour day. As each period starts, he puts into effort the hours of after-school preparation which have gone into planning a single class period. Besides assigning seats and passing out books, he needs to teach and lecture, give homework and tests, and grade with fairness to all. Above all, however, he must make his class interesting so the students will be in a situation where they can learn and hopefully will take the opportunity to do so. With an average class enrollment of thirty students, and with as many different interests, this is no simple task.

In an effort to arouse the students' interests in an awareness of learning, the teacher must plan and schedule events or activities which will satisfy their curiosities and questioning minds. Active participation on their part or imaginative devices are tools used to instill enthusiasm and create a working experience for the students. His so-called "free period" is frequently taken up with having conferences with troubled students or parents, working on new concepts in teaching, or perhaps taking a few minutes to step out of the rapid pace and relax.

His task, however, has not been completed with just teaching. He must go further and test the students to see whether or not they are absorbing and producing to their full capacities: this is the trial which reflects how well he succeeded or failed in getting through to them. Little quizzes give way to big tests and then to exams; and he must spend hours grading papers, figuring scores, and averaging grades. His final duty lies in writing an overall evaluation of the school year's progress. He manages to live through every day until seventh period ends and the buses leave—then he can direct his attention to the next day. Eventually summer comes, and he is able to rest temporarily or further his studies; but, it is inevitable that September will soon come and he will once again take up the continual challenge that faces all educators.

Planning meals which are nourishing and appetizing is the job of Mrs. Mary Davidson.

Cooking for approximately 1500 students is not an easy task. Nonetheless, it is the job of Mrs. Mary Davison and the cafeteria crew to plan and prepare meals which are appealing as well as nourishing. Mornings are spent preparing the meals before the doors to the lunchline are opened for two hours. Then dishes must be washed and the kitchen prepared for the next day's meal.

ACADEMICS

A year at Westerville High School includes a variety of activities; but, in essence, the nucleus of the whole cycle is Academics. It is the reason we go to school and are able to have these other projects. Academics, as a firm foundation upon which to build future plans, is visible in countless expressions of daily school life . . . that painful plunge into the beginning the term paper due tomorrow . . . the seemingly endless moment before one's speech number is called . . . these ghastly sessions in the language lab . . . the day singing on key seemed impossible . . . a moment of triumph after making the final buttonhole . . . the time that the Pythagorean Theorem didn't work . . . that hour of tiring push-ups and dreaded showers . . . a few moments of peace and quiet to study. Each phase includes a series of different learning experiences, and yet they all contribute to that goal of building toward a richer academic life.

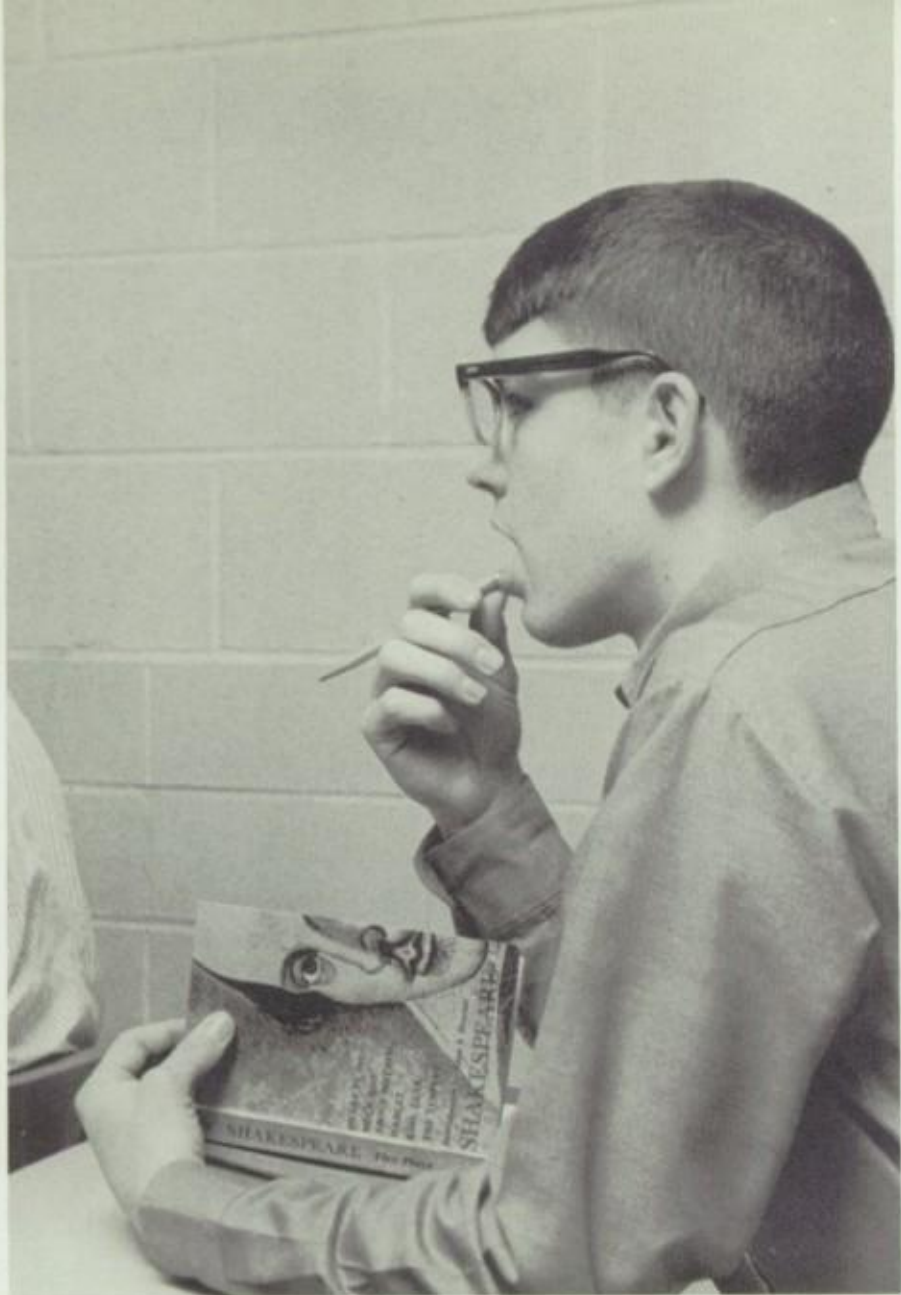

A drive toward modernization surged through the English Department, headed by Mrs. Inez Curry, this year. The ten English teachers involved participated in various conferences last summer where they studied methods of updating the department in order to create a progressive language arts course that would produce an education spiral from the first through the twelfth grades. The results were evident last September in the program instituted for senior English students by Mrs. Rebecca Berry. Each student selected three of the available courses, besides the required Basic English Literature course, to be studied during four nine-week grading periods. This, as far as it is known, is the only such program in the United States offered to an entire senior class. Other modern ideas, such as the junior English field trip to the Hartman Theater to see "The Man of La Mancha", were introduced at the underclass level.

Expansion and revision, also, were evident within the last year in the field of Journalism under Mr. David Bennett. The course's main goals were to establish a two-year program for interested students: the first year, mainly to instruct beginners in the fundamentals of journalism, and the second year, to further develop specific journalistic skills, as well as to explore some of the more intricate phases of modern journalism. The program, besides informing the students of school news in the "Wizekat", placed the participating students in a learning situation in which they are exposed to one of the fastest growing professional fields in the world today.

Mounting tension sets the stage as Charlie Marx and Bob Harmon prepare to duke it out in drama class, but their fight suddenly ends as the couch gives way to their struggle.

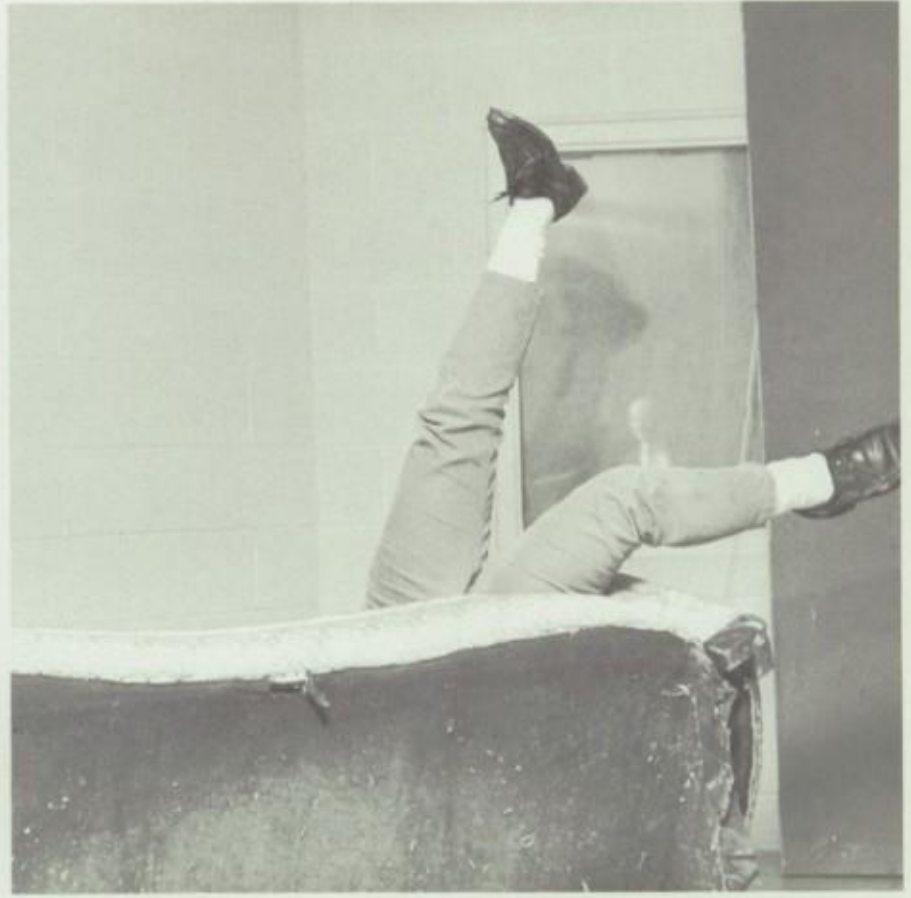

Below: An intent audience encourages Louise Hinkle to give her speech. The practical experience gives her self-confidence in speech-making.

Poise and confidence are only two of the basic fundamentals needed for good public speaking; and these, plus many others, are gained through the experience of speaking before an audience of fellow classmates in **Speech** class taught by Mr. Ronald Nocks. Students learn about and practice skills of speech-making during class and as a part of the daily activities.

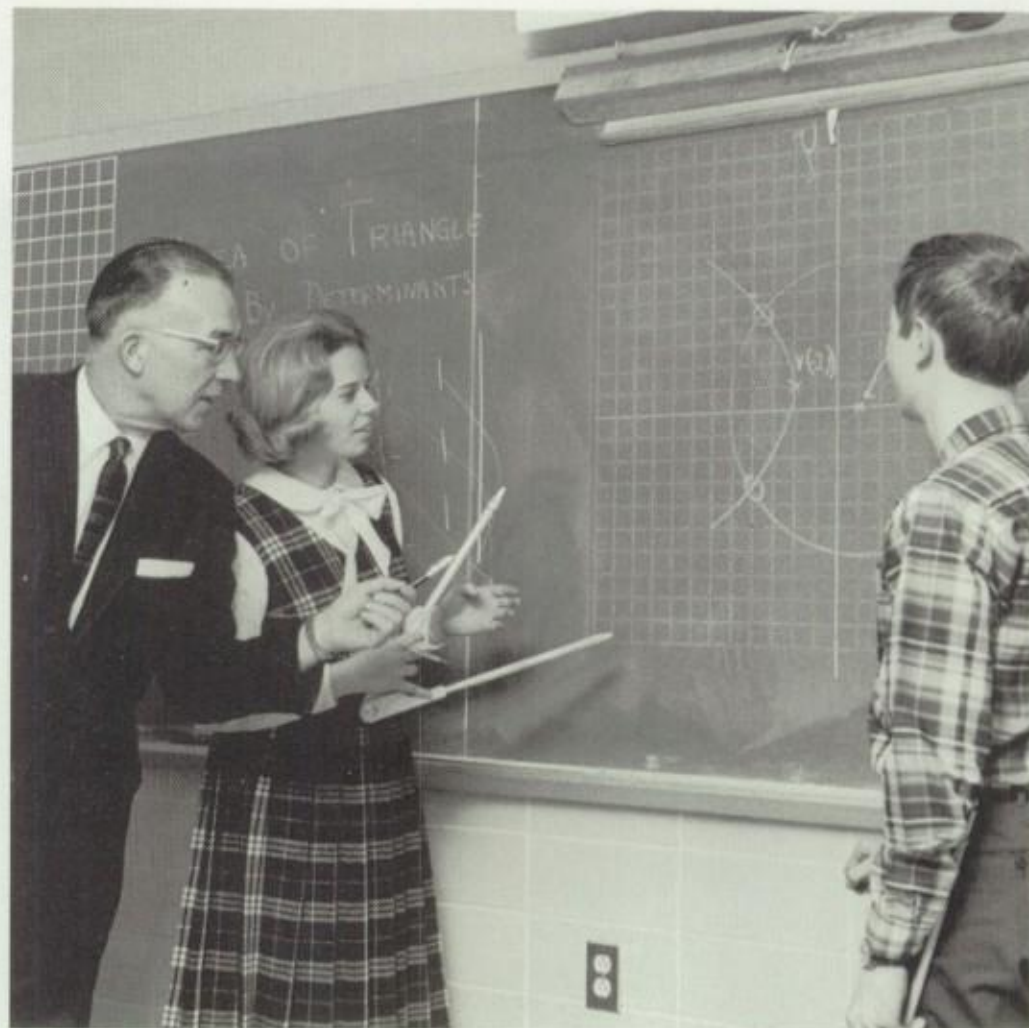

People often dream of becoming great actors or actresses; but in Westerville's **Drama Department**, also under Mr. Ronald Nocks, this wishful thinking can often become a reality. In the classroom students are given a general introduction to the many phases of the theater; but the most emphasis, however is placed on practical experience gained by performing in front of the class. Students learn to appreciate drama but discover that it is not always as sparkling and glamorous as many people believe. Many of the fine, young performers in drama classes are seen several times a year in the plays, which this year, included "The Diary of Anne Frank" and "The Sound of Music". The Thespian Club also plays an active part in the department by supplying workers, as well as actors, for the productions.

Below: The effective use of gestures, as shown by Mr. Nocks, is one of the basic fundamentals taught for the know-how of good speech-making.

Left: Laurie Haertling learns to operate one of the various office machines.
Above: Mr. Short explains analytical geometry to two students.

Learning from mistakes helps Leslie Foltz, who corrects an error in her assignment, to improve her typing ability and skill.

Visual aids are valuable to the learning process. Here, they supplement Mr. Hyrmer's lecture on polygons to his geometry class.

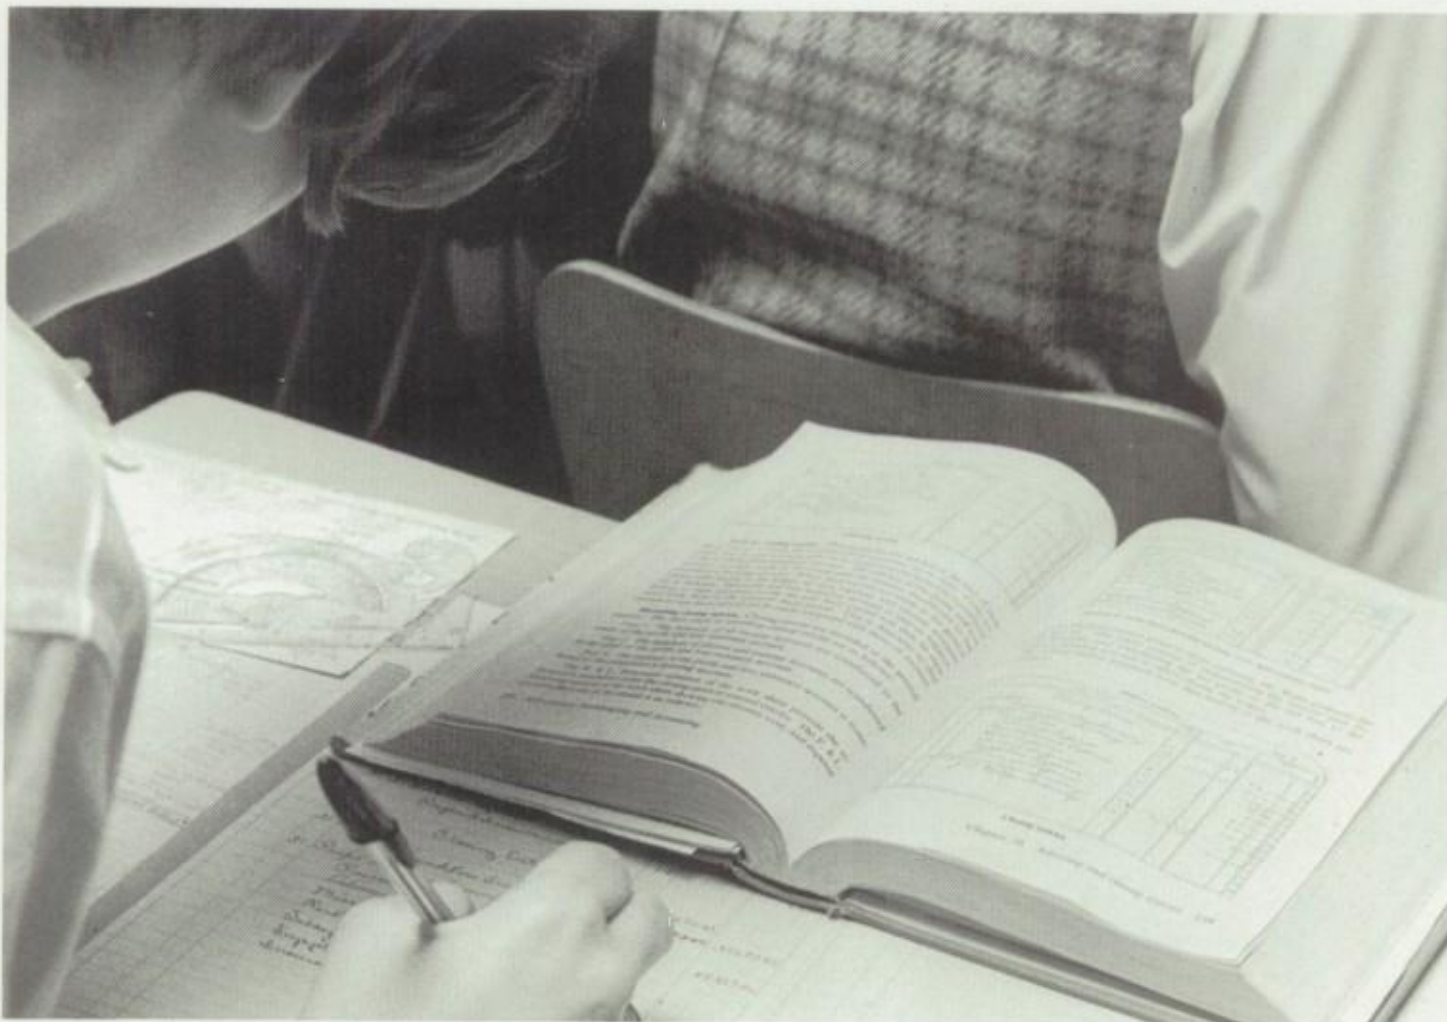

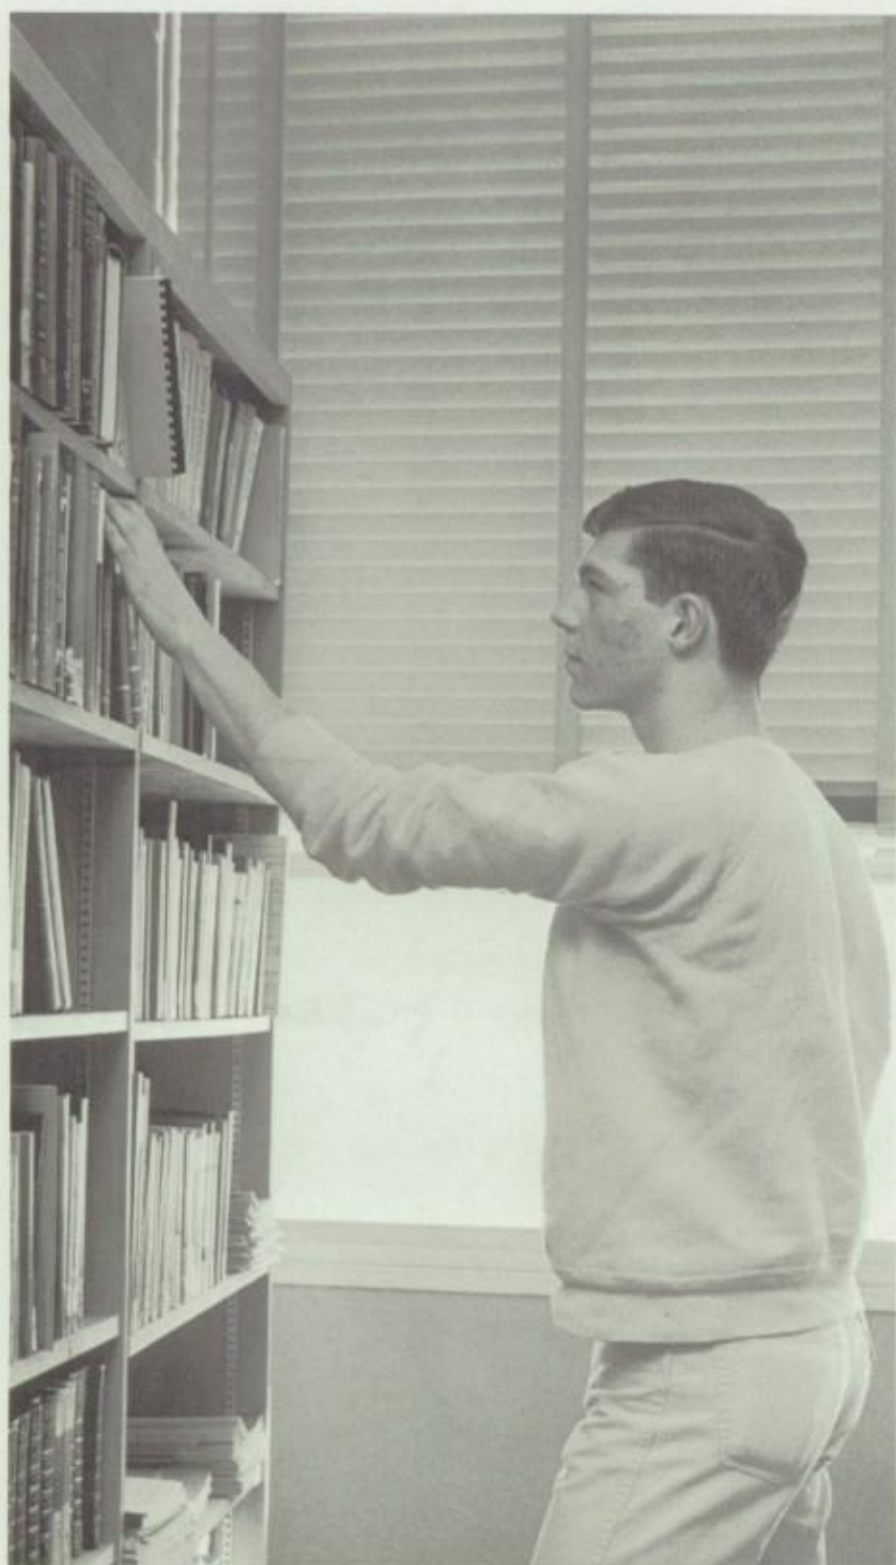

With the introduction of New Math into the world of numbers, lines, and figures, the **Mathematics** Department, under the direction of Mr. Robert Short, has started changing its program to include this area. Courses of study offered include: general math, algebras I and II, plane and solid geometry, trigonometry, and elementary calculus; as well as linear programming and other advanced topics, which serve as college preparatory courses. Despite the fact that it is an elective course, most students engage in and enjoy the subjects taught, although sketching curves or solving story problems often prove trying.

The **Business Education** branch, supervised by Mrs. Louise Bunce, too, appeals to many students, not only from the practical standpoint—because it provides typing and shorthand skills which aid schoolwork and other activities—but also from the vocational angle—in that it furnishes special training in accounting, bookkeeping, and other skills for those who plan to enter the business world after graduation. The classes' activities were highlighted this year by their trips to Nationwide Insurance Company and the Capitol Building in Columbus; and the Future Business Leaders of America, a club for those interested in business, visited the Motorist Mutual Building as one of its activities.

Above: The card catalog proves useful to Jeanne Matthews in helping her to locate books she needs. Below: Study hall provides time for doing necessary homework as illustrated by this student.

Shelves of reference materials, filmstrips, magazines, and pamphlets, fiction, and paperback books are found and provided for the students in the **Library**. These valuable resources are academically oriented to meet the needs of the students with research materials which have, for the most part, been coordinated with the school's curriculum through the efforts of the librarian, Miss Elizabeth Passmore. Assigned study halls are no longer in the library thus allowing more facilities for students' use before school or, with passes, during study halls to work on assignments requiring research or to pursue personal objectives. The policy dealing with only one book per person out at a time was changed this year, because of an expanded book supply, to permit students to take out a maximum of two. Possible future plans include admittance to the library without passes so that it may be used more freely and at the students' convenience.

Long rows of seats stretch throughout the room, filled with nearly motionless figures who are intently working on homework or staring blankly into space. A low murmur rises and falls; and the brief snickers over a quick, shared joke or a note just received from across the aisle and the constant rustle of pages and papers break the monotonous silence. These scenes are typical of daily life in the **Study Halls** provided for the students at Westerville High School. 200A and 200B, besides smaller classrooms, become centers of study throughout the day. A teacher keeps order and maintains a quiet atmosphere during the period, unless it is an honor study hall, to allow students time to finish homework, use the library, write letters, or catch a few winks.

An efficient supply of resource materials is a necessity for those seeking outside information for different classes. Mark Ritchie researches by taking advantage of the well-stocked references in the library.

Right: Experimentation provides Shirley Riley with concrete evidence that proves Chemistry assumptions valid.

The mass world of bottles, chemicals, flasks, and slide rules, to many, means a future in the field of **Science**. Under the director, Mr. Joseph Ralston, the program instituted at Westerville High School offers a wide variety of courses related to the scientific branch. General science, required for all freshmen, provides a background of basic knowledge and a stimulation for good scientific attitudes in both the regular and the two accelerated classes. Biology, chemistry, and physics, the elective lab courses, entail deeper programs of study in specific areas of science. Students enjoy dissecting animals or preparing various chemicals in lab work and experimenting with instruments, weather conditions, or heat waves. This year was highlighted with a number of interesting field trips. The physics classes visited the Batelle Memorial Institute, and other classes took nature hikes and went to the Westerville Water Plant. The Bi-Phi-Chem Club, affiliated with the science field for those interested students, also engaged in various activities and sponsored the annual Science Fair in which students prepared and were judged on their individual projects.

Above: Mr. Sadler spots for Steve Hosmer as he executes a one-armed side vault on the horse. Below: Miss Eigensee demonstrates set shots to one of her girls' physical education classes.

Above: Mr. Burner begins his lecture to his freshman health class.

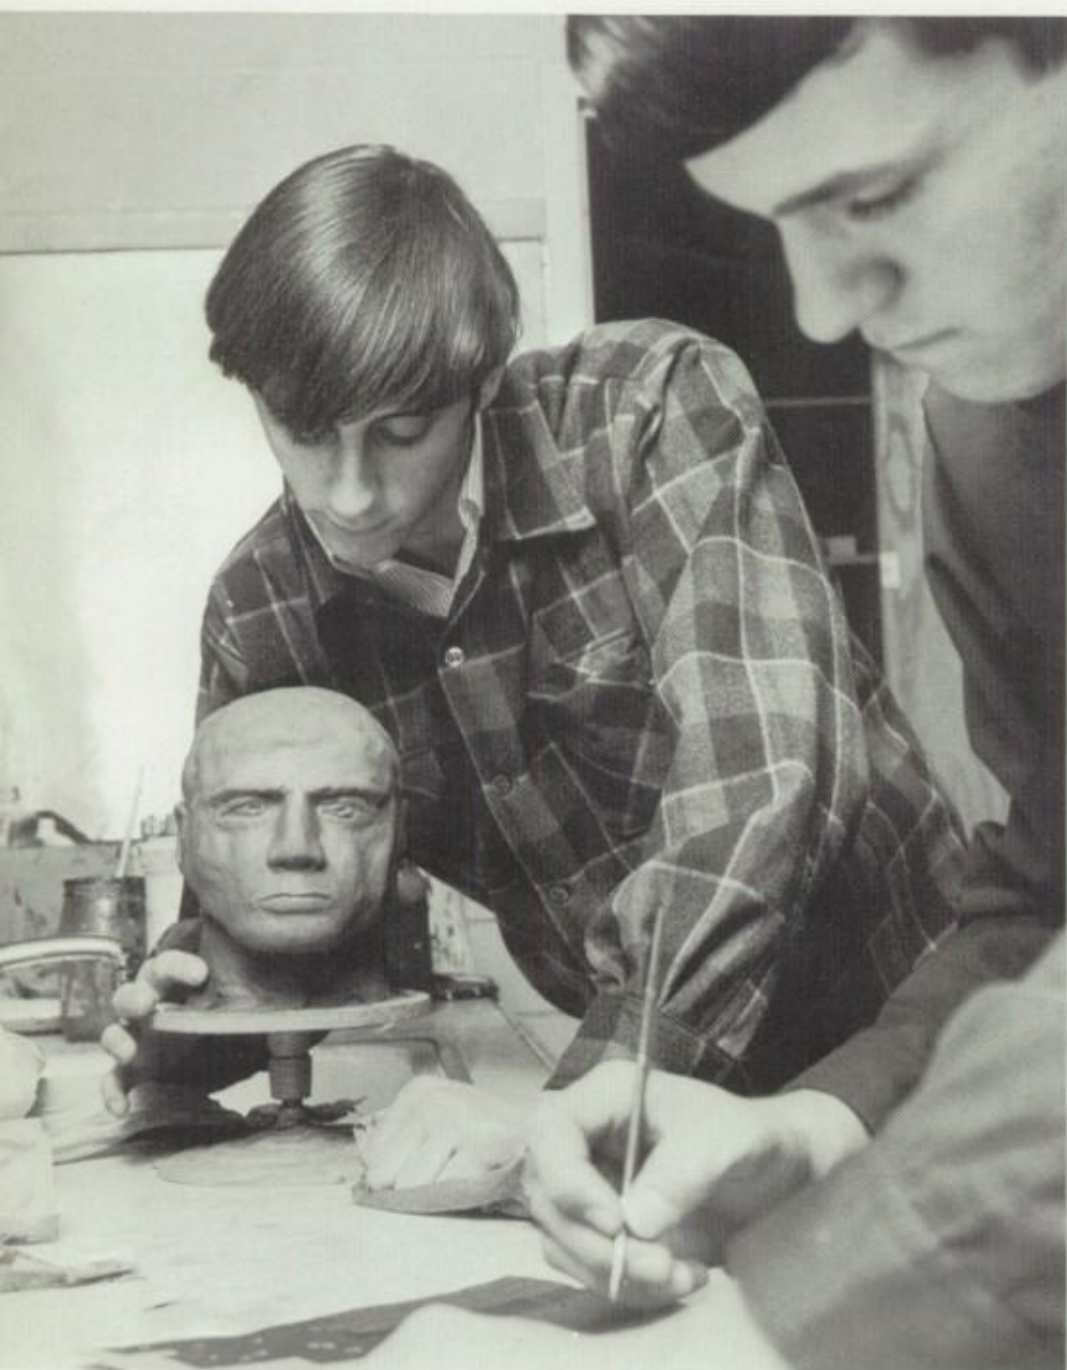

Those participating in the **Physical Education** program, a two-year required course for all students, find it to be a very enjoyable, and rather fun, course because it not only gives them a background in basic sport skills; but it also provides an hour of healthy exercise. Outdoor sports, such as hockey, soccer, football, archery, and baseball, and various indoor activities—tumbling, basketball, volleyball, and badminton—help the students co-ordinate their skills and take part in group and individual sports, besides practicing good sportsmanship. A program initiated last summer also teaches such summer sports as tennis and swimming. The Girls' Athletic Association, for girls who enjoy sports, supplements the regular courses with after-school recreation, intramurals, bowling tournaments, and the Father-Daughter Banquet.

Along with physical education is the freshman **Health** class taught by Mrs. Doris Gantz, Miss Mary Lee Eigensee, and Mr. Chuck Burner for daily half-hour periods. The students learn about and discuss: mental health, chronic and communicable diseases, smoking, drinking, and narcotics, nutrition, consumer health, and first aid. Besides every day lectures by the teachers, they participate in several experiments and group discussions.

Above: The quality of music and individual achievement produced by daily practice is maintained in band under the direction of Mr. Forrest Becker.

A time to pursue individual projects and master art skills comes during class and is put to use by Vince Pomante, Mike Crain, and Marcia Arnold.

Above: Talents may be natural, but Paul Miller intends to keep and perfect his ability to play the violin by constant practicing.

Above: Improvement takes time and effort and persistence must be used at all rehearsals. The freshman chorus knows this to be true, for their fine quality tone is acquired through daily drills.

Whether it be dabbling in paints and molding clay, practicing for contest, or singing a few bars of music makes no difference—all areas are included in the vast **Fine Arts Department** consisting of **Vocal and Instrumental Music** and **Art**. Freshman chorus, Choralettes, choir and various ensembles comprise the vocal music section headed by Mr. Howard Longmire. These groups have participated in a school exchange program with Canton, the Christmas concert district contest, and other musical activities. Their program of study has been greatly expanded under Mr. Longmire, and the result of this hard work has been an excellent display of vocal music.

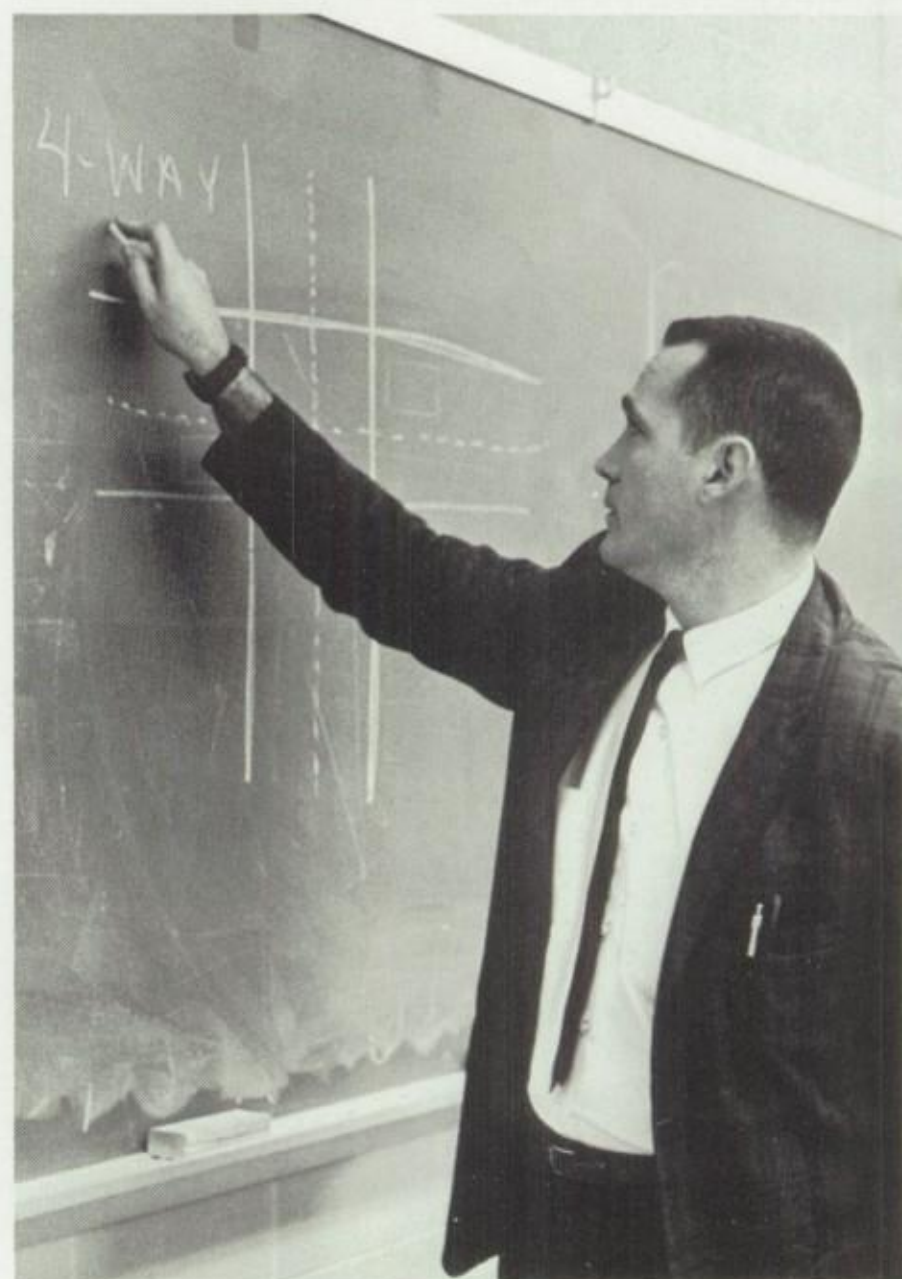

Music can also be heard in the marching, Red, and White bands and the orchestra led by Mr. Forrest Becker. Each annually performs in several concerts and contests; and this year they provided music on a variety of occasions: The "Marching 99" furnished halftime entertainment at the football games, the Red Band engaged in an exchange program with Whitehall, and the orchestra accompanied the Drama Department in "The Sound of Music". While supplying the school with musical enjoyment, the program also helps the students find their weaknesses and perfect their quality and tone in playing.

One of the most interesting courses offered at Westerville is Art under Mr. Donald McMeekin. The program is designed to instruct the students in learning the basic art skills and establishing a creative approach to problem solving. Students work on projects, drawings, or displays in the showcases, among other things; and many this year had the opportunity of taking part in such outside activities as the Red Cross art exhibit.

Another facet in the learning process is that of active participation. Jim Williams here is ready to begin his out-of-class training in Driver Education to gain first-hand understanding of driving techniques.

A desire to train the student with skills needed for jobs after graduation is the established goal of the **Practical Training Program**, which consists of: Industrial Arts, Mechanical Drawing, Driver Education, and Distributive Education, at Westerville High School. These areas, such as driver education, have become essential to modern living and provide the students with practical experiences and know-how needed to fully understand what is being taught. In industrial arts and mechanical drawing, students are exposed to the most modern techniques used in industry; and they learn the importance of safety precautions while working. Among the greatest values acquired by those participating in these classes is an appreciation for good workmanship, accuracy, and association with others.

Distributive education, too, is a valuable course for both college-bound students and those who will enter the business world after graduation. In D.E., the students study advertising, merchandising, store organization, and business law, to name just a small part of the program of study. They also have the added opportunity of participating in a number of state and national competitive contests to show their potential abilities. The most outstanding part of D.E., however, is the experience gained by going out into the Westerville area and working for the various business merchants. This is the "earn while you learn" program which has made D.E. a nationally famous organization.

Lectures and Diagrams are important teaching devices. Mr. Sadler here draws and explains about four-way stops in driver education class.

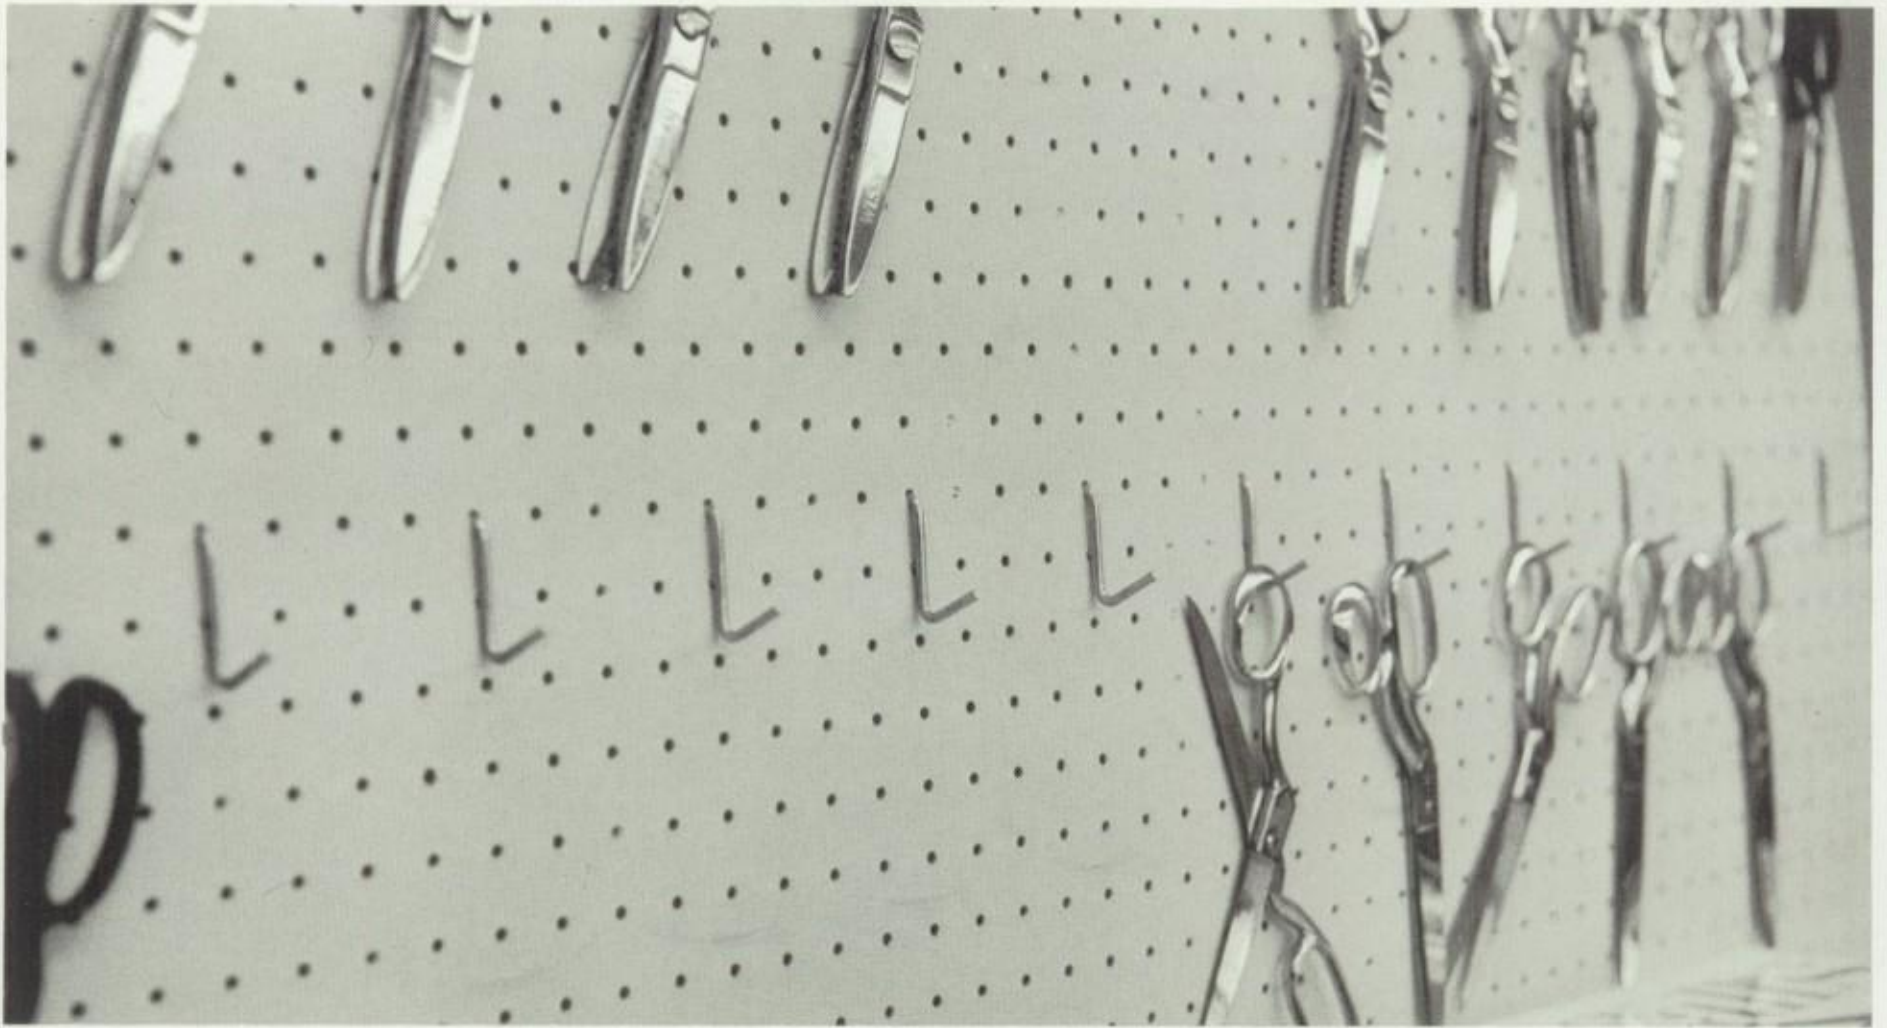

Above and Below: Two students concentrate on precision, an essential skill necessary in mechanical drawing.

Learning and applying basic skills effectively and using tools correctly are taught in industrial arts.

Knowledge is also gained through the experience of using the basic tools essential to a course of study—Scissors and pattern books play an important part in the Home Economics classes.

Accuracy and nimble fingers help this Home Economics student acquire the skills needed in finishing her sewing project.

Westerville High School's green house provides evidence for plant observations and on-the-spot training to further the knowledge about plant life.

Students pursuing careers in Home Economics, Horticulture, or Vocational Agriculture can enter into the **Vocational Education Program** available at the high school. The Home Economics Department has, for the past three years, undergone various changes to include teaching theory, principle, and basic skills in the courses of study, which entail family living, clothing and textiles, home furnishings and management, child development, and food and nutrition. The classes are family-centered and emphasize individual development; and due to the rapid growth of the department and popularity of the senior non-major class, it has considered initiating a senior home economics class for boys.

Horticulture and Vocational Agriculture are also keyed to future careers in those areas. Horticulture, which specializes in such fields as processing, manufacturing, food and seed productions and values, storage, marketing, and landscape gardening, gives the students an opportunity to practice and apply classroom learning in the greenhouse and nursery. Here they receive the working experience of carrying on the skills involved in maintaining any horticultural crop.

Vocational agriculture centers around animal and crop productions, conservation, motor mechanics, leadership training, and agricultural business. The classes go on various field trips and have guest speakers when desirable to supplement the course and help the students learn the fundamentals first-hand.

Below: Mrs. Near instructs her Spanish III class and makes Mexico come alive through the use of visual illustrations.

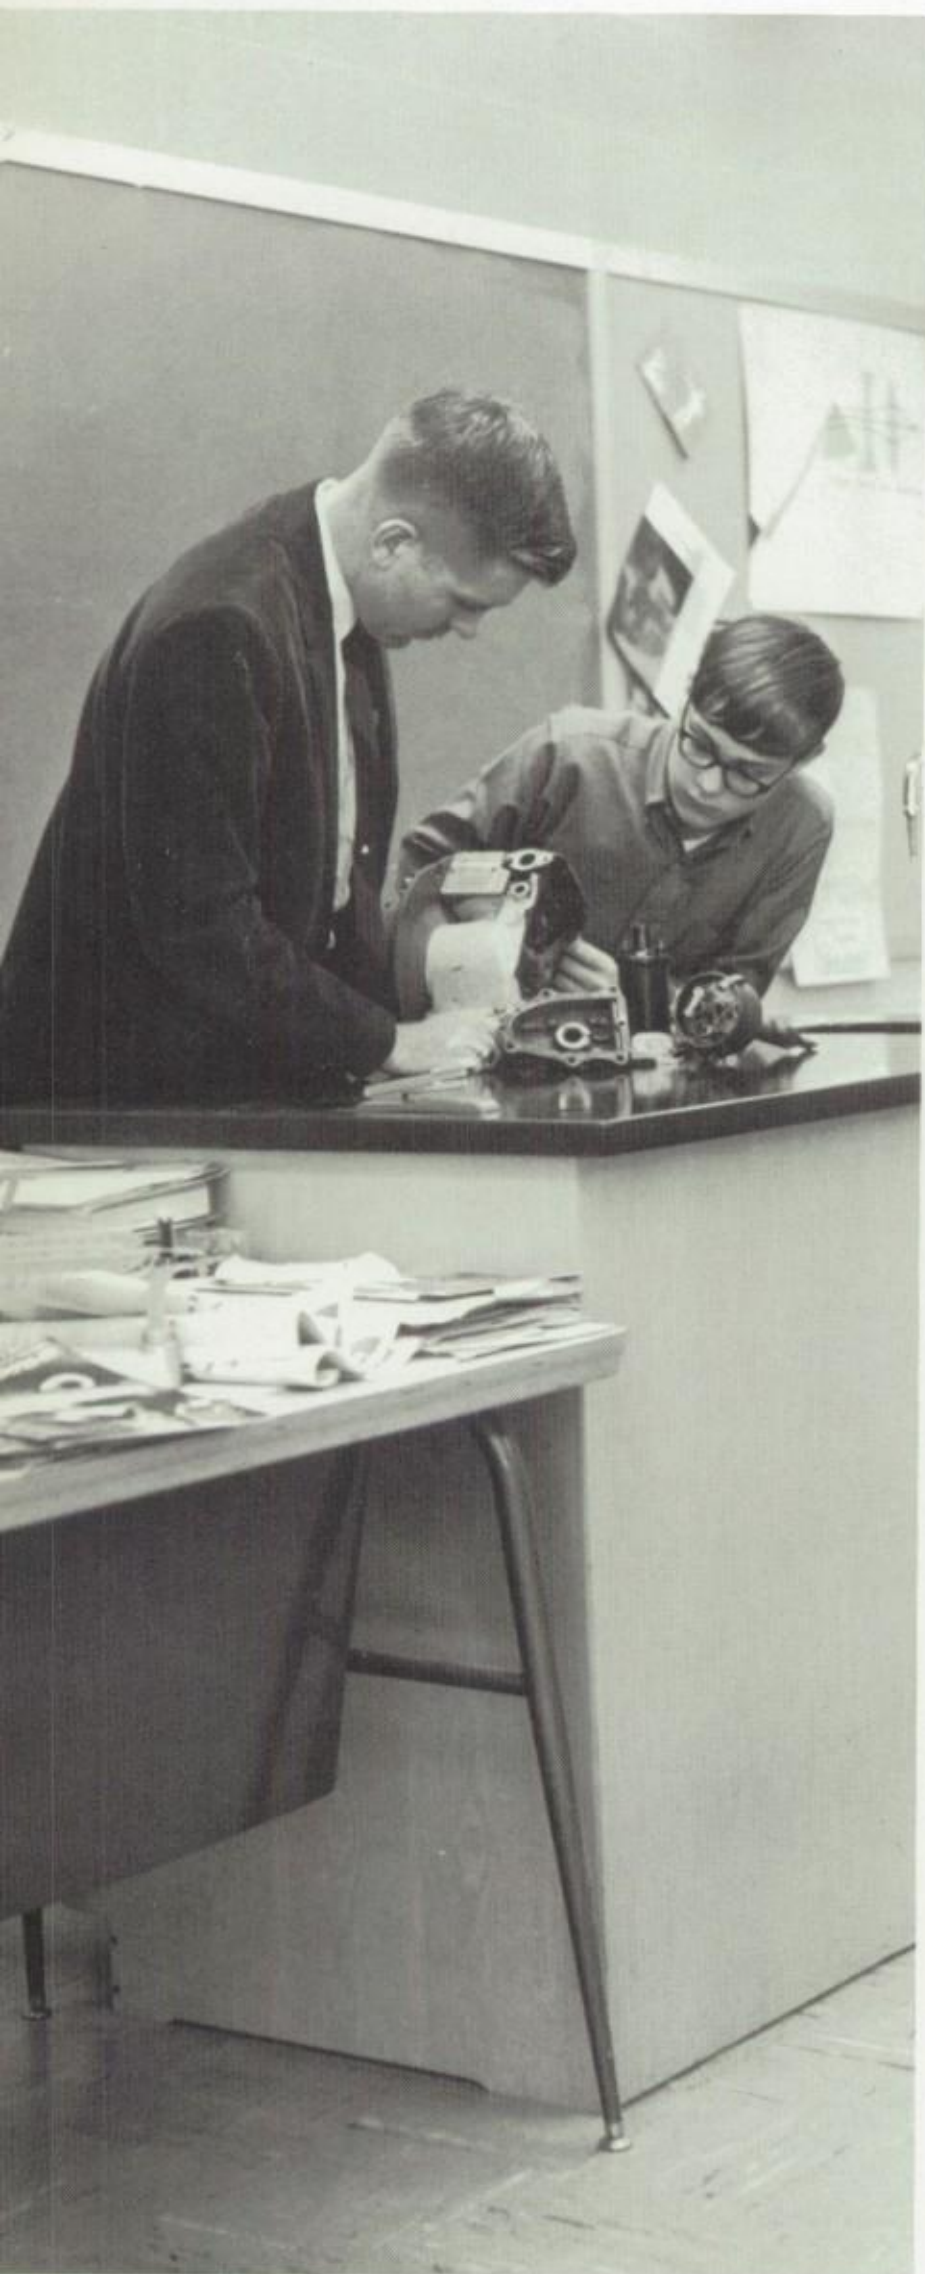

Note-taking plays an important part in learning about current events as stressed in Mr. C. Miller's American History class.

Many students are baffled by **Foreign Languages**; but those engaged in the French, Spanish, and Latin courses offered at Westerville High School find that they are really quite interesting and, with a little amount of effort, can be mastered. The department initiated a new course of study involving the adoption of audio-visual devices in the language labs this year to further aid student development. It also employed a series of progressive textbooks in the French classes and will establish a similar program next fall. Several events which took place and were enjoyed by all the students this year were the annual Latin Banquet and the Spanish II field trip to Vets Memorial in Columbus to see "The Man of La Mancha", throughout the 1966-67 year.

The role of mankind and the universe in the past, present, and future comprises the program encompassed within the **History Department** under Mr. Regis Birckbichler. The department which includes: World and American History, American Government, Ohio History, Sociology, and World Geography, is revising its program to include the social and economic, as well as political, problems of our times in a classroom atmosphere that allows the students to independently think and solve the problems arising in history. These courses were supplemented with interesting speakers from Viet Nam and the Peace Corps, filmstrips, and other materials which made the past come alive and become more meaningful to the students.

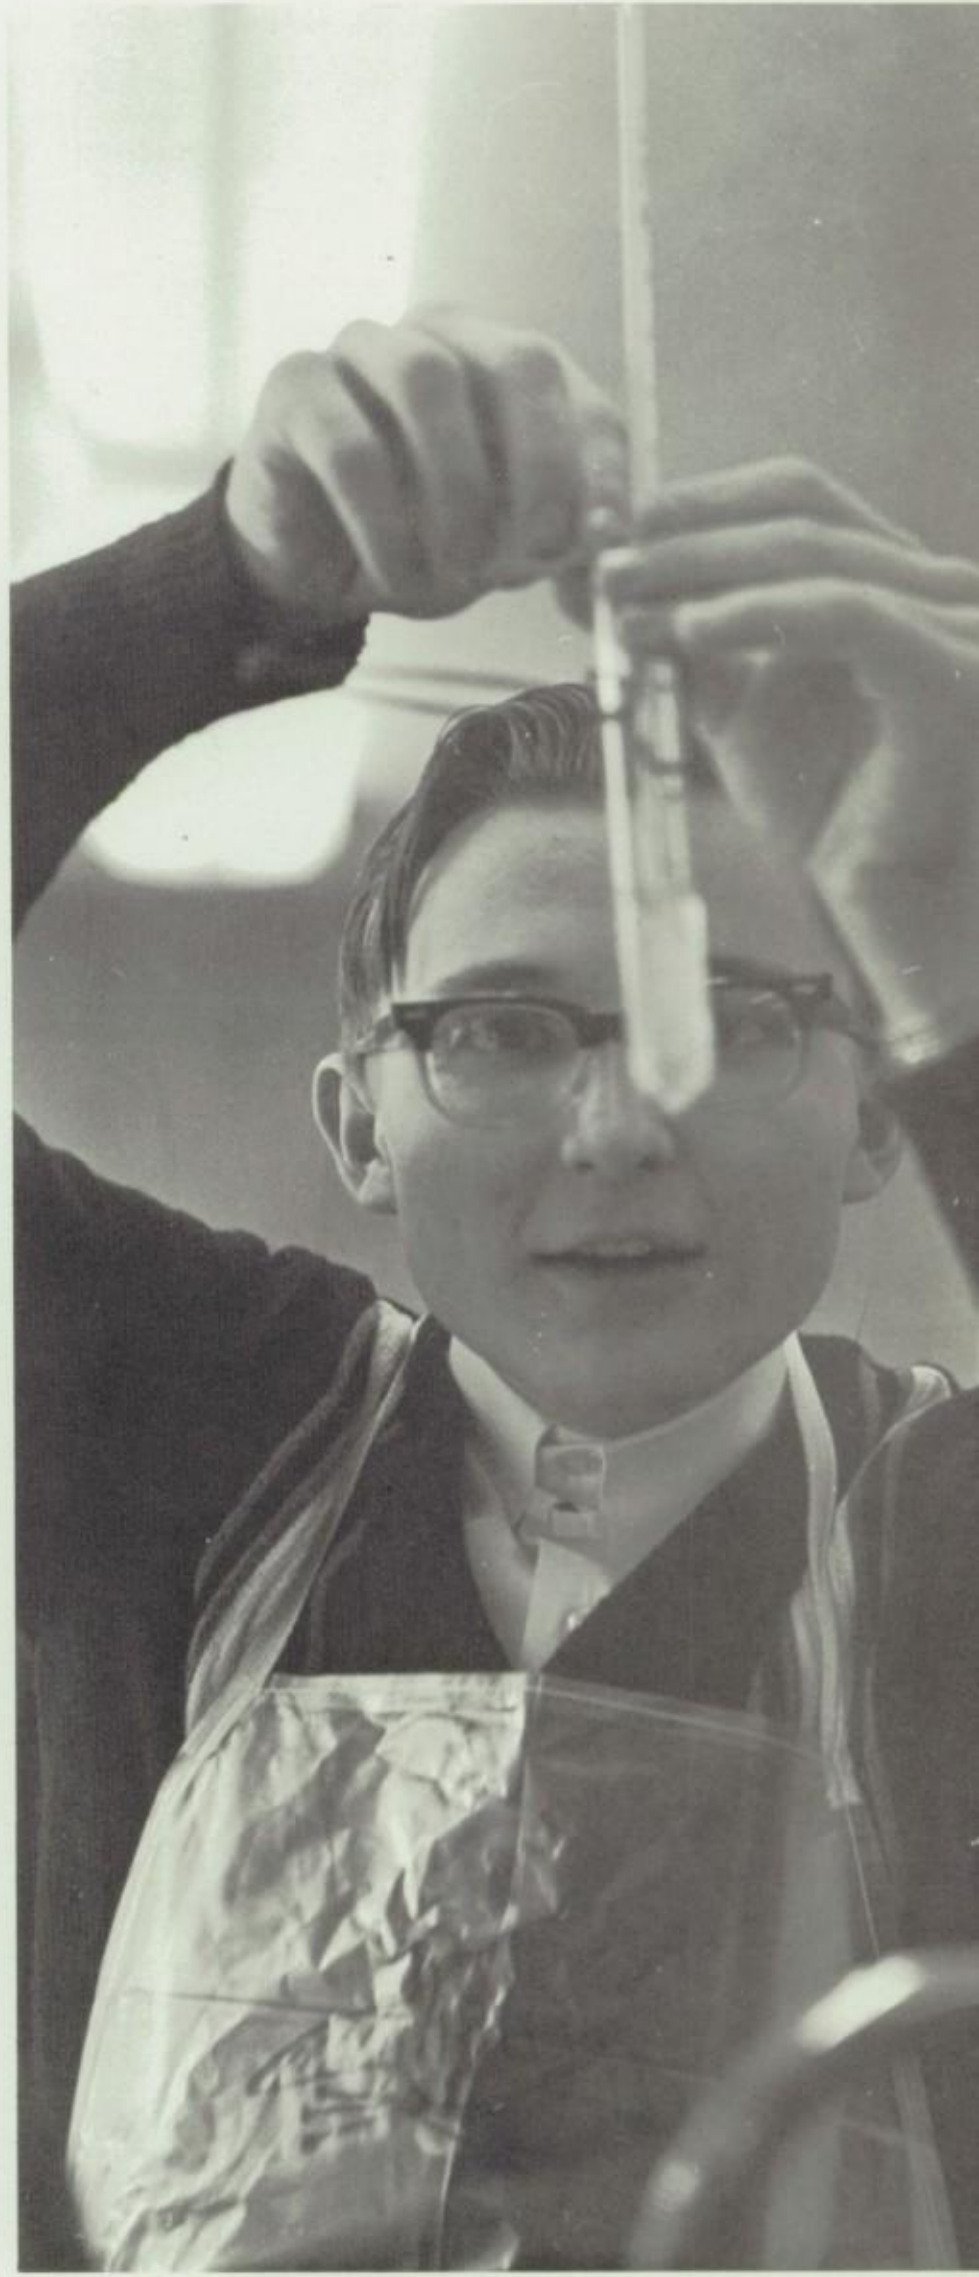

Many controversial topics, such as religion in the public schools, are vital issues discussed in Mr. Delaney's American Government classes.

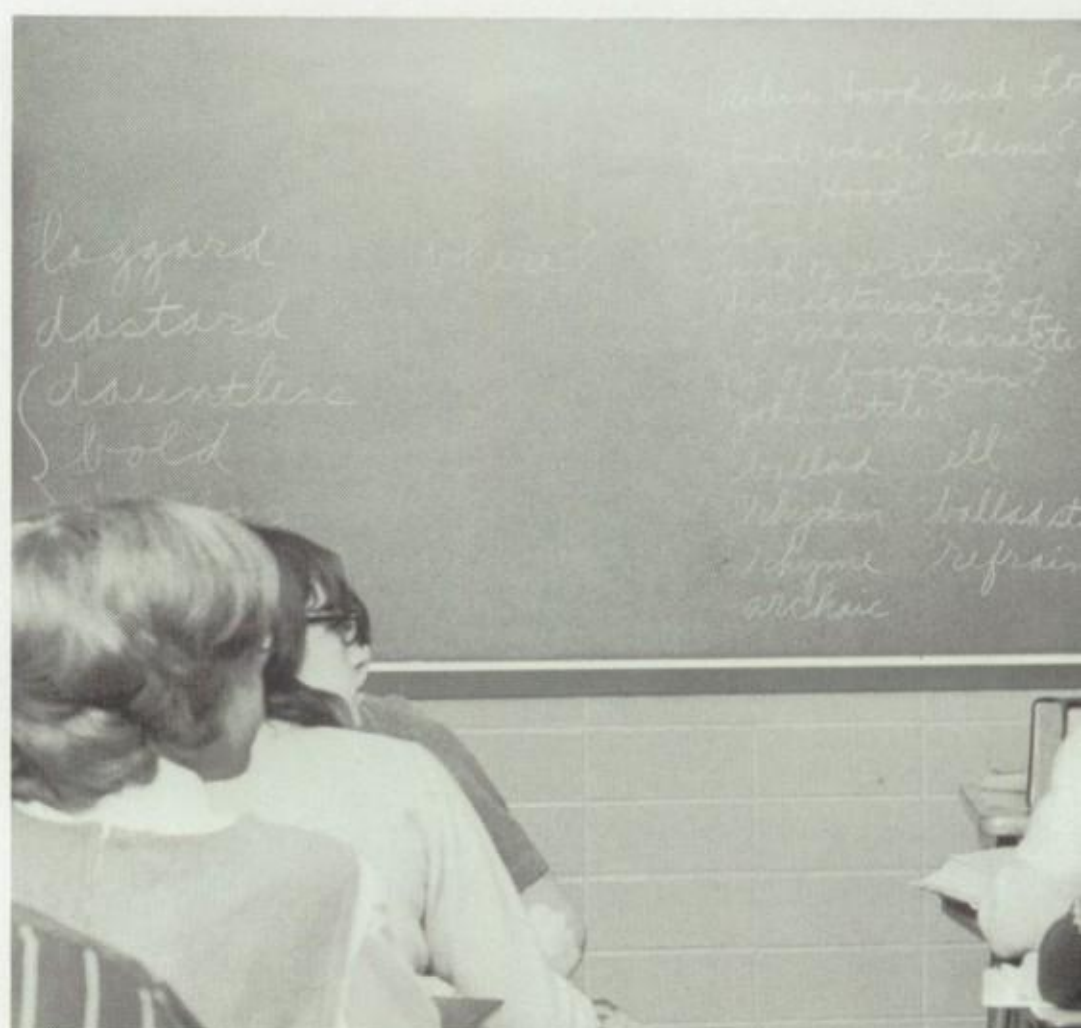

UNDERCLASSMEN

The underclass years are vital to the student at W.H.S. because they not only furnish him with a well-rounded program of learning and extra-curricular activities, but they also pave the way and help gear his insight to the senior and future years. Unforgettable are all the friends made, learning acquired, and fun experienced with each day taking along the new and old experiences of the high school world . . . that moment of nervousness before walking for the first time through the doors of W.H.S. . . . trying to remember which room is 200A . . . proudly making it to class before the tardy bell rings . . . finally feeling a sense of belonging . . . wearing that clean new varsity letter . . . being asked to the Junior-Senior Prom . . . at last being able to drive to school . . . enjoying the upperclass life . . . preparing to step in and fill the empty senior space next fall. They live through these years with hope and anticipation, wanting to turn back the clock yet always pushing forward; each freshman, sophomore, and junior will cling to the memories of days gone by as an underclassman and look forward to the future years at W.H.S.

Above: Freshman class officers: Jim Zinn, president; Fred Benson, vice-president; Marcy Schneider, secretary; Marylee Griffith, social chairman; arrive at school ready and eager to learn. Below: Mrs. Cochran pinpoints a location which sets the stage for the world of prose and poetry.

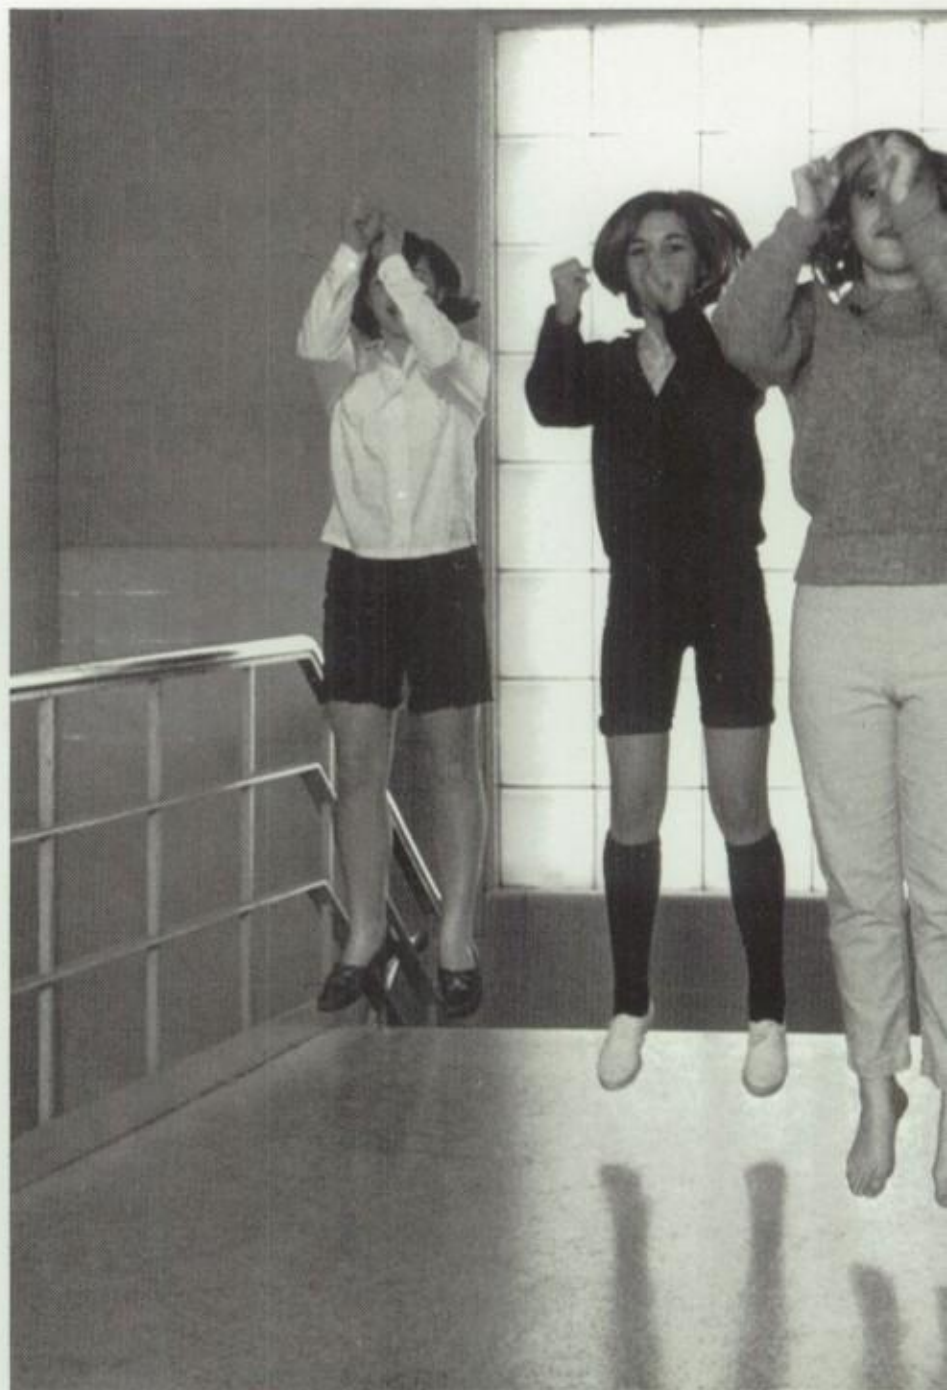

Mark Huffman and Sharon Diehl find that in Mr. Spade's class, the key to learning is discovery.

To the timid newcomers, the word **Freshmen** introduces a sudden note of awareness that they have finally made it to the mysterious and unique world of high school. The future seems vague, almost a lifetime away, to these underclassmen who must cope with, and try to conquer the chaotic, daily grind . . . figuring out which way is up . . . discovering in Health class what life is all about . . . struggling to keep peace amidst all the confusion . . . learning to grin and bear the upperclassmen's cutting remarks . . . realizing the freedom from the reins of junior high days . . . getting over mad crushes on the Juniors and Seniors . . . overcoming the world of the unknown. It is a year of wonder and a time to settle down and fit into the daily routine at Westerville High School.

Mrs. Berry contemplates and qualifies student response to a controversial issue brought up during English class.

With a year's experience in the past, the sophomore feels he can start anew, confident that he's finally in the swing of things and won't have to once again fight the confusion typical of his freshman year. The going is getting rougher, though, as he will soon see; for he has harder courses, new experiences, and two more years to endure . . . conquering the Greeks and Romans in the battles of World History . . . bravely withstanding the smell of formaldehyde in Biology lab . . . figuring out why only one line can pass through two points . . . being proud of a Junior or Senior date for Homecoming . . . participating in all clubs open to sophomores . . . wading through the literary masterpieces in English. He is finally the upper-of the underclassmen and can look forward to the upperclass life and activities next year as a junior.

With two years of hard work as evidence, the junior can now say that he is an upperclassman and be proud of his well-deserved title. He has been exposed to many sides of school life and has had time enough to manage success or failure; but the battle is only half won, for he has two remaining years to endure. Each new day, however, brings new opportunities and opens the door of the future a little wider . . . trying desperately not to blow up the Chemistry lab . . . making the last payment on the class ring which serves as a mark of distinction to the upperclassmen . . . passing both parts of the driver's test the first time around . . . sweating to earn enough points for a Varsity letter . . . being inducted into the National Honor Society . . . anticipating success for the Junior-Senior Prom. He gains a feeling of importance and a surge of hope as he lives through his junior year with thoughts of "taking over" next September and only one more year to go.

SENIORS

It is hard to believe that the "lowly freshman" of just three years ago has suddenly become one of the pacesetters and big wheels as a senior at Westerville High School. He has grown with and lived through the difficulties and joys of daily school life, yet he can still look forward to a few final thrills and added prestige inherent in every senior year . . . holding the office of Student Body President . . . being crowned Homecoming Queen . . . struggling with college applications and suffering through the SAT or ACT . . . finding out what 3-11 on the English key means . . . anticipating another "work sheet" in algebra-trig class . . . discovering, while being measured for caps and gowns, that one has a size $7\frac{1}{2}$ head . . . dying from laughter over the faculty skit at the Senior Banquet . . . getting ready for the last Jr.-Sr. Prom . . . remembering to go in row three during Commencement exercises . . . receiving the diploma . . . becoming suddenly aware of the future. One gains a sense of accomplishment and relief as the final day draws near, as if the last years, although chaotic, were not in vain. Life at WHS will become a thing of the past when graduation is over; but senior memories, whether good or bad, will never be forgotten, but will linger forever in the hearts of all.

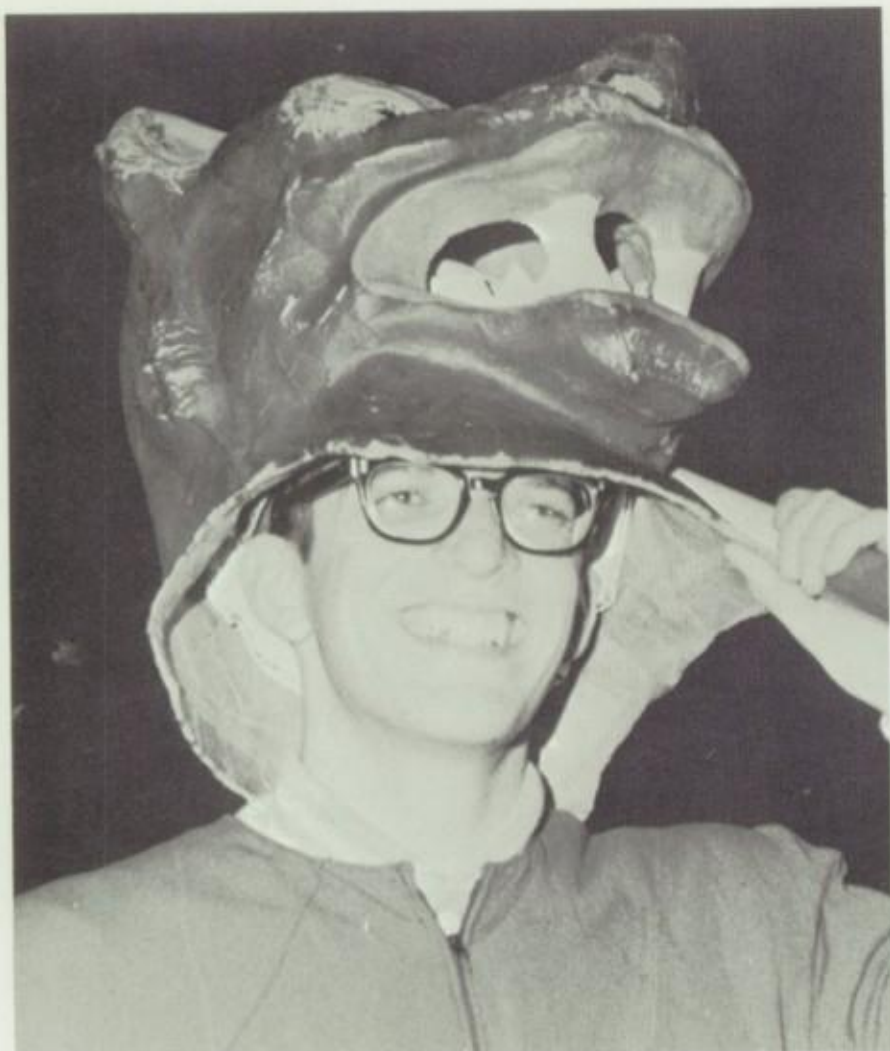

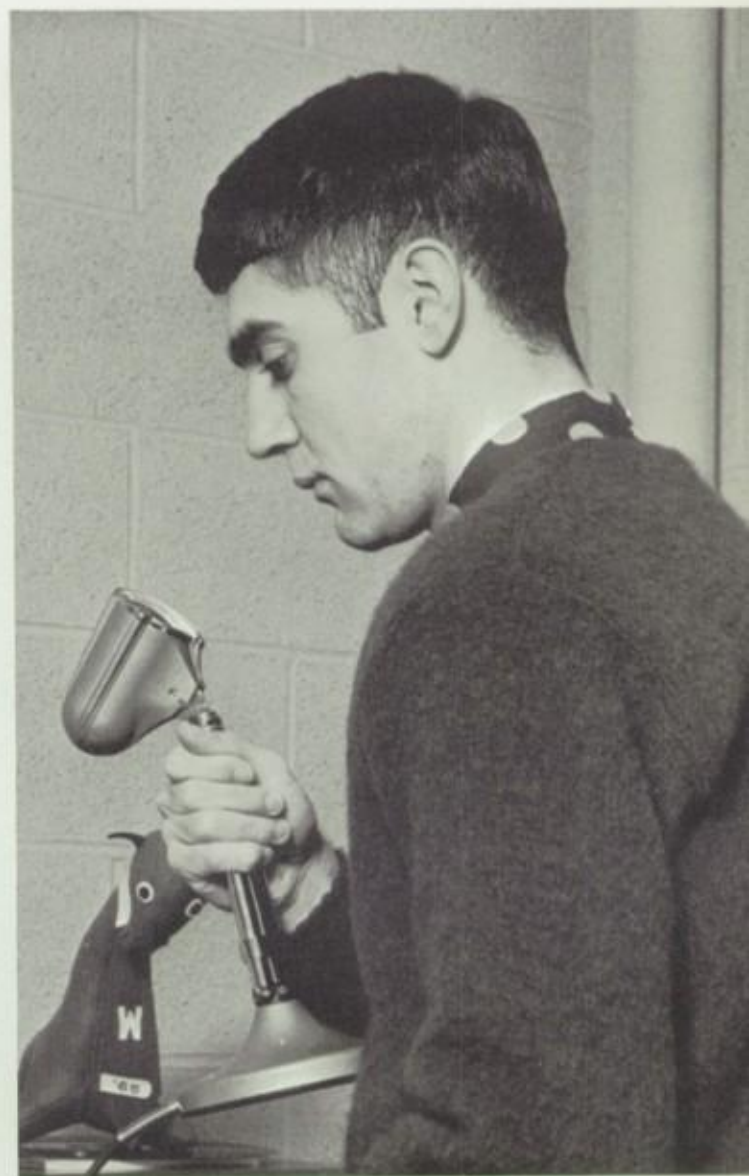

Above: Daring leaders of the Senior class were President, Dick Meyer; vice-president, Kirk Westervelt; secretary-treasurer, Barbi Sheridan; and social chairman, Suzi Osborn. Right: "Weathering the storm", Sue Brown and Dave Erwin display the spirit of the many fans who followed the football team throughout its winning season.

The year for which all have been "patiently" awaiting has finally arrived, and the seniors can now fill the vacant place as leaders of the school. It is their last year in the halls and classrooms at WHS, and they mean to enjoy and excel in all fields, academic or social, expected of them during the "height of their glory" . . . learning the art of getting through the "masses" to class before the tardy bell rings . . . watching with an understanding eye as the freshmen frantically try to find their way around the halls . . . enjoying only three periods of school as a DE student . . . taking on full responsibilities as officers of the organizations . . . facing the final football season with anticipations of victory . . . enjoying the Senior Party at the Sheraton Hotel . . . gaining recognition at Senior Assembly as a member of the Academic Varsity . . . rushing to collect data during the physics practical . . . spending the day at the senior swimming party while underclassmen are still in school . . . feasting on Colonel Sanders and coke during senior lunch parties . . . trying to remain "calm, cool, and collected" during Baccalaureate and Commencement exercises . . . having one's name pronounced correctly when handed the diploma . . . joining in the last united class activity of flipping the tassels after graduation. The final year is one filled with memorable occasions to be remembered always by the senior class of 1967.

SPORTS

Sports at Westerville High School seem to be the nucleus for excitement and enthusiasm in the school, casting their spell over not only participants but also the spectators. It lures all of the school into the exhilarated world of school spirit and that anticipation of success found in every activity that builds toward the ultimate goal . . . summer practice, unbearable heat and sun, sweat . . . daily conditioning, hours of striving for perfection . . . pep rallies, noise, spirit . . . dressing and then warming up for the game that **will** be won . . . jump ball . . . first down . . . gaining points for a near pin . . . breaking away into an open stretch of track . . . halftime, a moment to slow down the pace and prepare for the remaining half . . . wishing that putt was in the cup . . . taping those tired and injured muscles . . . the long shot into the green . . . one second to go . . . three balls, two strikes . . . touchdown . . . victory . . . A new personal strength and awareness are gained, even if all is lost. Every game, event, or match seems unique; but, in reality, all are interwoven with high hopes, determination, and a common desire for victory.

The leadership of Coach Burner developed the team and promoted school spirit in the process.

Inspired by the incentive to be victorious in the Mid-Eight League, the Wildcats started their rigid training sessions in August, 1966, to condition for the 1966-1967 football season of ten games, seven being league contests. Thirteen returning lettermen headed by senior tri-captains "Soupy" Campbell, Greg Koski, and Lou Lord were back on the Varsity squad; and the new policy of "blood, guts, and desire" started by coaches Chuck Bärner and Carroll Meadow with the gold BGD lettered on black jerseys boosted the team's morale and determination to score a winning season.

Tension mounted as the opening game with Whitehall, a tough team who had previously defeated Westerville for seven straight years, drew near. The results of the game, however, were not disappointing because the Wildcats, with more than 300 yards total offense to Whitehall's 166 yards, chalked up their first victory against the Rams, and of the season, with a 14-12 win.

Their winning streak lasted through the Big Walnut (50-6) and Groveport (27-6) games, with junior fullback Trevor Newland and senior quarterback Greg Koski as leading scorers, until they toppled in crushing 12-6 and 14-0 defeats against Gahanna and London; at Homecoming. Then, after suffering an 8-6 loss to Grove City, the Cats tilted Mifflin 32-0, with senior halfback "Soupy" Campbell scoring four touchdowns and 192 yards, and Marysville 13-12. Their last Mid-Eight conference game against Hilliard though, because the Cats were put down 42-7 proved to be the worst of the season.

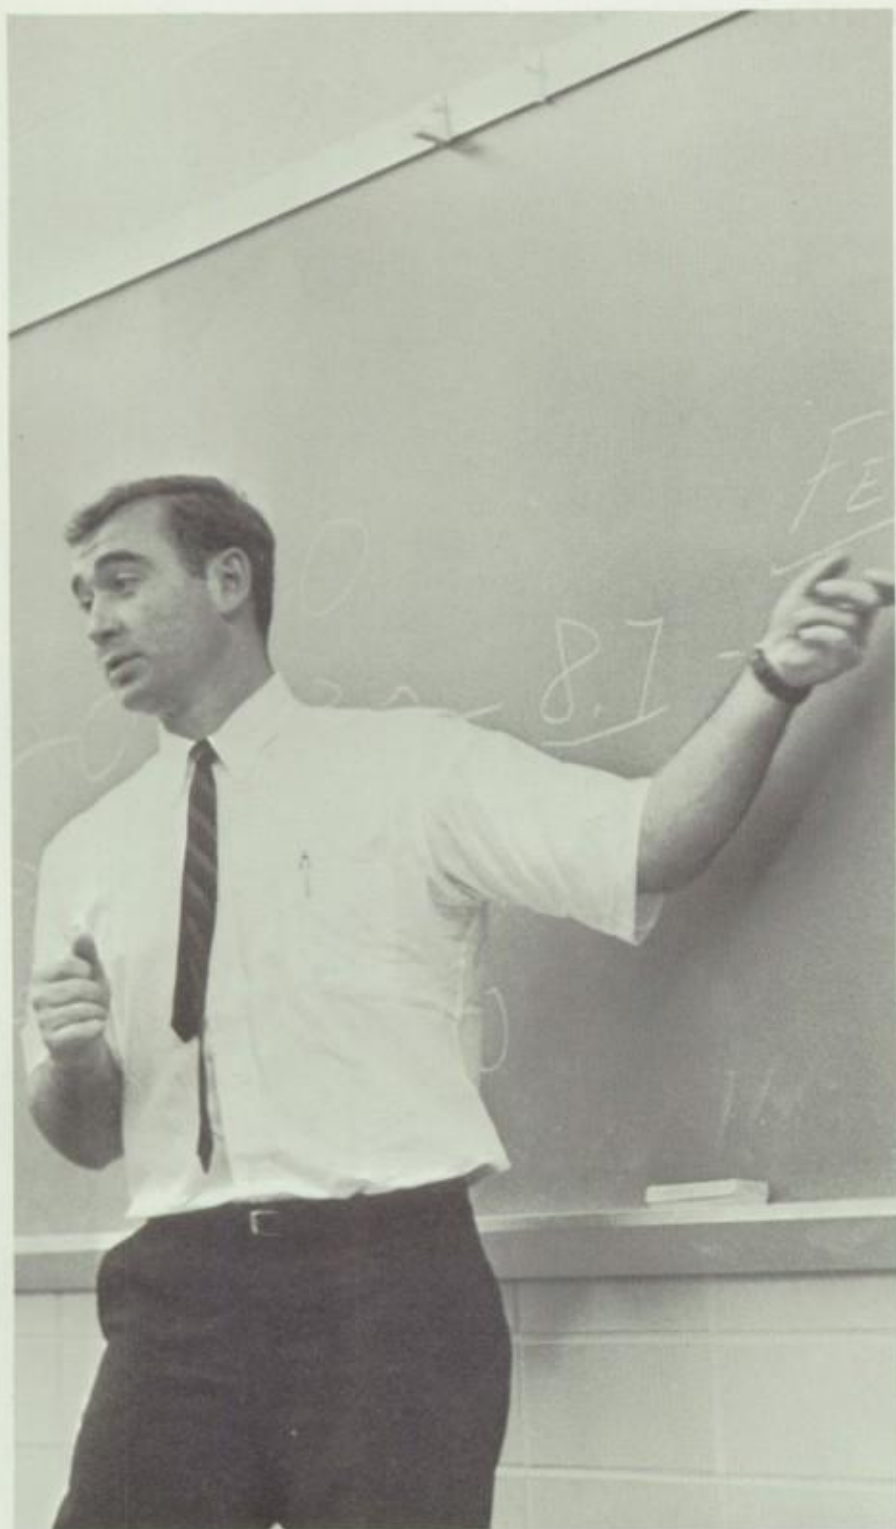

By defeating the tough Worthington ball club in their last seasonal game with a 12-6 upset, Westerville finished their season with a 6-4 record marking the first winning year since 1959 when they stood 5-3-1. The gridgers also received additional honors when seniors "Soupy" Campbell, Steve Hillier and Greg Koski were elected to the all Mid-Eight first team with junior Allan Wolfe and sophomore Dale De Long received honorable mention. Koski was also selected for the first team All-Central District, one which Campbell and Hillier made honorable mention, and received honorable mention on the AP-All Ohio Squad. It was a season to remember and a most exciting year in football at Westerville.

Coach Bill Sadler and Assistant Mr. John Evans were expecting great things from the boys who went out for Cross Country. When the season started during the first weeks of school, they had already pre-planned the team's days of practice. Every morning at 7:00 A.M. the boys ran a seven to ten mile lap and then returned that afternoon around 3:00 P.M. for one and a half hours to repeat the routine. Evenings were filled with twenty-minute sessions of calisthenics, a longer and faster sprint than had been run earlier in the day, and a five-mile run around the course encircling the school.

Besides daily practices, the boys went out two or three times a week, not counting individual running, and shaped up on various courses to Hoover Dam, through Westerville Estates, or the ten-mile one to Red Bank Road. On the average, they managed between seventy and one hundred miles a week, besides personal weekend conditioning. A good average running time on a two-mile course was under eleven minutes; and many boys, through constant practice and effort, passed this mark before the season had ended.

Several boys proved capable of outstanding performances. Bill Rupp placed sixth in the state of Ohio and set a Mid-Eight League record of 9:27 at the Mid-Eight meet. Don Deibel and Jim Miller also made worthy showings.

Though tiring and frustrating as it often was, the boys kept pushing forward, trying to improve individual running abilities besides reaching for new school records. Their efforts were rewarded with the third place title in the Mid-Eight League.

Football season had not ended when the Wildcats started in on the basketball training with long hours of drilling and practices up and down the gym floor. The playing strategy was somewhat modified this year with the team free-lancing from several set patterns.

Even though the 'Cats got off to a bad start as they fell, 89—56, to Linden McKinley and, 76—73, to London, the season proved to be an exciting one for the players and spectators at Westerville. After recovering from their first two defeats, the 'Cats romped to 75—50 and a narrow 61—60 victories over Mifflin and Gahanna. London, however, proved to be Westerville's nemesis as they lost both games by 77—71 and 74—64 scores. Sadler's quintet gave way to Upper Arlington, 51—47; Grove City, 53—47 and 58—54; and Worthington, 68—54, in their last game of the season.

Team drive and school spirit, though, kept the Wildcats from having a losing season; and their strength was felt when they pulled ahead and defeated Groveport, 58—41 and 99—61 at Homecoming; Hilliard, 71—67 and 69—62; Marysville, 75—39 and 47—34; Mifflin, 71—48, and Mid-Eight Champs, Gahanna, 64—61.

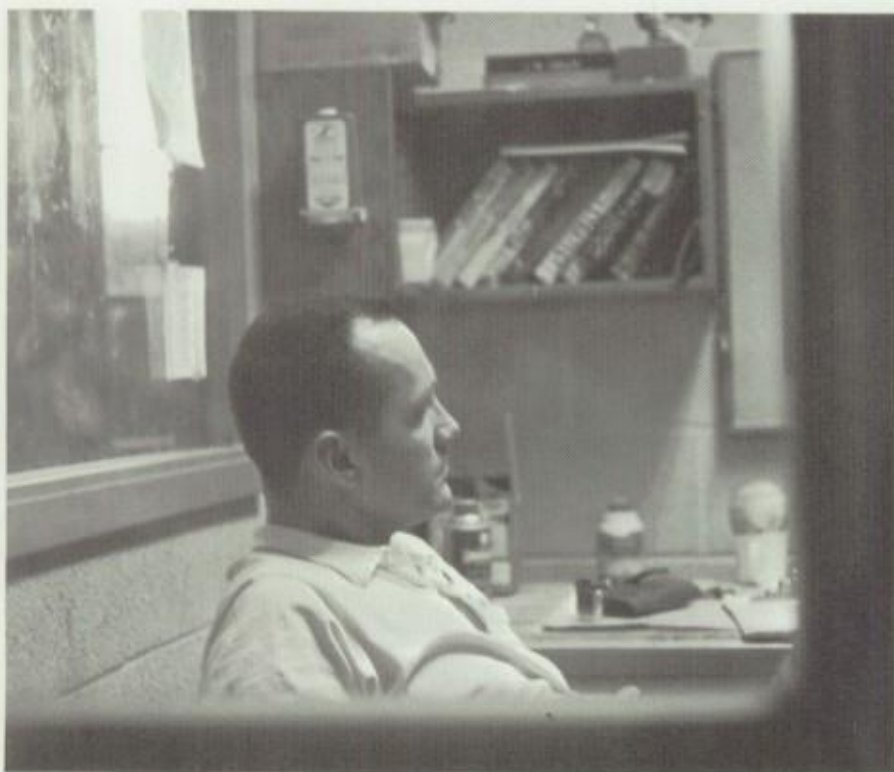

Although they were defeated by Grandview, 67—57, in their final performance at the AA District tournaments, the Wildcats were still victorious with their final 10—4 league record which placed them third in the Mid-Eight League. Single game high scorer was senior Kirk Westervelt who scored thirty points in the first Mifflin-Westerville game. Craig Hall received honors as high-point man of the season with a total of 254 points.

The 1966-1967 season did prove victorious for the Wildcat Reserves who placed first in the Mid-Eight League.

During the months from November to February were filled with sports activity around the high school. Basketball had made its grand entrance; and the wrestlers, too, under Coach Chuck Burner, were getting under way and readying for another good season. With only four returning lettermen, the team had the going rough; but their season still turned out to be successful. The boys' time was consumed during practices with participation in warm-up drills and various exercises in which the techniques of such skills as take downs and pins were learned.

The first two meets, against DeSales and Newark brought defeat to the grapplers in 10—30 and 21—23 losses. Successive, 30—15, 36—11, victories over Worthington and Hilliard, however, brought the Wildcat record to 2—2. At the end of the season, they stood 3—3 after they went down under a 3—27 Upper Arlington blow and then finished in a 23—15 win over Grandview.

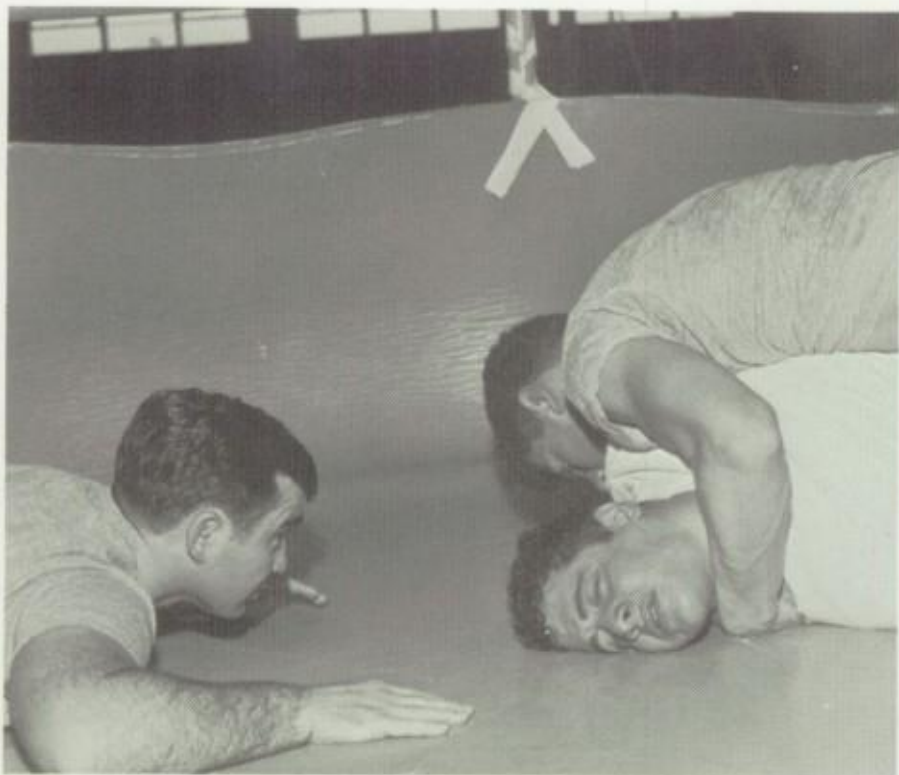

Tournaments also filled the wrestling season. In various matches, all between eight area teams, the 'Cats pulled through with a respectable record. They placed fourth in the Walnut Ridge Tournament, seventh at Upper Arlington, fourth at Westerville, and third at the Mid-Eight League.

Three seniors turned in outstanding performances during the season in tournament competition. Dick Meyer, who wrestled in the 127-pound weight class, won the title of Mid-Eight Champ for the second season in a row. Heavyweight, Jerry Hatcher, wrestled his way to becoming the sectional champ but was defeated in the district tournaments by Roger Caldwell from South High School. Dan Distelhorst, the 133-pound wrestler, placed second in the Mid-Eight, but went on to win and become the sectional and district champ, and finished sixth in the State of Ohio.

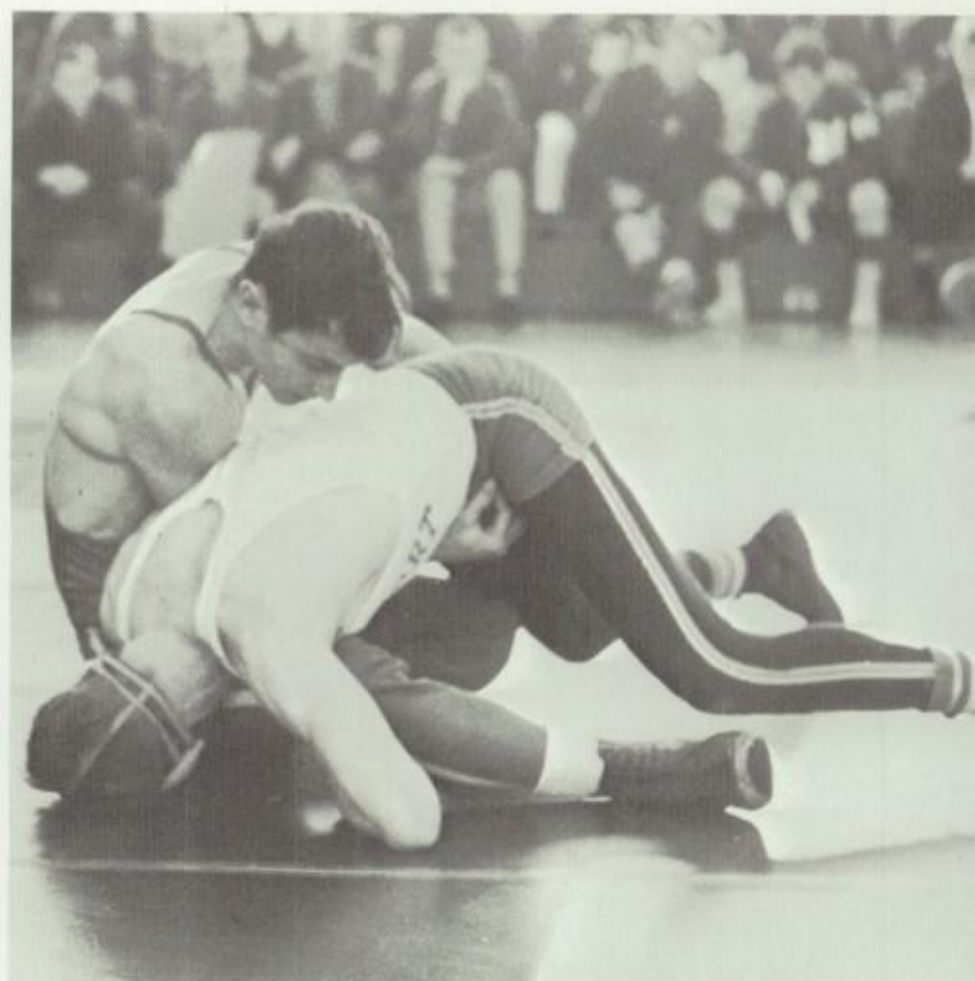

Other wrestlers also made commendable records during the season; and, with nine returning lettermen to the squad in 1967-1968, the outlook for a successful season is bright.

Action at the football stadium saw flying cinders, disks, and pole vaulters as track season got under way. Coach John Evans and his assistant, Carroll Meadows, supervised daily practices and meets; and Senior, Lou Lord, and Junior, Bill Rupp, served as the team's captains. Although their final record was not victorious, they proved to be a strong, united team and only lacked the depth required for success. Their best showing was at a tri-meet where they scored 73 points to Mifflin's 30, and 20 made by Reynoldsburg. Third was the team's final standing in the Mid-Eight League.

Desire for achievement on the part of the boys resulted in several record-breaking accomplishments. Senior, Steve Pearson, ran the low hurdles in 20.3 seconds, qualified at the sectional tournaments, and went on to the districts. Close behind him in the low hurdles was Senior, Jim Harvey, with a time of 20.7 seconds. Junior co-captain, Bill Rupp, paced the two-mile run in 10 minutes, 44.3 seconds, ran the half mile, and held a record of 8-9. Freshman, Ted Thomas, ran the 220-yard dash, and Freshman, David Shear, made the mile run in 4:50.3 minutes. Steve Pearson also held a record in the long jump which was taped at 21 feet, 7 inches.

A good percentage of the team is returning next year, and Coach Evans expects to have a good season.

The crack of a bat, home runs, swirling dust, and dirty uniforms were familiar sounds and sights west of the high school on the baseball diamonds as one of the most enjoyable spring sports initiated its season. Varsity Coach Bill Sadler and assistant Coach Max Sheets were confronted with three sophomores, seven juniors, and seven seniors, all having qualifications to make a good team. A positive attitude helped them win against Linden, 9-3; Grove City, 22-1; and Reynoldsburg, 6-0; although they did lose to Bishop Hartley, 2-10; and DeSales, 3-7. In tournament action they fared well: 5-4 over Mifflin, 3-1 against Eastmoor, and a 3-13 defeat by London. The Wildcat's overall record was fifteen wins, eight losses which placed them second in the Mid-Eight Conference. Westerville, after winning the sectional tournaments, extended their luck as far as the semi-finals in the districts.

Several team members made respectable accomplishments. Senior, Bill Millington, pitched a no-hitter against Gahanna in the 2-1 W.H.S. victory and Senior, Rob Coad, one against Grove City. Senior, Randy Earle, held a .961 fielding average, Junior, Alan Wolf, had the highest batting average of .364, and Junior, Ron Schworm, had the most runs batted in, with a total of seventeen.

Spring and warm weather brought athletics out into the sunshine, and balls began flying as the Westerville golf team got practice under way. The location for the first week of practice was North Carolina where Jack Groezinger, Frank Zura, Steve Wendland, Mark Sayre, and Mike Huffman worked out their winter staleness at the famous Pinehurst golf complex. The trip was made during spring vacation and was the first time a Westerville team has done so.

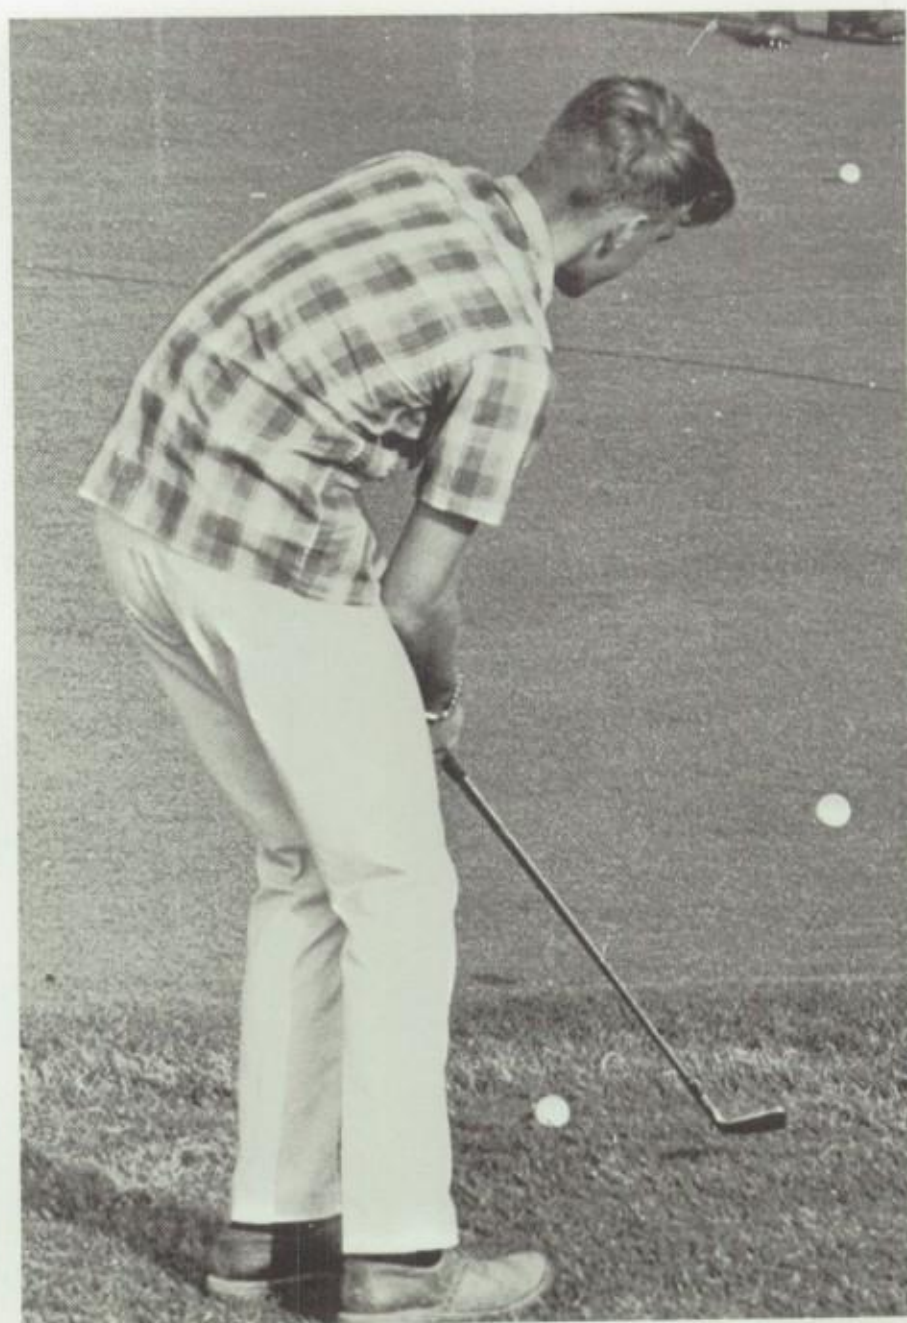

Soon after returning home the team made their debut in a tri-match with Bexley and Circleville. Although beaten by Bexley, 4—9, they were victorious over Circleville, 7—6. Continuing practice under a great deal of intersquad pressure, they gained experience and obtained many victories, ending with Bishop Hartley, 13—0; Marysville, 8—1; and Grove City, 9—0. Their achievements gained them a winning record of eleven wins and six losses.

The Wildcats chalked up several more successes and in the Mid-Eight tournaments placed second just behind London. They came in seventeenth at the District Tournaments with scores of 77, 82, 86, and 88.

Although the team was fairly young, they had all what was needed for a victorious season. The team consisted of: Seniors, Mike Huffman and Frank Zura; Junior, Steve Wendland; and Sophomores, Jack Groezinger, Mark Sayre, and Jim Webster.

ORGANIZATIONS

Individual interests play a key role in the school life of many high school students. Organizations, in a variety of extracurricular activities, provide just the opportunity needed to develop and further these interests. They pave the way toward future careers in such specific fields as education, music, and business; they give students active opportunities to develop skills and practice leadership; and they cultivate closer student-faculty relationships. Meetings and other events (activities), which constitute an integral part of these organizations, take place every day in school life . . . calling the first meeting of the year to order and, as president, trying desperately to overcome those "butterflies" . . . being able to withstand the "tortures" of Y-Teen initiation . . . practicing daily to perfect that "confusion" cheer (or to iron out a few spots in a rough musical passage) . . . getting ready for project **car wash** . . . proudly announcing that the treasury is finally out of the "red" . . . settling the final plans for the banquet . . . receiving that well-deserved award . . . installing the new officers. All organizations at Westerville High School enable the students to pursue their interests and, in effect, help them to see some of the practical applications for these interests.

Building friendship, individual worth, and a knowledge of oneself, as well as others, have been the established goals around which the **Y-Teens**, affiliated with the Y.M.C.A., centers its activities. Before any oncoming sophomore, junior, or senior can enjoy these events, however, she must endure the traditional "torture" of initiation. At the Hawaiian Luau this year, each potential member was made a "slave" to an old member or "Big Sister". After successfully serving her term, every new girl took part in a serious initiation and was made a member.

Monthly meetings provided the members with a variety of interesting speakers and topics and kept the girls informed on such contemporary subjects as: dating, U.F.O.'s and religions of the world. It also participated in the March of Dimes and sponsored its traditional Holly Prom at the Otterbein Student Center. Entitled "An Old Fashioned Christmas," the dance was enhanced by appropriate decorations and music by the Bob Marvin Band.

Y-Teens was not without an efficient staff. Officers included: president, Wendy Ernsberger; vice president, Linda Cheugh; secretary, Sue Himes; and treasurers, Terri Postle and Kathy Nye. Advisors Mrs. Penny Laughlin and Mrs. Nancy Morgan are also kept on the go by the **Y-Teens'** active schedule.

Social chairman Claudia Anderson starts off the Y-Teen year by helping members decorate for the unforgettable Holly Prom.

Of course there are always those flying pigtails and devilish eyes of the new sophomores as they rather fearfully face the wrath of the upperclassmen on initiation day.

The way is paved toward being a competent young business leader in **Future Business Leaders of America** under president Sue Miller. Mrs. Bernice Rucker is experiencing her first year as advisor to the club, although it has been in existence for six years, and feels the members are conscientious workers. They engaged in numerous activities this year; the most interesting being their field trip to the Motorist Mutual Building. Other officers include: vice president, Barbie Holderman; secretary, Candy Nocks; treasurer, Donna Thacker; and publicity chairman, Cheryl Coffield.

The program of the **Future Teachers of America** involves learning more about the field of teaching as a possible career. This year the club was under the direction of president Claudia Anderson and the new advisor Mrs. Rebecca Berry. The theme of the meetings this year centered around the beginning teacher and special education. Outside activities included helping teachers with their work, taking a field trip in December to a school in Columbus for slow learners, and attending a teacher career day at Ohio State University in April. The highlight of the year centers around the awarding of a \$100 scholarship to a senior who is planning to become a teacher. Other **FTA** officers for the 1966-1967 year included: vice president, June Lilygren; secretary, Margie Morgan; treasurer, Kathy Cobb; social chairman, Sharon Parks; publicity, Nancy Crawford; parliamentarian, Lynn Searles; and editor of the bulletin, Linda Moosbrugger.

As one of the largest organizations in the school, the **Girl's Athletic Association**, under President Kathy Lowe, maintained a highly active schedule all year long. During the fall, members participated in intramural sports such as volleyball and basketball, and volleyball teams were formed during the winter to compete against teams from other schools like Gahanna, Mifflin, and Marysville. Girls also participated in bowling or basketball on an intra-scholastic level during these months. As spring rolled in, they found themselves busy with a five-week program of intramural softball to round out the season.

Highlights of the past year for the **G.A.A.** included their bake sale on December 17, an annual sock-hop, which this spring featured the "Gold Digger" theme, and the Father-Daughter Banquet, during which the girls received their awards and new officers were installed.

In making a successful year, Kathy was assisted by vice president, Jane Nelson; secretary, Claudia Anderson; treasurer, Lynda Green; social chairman, Wendy Roush; and assistant social chairman, Nancy Corkwell. As advisors to the **G.A.A.**, Miss Mary Lee Eigensee and Mrs. Doris Gantz tried to develop a wholesome and diversified program of sports and social activities and to foster cooperation and good sportsmanship for the girls.

Receiving her fourth year award was a great way to end the year for Kathy Lowe, G.A.A. president.

Sports function as a vital part of many boys' school lives and, at Westerville High School, are supplemented by the "W"-Association, under the supervision of Mr. Walt Bahorek. Originally organized by Mr. Nick DeCenzo, it is open to all W.H.S. lettermen interested in its activities and this year was headed by: president, Jim Campbell; vice president, Bill Rupp; secretary, Rick Myser; and treasurer, Jim Miller.

The club strives to assist the athletic department and its activities in as many ways as possible. This year it sponsored a long list of activities which included: selling programs at the home football games, running the concession stands at all of the home basketball games, and selling and collecting tickets at the wrestling matches. They used the proceeds to help buy equipment for the school and athletic department.

The active participation of its members contributed to the success of the "W"-Association this year which, on the whole, provided a helpful service to the students and community and set the standards for sportsmanship for the W.H.S. athletes.

The **Thespian Club**, open to all high school students, promotes interest and experience in the dramatic arts by giving those theater-minded students an opportunity to actively participate in plays and various other productions which it provides for the school and community, under the supervision of Mr. Ronald Nocks and Mr. Brian Holleran. The officers for the year included: Penny Kinnear, president; Woody Searles, vice-president; Sue Crane, secretary; Bob Harmon, treasurer; and Warren Kahn, recorder. Members were busy this year with the Homecoming and Christmas assemblies; the Three One-Act Plays, directed by seniors Sue Crane, Penny Kinnear, and Warren Kahn; and various speech activities, such as Speech Night. In conclusion to a busy year, ten outstanding **Thespians** were given the privilege of visiting the heart of the theater world, New York City, for five exciting days.

Scholarship, leadership, service, and character form the basis upon which the faculty selects members to the **National Honor Society**. The club is composed of juniors and seniors with at least a 3.0 average, and holds its induction ceremonies in May. Under president Steve Jennings; vice-president Kirk Westervelt; secretary Julie Raica; treasurer Barbie Sheridan; and advisor Mr. John Davis, the members sponsored the "Round-up" dance in January. This was followed in April by the basketball game, in which the seniors won. The profits of the activities went to three \$50 scholarships which were awarded to seniors.

Through its many and varied programs, the Y.M.C.A.-affiliated **Hi-Y Club** tries to create a Christian character in its members. This year members participated in a great number of activities including: service projects, such as collecting for the March of Dimes and selling candy for World Service; youth conferences, the Youth in Government program, for example, in which Bob Vance and Keith Collins participated; interesting meetings in which such informative topics as sports and Vietnam were discussed; and other activities which included basketball games with Worthington, Brookhaven, and other area schools. The executive, under the supervision of Mr. Robert Augspurger consisted of: president, Larry Buckholtz; vice president, Dave Pierson; secretary, Ralph Collins; and treasurer, Keith Collins.

After having been disbanded a few years ago, the Weskats was revived this year through the permission of Mr. Aukerman and the help of Student Council. Composed of sixteen girls under the guidance of senior Betty Phelps, the Weskats practiced for seven weeks and then performed during half-time at the Westerville Winter Homecoming and an Otterbein basketball game. Its purpose is to give the girls a chance to do something athletically, to entertain the public, and to promote school spirit. The organization plans to become a permanent drill team which will represent Westerville High School.

The **Red Cross Club**, is a service organization which volunteers its time to assist community needs. Members engage in various projects, this year including: filling a chest with articles for the soldiers in Vietnam, helping with Columbus' Council dance, holding a talent show and party for the State Hospital, and foreign exchange students. Under advisor Mrs. Ruth Kempshall, President Mary Jo Perley was also helped by vice-president, Steve Schneider, secretary, Marilyn MacKenzie, and treasurer, Jeff Gibson.

Students wishing to develop scientific attitudes can further their interests in the **Bi-Phy-Chem Club** advised by Mr. Joseph Ralston. President Jim Miner, vice-president Dick McCombs, treasurer Jim Miller, and secretary Bev Fink spent many hours organizing the club's busy schedule, highlighted by the Science Fair, the field trip to OSU, and the speaker from the Ohio Academy of Science.

The skills needed for debating and competing successfully against other schools can be obtained in the **Debate Club** under Mr. Donald Delaney. The varsity team consisted of Mary Jo Perley, Suzi Glover, Jim Miner, and Greg Terry, and several promising freshmen. The team held regular practices where they discussed their debate topic, U.S. limited non-military assistance in its foreign aid policy. Besides the regular debate schedule, the team competed in Mansfield, Heidelberg College, Gahana, and Upper Arlington tournaments.

Strategy at the chess board involves much thought and excellent exercise for the minds of those participating in the **Chess Club** under President Suzi Glover. The members learn the fundamentals when they attend the regular meetings after school, supervised by Mr. Regis Birckbichler, to discuss chess and compete with one another. The club also took part in Columbus Chess League tournaments. Other officers were: vice-president, Jim Miner, and secretary-treasurer, Lynn Rittenhouse.

Under the guidance of Mr. D. Delany, Mary Jo Perley and Greg Terry learn the basics of debating as affirmative speakers.

Because some boys at Westerville High School are interested in service, the Westerville Kiwanis Club organized a **Key Club** for interested students. This year under president Jim Harvey, vice-president Dave Pierson, secretary Nathan Van Wey, treasurer Jeff Gibson, divisional lieutenant governor Tim Van Wey, divisional secretary Skip Smith, and advisor Mr. Forrest Becker, the **Key Club** aided the Kiwanis Club's regular service work such as Career Day, it helped the Boosters paint the picnic tables to be used in Westerville parks, went Kinderkey caroling, and collected money for the Disabled American Veterans. To raise money, **Key Club** sponsored a dance, sold balloons at the fair, and operated a coat check at the basketball tournaments.

Editor John Wildman commented about the third year of the **Wizekat**, "I was quite pleased with the way things turned out. At first I wondered if we'd ever get organized, but I think the paper improved as the year went on. I hope the student body enjoyed it as much as we enjoyed putting it out for them." Back to a four-page paper, the school newspaper used bigger pages and better coverage to top all previous issues for informative, interest-packed news. Feature articles told the school more about outstanding fellow students. Others, such as "Letters to the Editor" and "Student Polls," expressed student opinion on various aspects of school life and provided a source of information about clubs and their activities, as well as other items of interest concerning social life at Westerville High. Sports news hit the highlights of the efforts of the high school's athletic teams; and humorous pictures featuring the "Dauntless Crew," among others, and Ron Glover-original cartoons brightened up the best **Wizekat** Westerville has seen.

Many events, lots of activities, and other notable highlights occur each year in Westerville High School. These moments and the daily life around the school are captured forever in pictures and words produced through the efforts of the yearbook staff. The juniors and seniors involved spent their evenings after school cropping pictures, designing layouts, selling ads, and writing copy, all of which were inherent in the making of the 1967 **Searchlight**. Constant pressure was no stranger as many deadlines were continually being met, among other problems, but all worked hard and saw the book through to the final product.

Heading the 1967 annual's staff was editor-in-chief, Penny Kinnear. Her responsibility lay in directing all the work done on the book; she was assisted in her many obligations by the editors of the various sections: academic, Louise Hinkle; faculty and administration, Marianne Darling; seniors, Terri Postle; underclassmen, Charlene Clawson; sports, Mike Huffman; activities, Carol Born; organizations, Meredith Martin; advertisements, Kirk Westervelt; Sharon Parks, photography manager; and copy editor, Julie Raica.

The yearbook's advisor, Mr. David Bennett, brought many new ideas which helped raise the standards of the book. These innovations included a new system for advertising, the added academic section, and competitive advertisement selling, and new layout techniques.

As is the case with all creative products, time and perfection were demanded of everyone. However, the sacrifices made were worthwhile, as the 1967 **Searchlight** stands as a lasting reminder to a very memorable year.

Many of the Westerville students perform functions vital to the operation of the high school. In the office and library, minor tasks are carried out with speed and efficiency by the student aides. Each period finds the office girls answering the telephone, delivering messages and calling students to the office, helping teachers and visitors, and running off tests. The library, too, under Miss Elizabeth Passmore, is supplied with accurate and efficient helpers who spend the period checking books in and out, collecting fines on books, and reshelving pieces of literature.

Beginners in the lab sciences would be very confused without the help of the experienced lab assistants who make the sessions a little more understandable. No biology or chemistry class would function smoothly unless someone were there to explain the position of the frog's heart or the experiment which calls for hydrochloric, not sulfuric, acid.

Gym assistants are as vital to the physical education department as are managers to the coaches. They run errands, explain basic rules and skills to the teams, and take care of the gym equipment.

Home economics classes are not without their helpers, either. Old home ec "pros" return and act as aides to the department, filing and typing, arranging bulletin board material, and setting up and dissembling demonstrations.

The whole school relies on the skills of the audio-visual crew, headed by Mr. John Beck. Under president Bob Dempsey, the members deliver necessary equipment to each room when requested, sometimes staying to operate the projectors and other machines. They are also responsible for seeing that all equipment is in good condition.

The cafeteria, one of the vital parts of the school, is also cared for by reliable assistants. These people are busy during fourth and fifth periods selling milk, helping with the dishes, and cleaning up after lunch has been served. They are rewarded for their services with free lunches.

Members of the **Future Farmers of America** at W.H.S. are all united by their common interest in agriculture and farming. The club, advised for seventeen years by Mr. Glenn Griffith and co-advised by Mr. William Brown, endeavors to practice brotherhood, honor rural opportunities and responsibilities, and develop qualities of leadership inherent in every future farmer. The members strive to live by the FFA motto: "Learning to do; Doing to learn; Learning to live; Living to serve."

The members, signified by their blue and gold jackets, engaged actively in many events this year. They held their annual chicken barbeque at the Westerville Fair and put on demonstrations both there and at the Ohio State Fair. They also participated in district and state Public Speaking and Parliamentary Procedure Contests. Another prominent event of the year centered around their annual Parent-Student Banquet, in which Sharon Evans was crowned FFA Queen.

The new greenhouse and nursery, supervised by the club and the Vocational Agriculture Department, also added many new experiences for the members. Officers for this year included: president, Larry James; vice president, Bob Weikert; secretary, Alice Lust; and sentinel, Tom Dill.

Above: Sophomore cheerleaders display their winning smiles as they practice promoting spirit. Below: Mrs. Near advises her freshman cheering squad during a home game.

Every team needs spirit to boost its morale and desire to win, and this year's **cheerleaders** succeeded, through their pep and enthusiasm, in accomplishing their desired result. The girls who composed the squads included: seniors—Jill Moreland, Linda Gray, and captain Suzi Osborn, and juniors Christie Carter, Lynda Green, and Cathey Kelch, all on the Varsity team; Reserves—Cheryl Vernon, Nancy Lindsay, Mary Lou Brown, Susie Roush, and captain Jan Wells; and Freshmen—Nancy Perkins, captain Charlee Lindsay, Michelle Green, and Lauree Raica.

Besides their regular function of stimulating the audience at the football and basketball games, they also participated in various other activities. Each summer the combined squads attend a cheerleading camp where they learn new cheers and techniques and compete against other squads. They also organized all the pep rallies, skits, new cheers, and car caravans; they sponsor the kick-off dance of the year, and they act as junior advisors to the Spirit Club. This year the **cheerleaders**, with the help of their advisor, Mrs. Nancy Near, and the coaches, introduced several new pep boosters. They included: the red and white spirit stick which was displayed at the pep rallies and games, the new Spirit Club which was opened to all students, and the Friday spirit campaigns.

DECA, the **Distributive Education Club of America**, is a national organization which goes hand in hand with the distributive education class for those seniors interested in the fields of business or commerce for future careers. The organization allows the participating students to compete in both state and national contests. Here, they can put into effect the skills and knowledge obtained from classroom activities and, thus, compare their abilities with those displayed by other schools. This year Frank Zura was elected regional **DECA** president and Donna Wilkin was Westerville's candidate for the **DECA** Sweetheart.

Student Council serves as the valuable link in creating a closer student and administration relationship. By establishing a feeling of unity, cooperation, and understanding, it provides an ethical school life for the conscientious student.

This year student body president Greg Koski headed the council and was assisted by: vice president, Barbie Sheridan; secretary, Claudia Anderson; treasurer, Dick Meyer; parliamentarian, Ron Glover; and advisor, Mr. Max Sheets. Besides sponsoring such annual major events as the Fall and Winter Homecomings and the skating party over Christmas vacation, the members initiated such projects as: handbooks, spirit campaigns, and hall monitors. Its biggest undertaking, however, was its Peace Corps Project, "Elbowgrease", in which members of the council and school worked for the community and received donations to be used to build a school overseas. With the growth of the school, **Student Council** has gained importance in expressing the wishes of the students and working for closer ties with the administration.

Quality and precision require the **Marching 99** of Westerville High School to put in hours of practice in order to combine marching eight-by-five while simultaneously playing their instruments when they perform at the Wildcat football games. They had quite a job with all the summer practices, try-outs, and drills; and their performances also included playing at the Fall Homecoming, Halloween, Christmas, Memorial Day, and Fourth of July Parades. Their efforts, however, produced outstanding displays and swept the spectators into the Musical Wonderland.

The **Red and White Concert Bands**, under the direction of Mr. Forrest Becker, provide students with the opportunity to develop instrumental skill and musical appreciation. They practice daily during the school day and perform in various musical contests and concerts. The **Red Band** which is in the A-1 division, competed in the State contest and received a II and performed in the Winter and Spring "Born Free" Concerts with the **White Band** also in the latter. The concert was highlighted with the annual presentation of the John Philip Sousa Award to a deserving senior band member which, this year was awarded to Steve Jennings.

Smaller instrumental groups aside from the concert bands, the pep bands, also perform at the home basketball games and pep rallies, where they promote school spirit with their lively pieces. They are directed by three seniors, who are considering going into Music as a career; and this year they were led by June Lilygren, Mary Lou Roberts, and Lois Bierley.

The music of the strings, along with brass, woodwinds, and percussion, comes to life and fills the air when the **orchestra**, under Mr. Forrest Becker's direction, performs. Through their study of classical music and composers, the members can improve their skills, learn to fully appreciate the art of playing an instrument, and develop an understanding of the various types of orchestral music.

Daily practices, besides individual private lessons, prepare the **orchestra** for its varied performances throughout the year. This year they played in the fall and winter homecoming assemblies, the Christmas assembly, the "Sound of Music" musical presented by the Drama Department, and Commencement.

Many students furthered their interests and musical appreciation by performing with the Columbus Youth Symphony Orchestra, a group sponsored by the OMEA. It rehearsed every week and presented several concerts throughout Ohio.

The Brass Choir, under the direction of Mr. James Dawson, is in its second year of performing. This brass ensemble plays at school functions, and appears at social events such as dinners and banquets. It consists of: three trombones, two baritones, one tuba, four french horns, six trumpets, and one percussion. This year the Brass Choir competed in the State Contest and received a rating of 1.

The 1966-1967 W.H.S. **Majorette squad**, led by head majorette Dianne Townsley, performed during the football season in the exciting pre-game and half-time shows. They were busy all year round with several parades, including the Fourth of July celebration, the Halloween festivities in which they had to march, and the Westerville-Worthington basketball game where they entertained fans during half-time. Last summer the girls attended Smith-Walbridge Camp in Indiana where they competed with other majorette teams and finished with the second place prize. A predominantly underclass group, the squad will have many returning girls to present fine shows to the spectators during the coming season.

Outstanding vocal ensembles have, this past year, provided WHS with an exceptional display of music. These groups, under Mr. Howard Longmire, acquired an appreciation for many types of choral literature and gained enjoyment while singing. The Senior Choir, headed by president, Don Fetherolf; vice-president, Fran Babcock; secretary, Wendy Ernsberger; and treasurer, Cheryl Coffield, engaged in numerous activities. It sang for the Sports Banquet; performed at a Canton concert; participated in the Thanksgiving and Christmas Assemblies and the annual Spring Concert; and performed in the District Contest where it received a II rating.

The Girls' Ensemble composed of eight juniors or seniors, sang at the Grandview Inn and Southern Hotel, the Minerva Lake Music Appreciation Club, and various school concerts and assemblies. It also went to the District Contest where it received a rating of II.

The Boys' Octet was also active this year. They sang at the Y-Teens Mother-Daughter Banquet, Minerva, Park, the North Canton Concert, Otterbein, and received a superior rating (I) at State Contest.

The Mixed Ensemble performed at various activities, including: PTA dinner at the Otterbein Campus Center; Minerva Park; the Southern Hotel, and District Contest, where it finished with a III rating.

Choralettes and the Freshman Choir also sang throughout the year in the school assemblies and Spring Concert with the other vocal groups. Officers for the Freshman Choir were: president, Keith Hutchinson; vice-president, Shelley Priestas; secretary Barbara Cryan; and treasurer, Mary Ponticello. The officers for Choralettes included: president, Mary Lou Roberts; vice-president, Linda Cheugh; secretary, Marian Ciriachi; and treasurer, Terri Reed.

ACTIVITIES

The activities which take place during every school year add something special to the daily routine of the students. They serve as high points, events to which the students can look forward with hopes and anticipation; and throughout the year, they succeed in heightening school spirit and a desire to learn or perhaps just a time to enjoy with friends or that special someone. Every event that passes by becomes an added attraction to the school year . . . coping with the problems of finding chaperones and a band and getting decorations ready and refreshments delivered on time . . . spending hours rehearsing and memorizing lines for the play . . . scouring the town to find the right props for "The Sound of Music" . . . deciding what to have besides grapes at the Latin Banquet . . . feeling those knees about to give way as the crown is placed on one's head . . . putting the last piece of mistletoe in place. All activities give an added spice and act as one of the vital ingredients necessary for the success of an enjoyable school year.

Above: Chivalrous Jay Denton shows valor before he saves fair damsel Sue Bailey, from a savage dragon. Below: The Homecoming Court is an image of beauty as they stand together before the coronation. Right: Queen Linda Gray still reflects amazement and disbelief after her crowning.

October 7, 1966 marked one of the first major high school activities: Fall Homecoming. The Thespian organization began the ceremonies during the school assembly with a hilarious interpretation of King Arthur and his court at Camelot, complete with three princesses vying for the crown, ladies in waiting, a feast, and the gory beheading of Woody Searles. Although Guinevere held the same title as Miss Linda Gray, crowned the 1966 Fall Homecoming Queen by retiring Queen, Miss Barbara McCalla, the Camelot queen and her court could not compare to the beauties chosen by the student body.

Prior to the football game, Queen Linda and her Court rode through Westerville in convertibles behind the Marching 99. Football action saw the Wildcats go down in defeat by a score of 14-0 to London's champion gridiron squad. The evening was brightened by an excellent half-time performance by the marching band in tribute to the Homecoming Court.

The game was followed by the Student Council-sponsored "Harvest Moon" dance decked in autumn colors and leaves and a large amber moon behind the queen's throne. Tommy Dale's orchestra played during the dance while Queen Linda and her Court reigned.

Right: Willie himself gets into the mood of the situation when he confronts two of his shocked buddies, played by Jay Denton and Bill Goldsmith.

In the one-act "Impromptu", Debbie Cornelius as Winifred, Gary Lott as Tony, Jeanette Sunderman as Laura, and Jim Chambers as Ernest, improvise on the stage.

The first main drama production presented by the Westerville High School Drama Department this year was "The Diary of Anne Frank". Under the direction of Mr. Ronald Nocks, the play was performed November 17 and 18, 1966, at Cowan Hall at Otterbein College.

The production was based on the book, **Anne Frank: Diary of a Young Girl**, the moving story of two Jewish families hiding from the Nazis in a Holland warehouse during the World War II rule of Hitler. The story centered around the diary of Anne Frank which was about the events taking place during their seclusion.

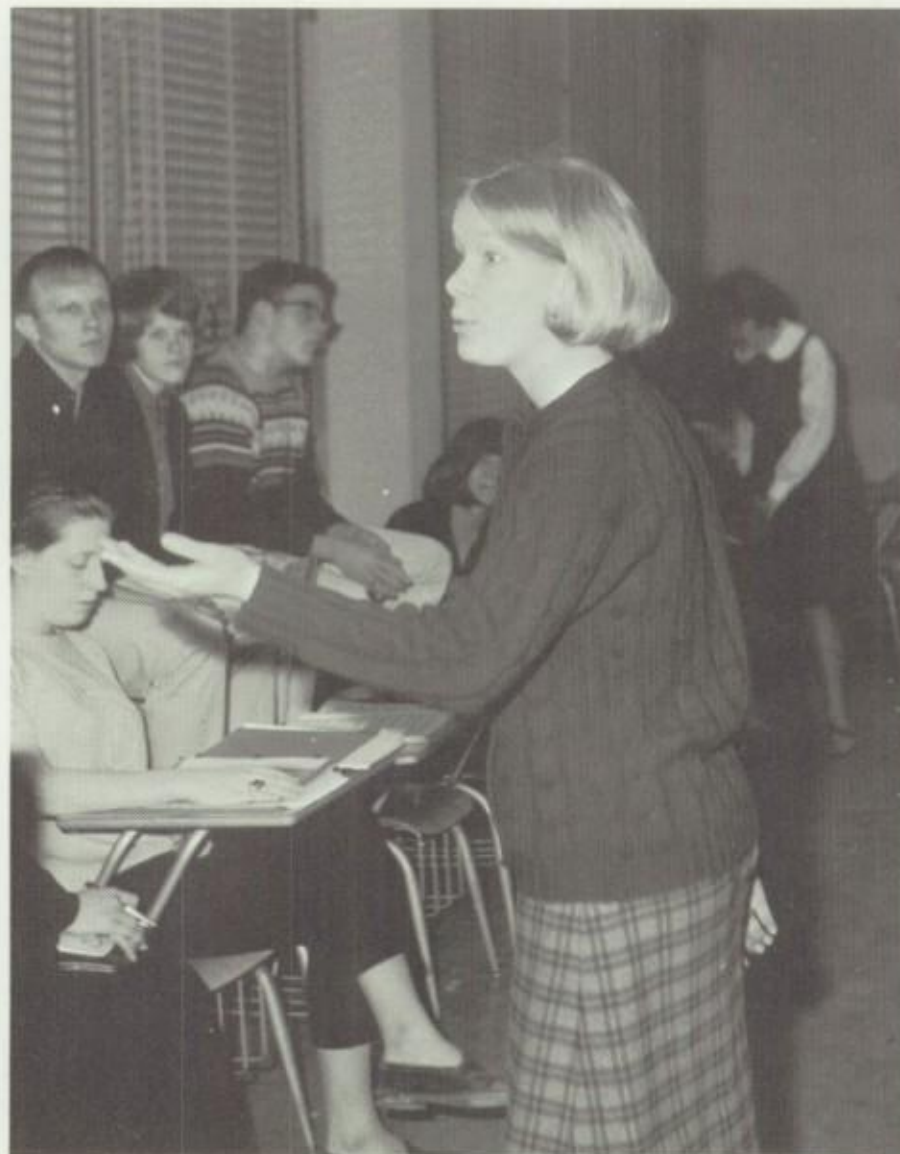

The main characters, who worked hard and put on an excellent performance, included: Anne, Barbara Cryan; Mr. Frank, portrayed by Warren Kahn, who also received the "Best Actor" award in the Senior Assembly for his performance; Mrs. Frank, played by Marlynn Singleton; Mrs. Van Daan, Chris Lafferty; Mr. Van Daan, by Charlie Marx; Peter Van Daan, Dave Morgan; Margaret Frank, Sandra Small; Mr. Deussel by Steve Briggs; Miep, Sue Crane; and Mr. Kraler, by Gary Lott.

Three smaller plays by the Drama Department, the Three One-Acts, were presented May 10 and 11, 1967, in the Speech-Drama room at the high school. Traditionally headed by three seniors pursuing acting after high school, the productions were directed by Warren Kahn, Sue Crane, and Penny Kinnear. The plays involved were: "Impromptu" under Mr. Kahn; "Wildcat Willie", a comedy led by Miss Crane; and the tragedy, "Riders to the Sea", directed by Miss Kinnear.

When the combined forces of the drama department, under the supervision of Ron Nocks, and the vocal and instrumental music departments, under the supervision, respectively, of Howard Longmire and Forrest Becker, combine behind a single production, as in the case of the musical "Sound of Music", that production cannot help but to become a success. The well-known Rodgers and Hammerstein musical about the life of Maria Reyner was presented in Cowan Hall on the Otterbein Campus March 31 and April 1. Tryouts were open to the entire community; those who did receive one of the major or minor roles soon realized what a great amount of work have to go into such a production. They spent nights after school and most of their spare time learning the songs and their lines and cues, or practicing their dance routines under the instruction of student choreographer Marlynn Singleton.

Sue Ericson was chosen to portray Maria and she practiced long and hard. However, one week prior to opening night Sue was sidelined by the mumps. Sue Crane, Maria's understudy and Mr. Nocks' erstwhile student director, spent the next week in an intense study of her new role; her performance pleased everyone.

For two successive nights, "The Sound of Music" played to standing room only crowds of enthusiastic theatre-goers. The audience was swept up into the atmosphere of the play by the beautiful sets, done by Bill Bravard, whose efforts were rewarded by the applause that his work evoked from the viewers. The cast itself received standing ovations at both performances.

Left: Claudia Anderson, the Y-Teen social chairman, and her assistant, Diana Eubanks, receive roses for their excellent work in making the Holly Prom enjoyable. Above: Joey Kratoville and Jerry West get refreshments for their dates from Laure Raica.

The social high point of the 1966-1967 school year for all Y-Teen members was the club's annual "Holly Prom" held December 17, 1966 at the Otterbein Campus Center from 9-12 P.M. The semi-formal dance, planned and under the supervision of social chairman, Claudia Anderson, and assistant social chairman, Diana Eubanks, centered around "An Old Fashioned Christmas" theme complete with a sleigh; Santa's "good book"; bells; holly; brightly lighted Christmas trees; gaily-wrapped packages; a roly-poly snowman; Santa Claus himself, who passed out candy canes to all; and, of course, mistletoe hung generously from doorways, ceilings, and stairs. The Bob Marvin Orchestra recognized president Wendy Ernsburger and Claudia Anderson for their splendid job and provided music which added to the romantic atmosphere.

Highlights in the life of the Winter Homecoming Princess are the coronation and game. Above; Rob Coad receives a good luck kiss from Princess Wendy Roush. Below; Teri Gease, 1966 princess, crowns the 1967 Winter Homecoming Princess, who kneels with the aid of escort Craig Hall.

Westerville high school students and the Homecoming Court enjoyed extended weekend festivities during Winter Homecoming this year. The assembly Friday afternoon, February 3, 1967, included the procession of the Court in their long, pastel gowns and with their bouquets of roses and their escorts. The Thespians presented their skit which involved Pat Quelette, Sue Crane, and Dave Morgan alias "Super Sadler", "Glorious Grant", and "Dandy Davis" as the "good guys" who attempted to foil the bad teacher's plot to kidnap the Court. After their success, the anticipated and long-awaited moment became a reality when retiring Princess Teri Gease crowned Wendy Roush Westerville's 1967 Winter Homecoming Princess.

Events Saturday, February 4, focused on the Homecoming basketball game with Groveport and the dance following the game. After the Court and escorts were introduced, Princess Wendy presented captain Rob Coad with the game ball and the traditional good luck kiss. As it happened, luck was on Westerville's side as Groveport went down in a decisive 99-61 defeat.

The Student Council-sponsored dance followed, at which those who attended were lulled into the mystical mood set by the "Harbor Lights" theme and danced to the music of the Ziggy Coyle Band.

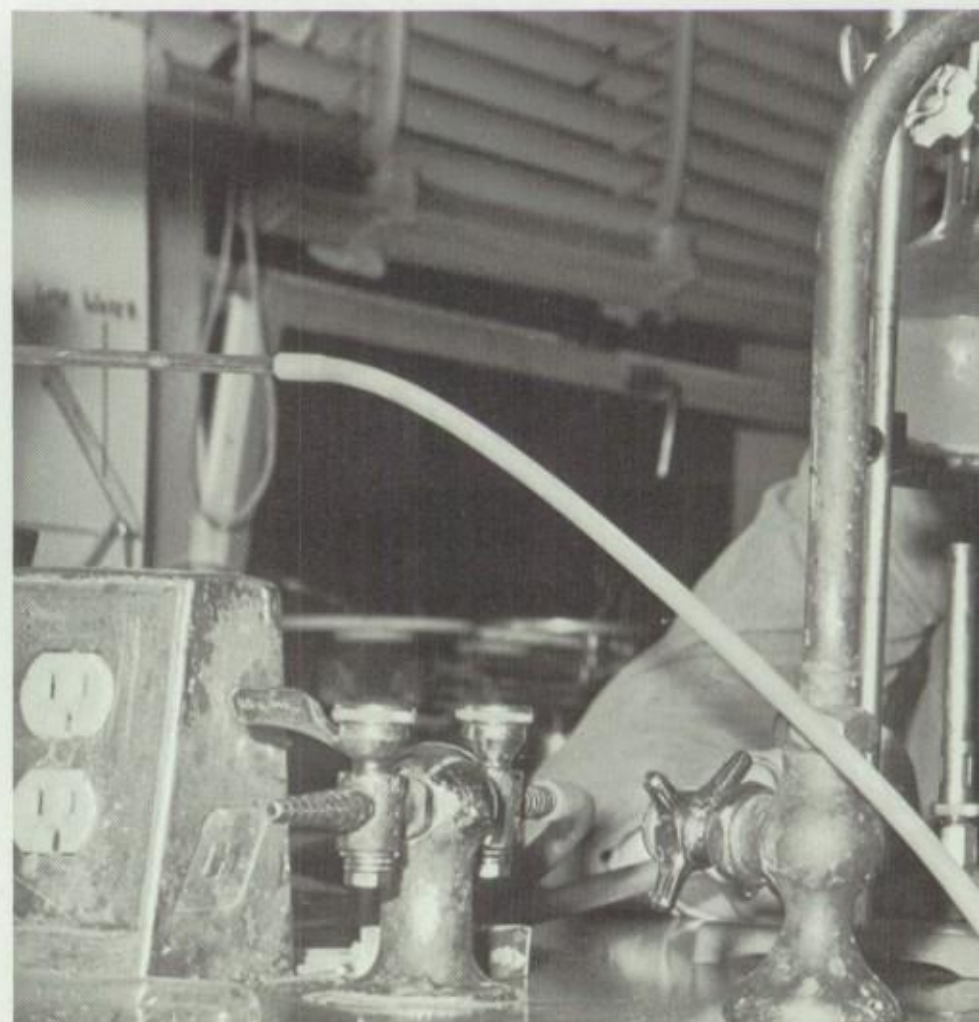

Before the coronation, the Thespians put on a skit about the attempted kidnapping of the Homecoming Court. Sue Crane prepares to KO Joe Bobanich, a kidnapper.

This year the Annual Bi-Phi-Chem Club-sponsored Science Fair was held March 2, 1967, in the high school building. Scientific-minded students from the junior and senior high schools participated by displaying various projects in the fields of their interests. They were rewarded for their research by receiving good, excellent, or superior ratings. Those who received excellents or superiors were eligible to attend the District Science Fair at the French Field House on the Ohio State University campus. Those qualified students included: Doug Redding, Greg Terry, Doug Winn, and Ron Whittaker, all who received superior ratings; and freshman Debbie Allen with an excellent rating.

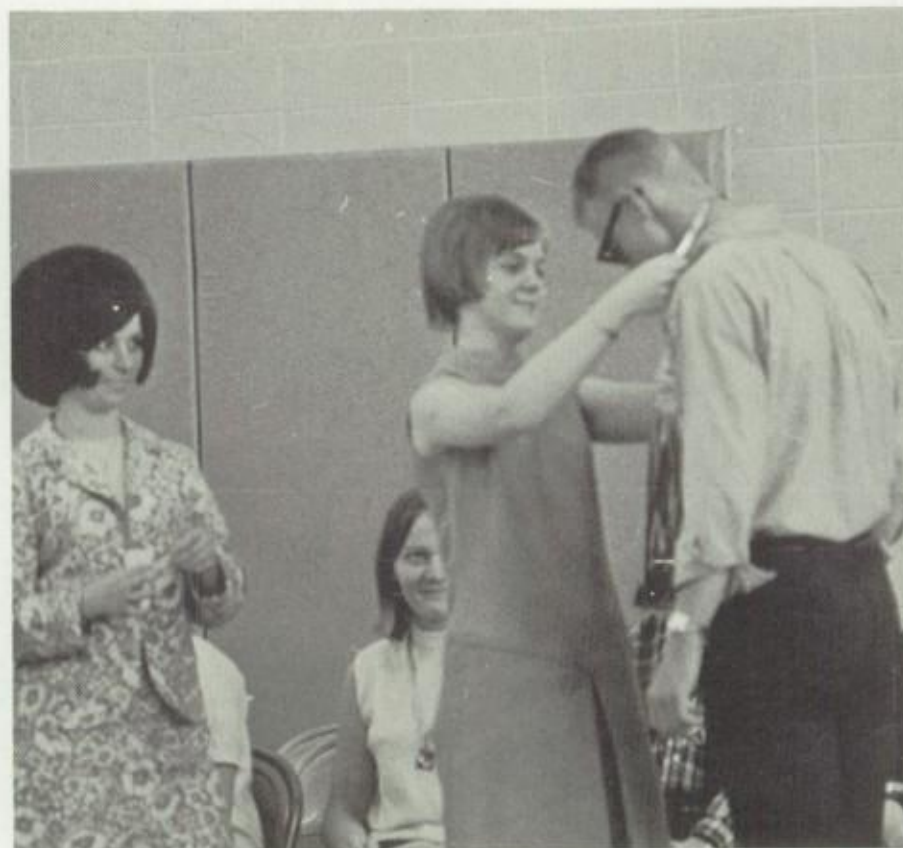

These students made outstanding showings at the district, regional, and state Science Fairs. Westerville High School was presented a trophy, one of only five such trophies given in the state, for having five representatives at the State Science Fair. Ron Whittaker, Doug Redding, and Debbie Allen composed the Westerville team at the Regional Fair held in the Otterbein Alumni gym where Ron won a trip to Wright Patterson Air Force Base in Dayton.

One of the rewards of Harry Schutte's Science Fair project on "Life Processes of Yeast" was sampling the results.

One of the main goals of many dedicated students at Westerville High School is to become a member of the National Honor Society. They strive to qualify by achieving the qualities of leadership, scholarship, service, and character; and on May 16, 1967, a new group of more than forty junior and senior students met those requirements and became members during the National Honor Society induction. The students were chosen by teachers on a basis of these four virtues and by having at least a 3.0 accumulative average.

President Steve Jennings opened the ceremonies followed by Vice-President Kirk Westerville who lit the four candles, each standing for one of the qualities of a National Honor Society member. Reverend Richard Ellsworth from the Central College Presbyterian Church was the guest speaker for the event and spoke on leadership, scholarship, service, and character; and Mr. John Davis, advisor to the group, presented the new members, who received their pins and certificates, to the student body.

The sixth annual Latin Banquet was held May 5, 1967, in the high school cafeteria. Latin I and II students were dressed in their Roman garb with the Latin II "masters" and emperor. Dale Delong, being footed by the Latin I "slaves". Mrs. Ruth Kempshaw, the Latin teacher attended as the guest of honor and was presented with a gift from her students.

The evening began with the traditional Roman feast and concluded with entertainment in the form of gladiatorial fights in the "Roman Colosseum". The three-course dinner served by the "slaves" included: the first course relish plate; the second course, consisting of chicken, brussel sprouts, and potato chips; and the third course, dessert, of apples and cupcakes. The gala was thoroughly enjoyable for all.

One of the most unforgettable evenings for the upperclassmen at Westerville High School was the Junior-Senior Prom, held May 27. The festivities, planned by social chairman, Sue Himes and the junior class officers and sponsored by the junior class began with the "Bouquet of Roses" formal dance from 9:30 P.M.-12:30 A.M. in the Otterbein College Campus Center. Girls received silver rose charms and boys received programs, as tokens. Red roses under the stairway, on the railings, and on all the tables added to the colorful evening; and the Al Wasselon band served as the music-makers for the affair.

Students were given an hour to change into more comfortable and suitable clothes, and from 1:30-3:30 A.M., they relaxed at "Cabaret Rose", an informal party in the Pit. Having the atmosphere of a teenage nightclub, the party proved to be a lively event. The students, in casual attire, danced to the music of "Saint John's Mod", played pool, or sat around and talked. Potato chips and other refreshments were served by the chaperones.

The "Petit Dejeuner", a breakfast, followed the dance from 3:30-4:30 A.M. on the second floor. Students were able to relax and eat a light meal before returning home. Although tired and perhaps a bit bedraggled from the evening's activities, all enjoyed a good time.

ADVERTISING

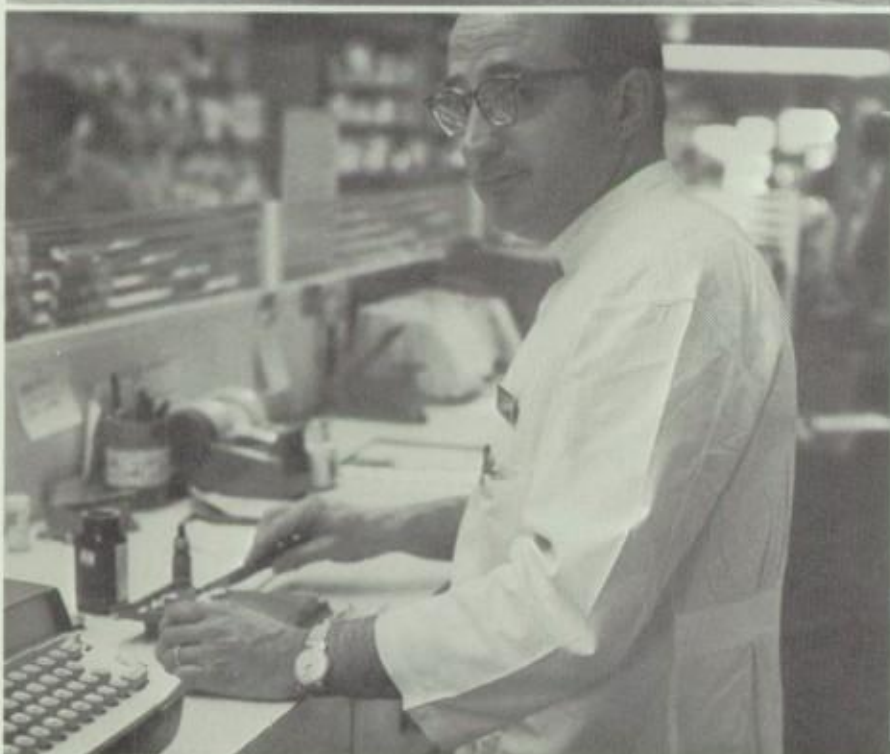

Along with the huge amount of work involved in the preparation of the main part of the yearbook, most of the staff participated in an advertising marathon. Advertising pays for the book; everyone must take part in the big campaign to reach the goal for the year. During the better part of four weeks, there were appointments to make . . . seeing an overworked, but usually agreeable businessman . . . explaining the new way that the ads would look . . . expounding the virtues of the new and better Searchlight . . . signing contracts . . . explaining the copy and picture data forms . . . collecting the money from forgetful customers . . . rushing to complete the layouts as summer vacation begins. The goal was reached and the last copy sent in, but next year must be better, for the Searchlight of tomorrow will depend on its advertising sponsors.

Local jeweler Mr. Harry Jensen, always guarantees the quality of his merchandise. Here he stands behind one of his many display cases waiting for you.

"We care for your watch" is the motto of **Jensen's Jewelry**, but the word "care" applies to all the work done at their store. **Jensen's Jewelry**, 20 N. State Street in Westerville, specializes in quality jewelry and watches. In business for eighteen years, **Jensen's** specializes also in all watch repair as well as diamond setting, engraving and special work. First opening in Westerville in August, 1958, **Jensen's** has grown and enlarged. In 1962, the presently occupied store opened. A complete selection, from heirloom to mod, is available in watches, rings, bracelets, and all other jewelry. Names like Longines, Wittnauer, and Orange Blossom are no exception in the inventory at **Jensen's**. All work is done in the store and guaranteed to satisfy.

Two uptown drugstores supply Westerville's pharmaceutical needs. On the corner of State St. and College Ave., **Brinkman's Rexall Drugs** offers a complete line of patent medicines, and experienced pharmacist prepare doctors' perscriptions. **Smittle's Pharmacy** carries complete pharmaceutical needs including sick room and convalescent supplies, along with the newest line of grooming aids for the well-dressed boy or girl. Both **Brinkman's** and **Smittle's** carry the local newspapers and a side assortment of cards for all occasions.

Jack Smittle, a registered pharmacist, purchased the Patterson Drug Store in September of 1960. Since that time, he has remodeled the store's interior and exterior twice in an effort to provide the shoppe with an open, uncluttered atmosphere in the store itself, and yet provide a complete assortment of products and package sizes in a well-organized manner. **Smittle's**, the "Friendly Store," is located in the center of town, with ample parking just behind the rear entrance.

Flowers are the business of another of Westerville's well-known establishments. No formal dance in town or at the high school goes by without **Talbott's Flowers** receiving corsage and boutonniere orders from the couples that are planning a wonderful evening. In another part of their service, **Talbott's** will provide all manner of arranged cut and potted flowers for every occasion. Special days or special thoughts need not pass unobserved or unexpressed when **Talbott's** stands ready to supply the appropriate floral arrangement for any instance. Gardeners frequent Talbott's greenhouse for their fertilizer and garden needs. There they find a complete assortment of nursery stock. The **Talbott's** trucks are a common sight on the streets of Westerville as they deliver all nursery orders free.

Three Westerville area establishments offer an evening out for two different types of night owls. Uptown, for the cycle set and drive-in crowd, is the **Dairy Queen**, site of many a memorable malted. This is the favorite after-anything stopping off point before the next step in the evening's plans. For a meal, a snack, and especially for a treat, the **Dairy Queen** caters to every taste. If pizza is more the desired style a short hop down State Street to **D & D Pizza** is all that's needed. Numerous varieties of soft drinks and even more numerous types of pizzas are available, all to go. Call or drop-in at **D & D** and fifteen minutes later stop by and pick up a piping hot meal.

For a rest, a vacation, or a meal, the restaurant and lodge facilities of **Howard Johnson's** lie just round the corner for Westerville residents. Located on Route 161, just west of the freeway north, the motor lodge offers fun, relaxation, comfort, good service, convenience and casual living for the tired traveler or the weekend reveler. Nothing is better for relaxing than a pool or a sauna bath, and both are provided for the pleasure of their guests by **Howard Johnson's**. Beautifully decorated rooms allow the lodge guest to relax in the comfort and privacy of their own rooms. Outstanding meals can highlight the visit to the motor lodge; **Howard Johnson's** has equipped a modern restaurant for the convenience of the public and their guests, in particular.

Raica's Taxi Service provides efficient transportation services in and around the Westerville area and charges only per one way mile. In the fall of 1965 **Raica's Taxi Service** recognized a need for taxi service in Westerville and was and still is the only taxi in town.

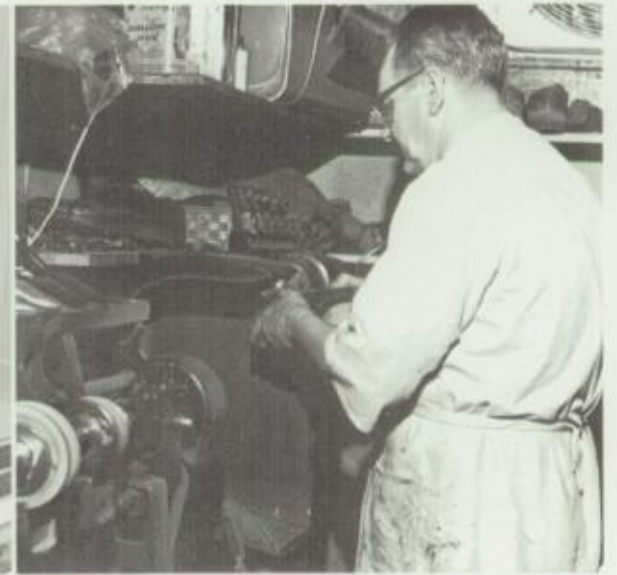

Wilkin Motor Sales provides the best in Ford sales and service in Westerville. It has been associated with The Ford Motor Company for 43 years. Well trained mechanics in the service department keep those new cars in new car shape. Used cars are also on the lot and are in tip-top shape.

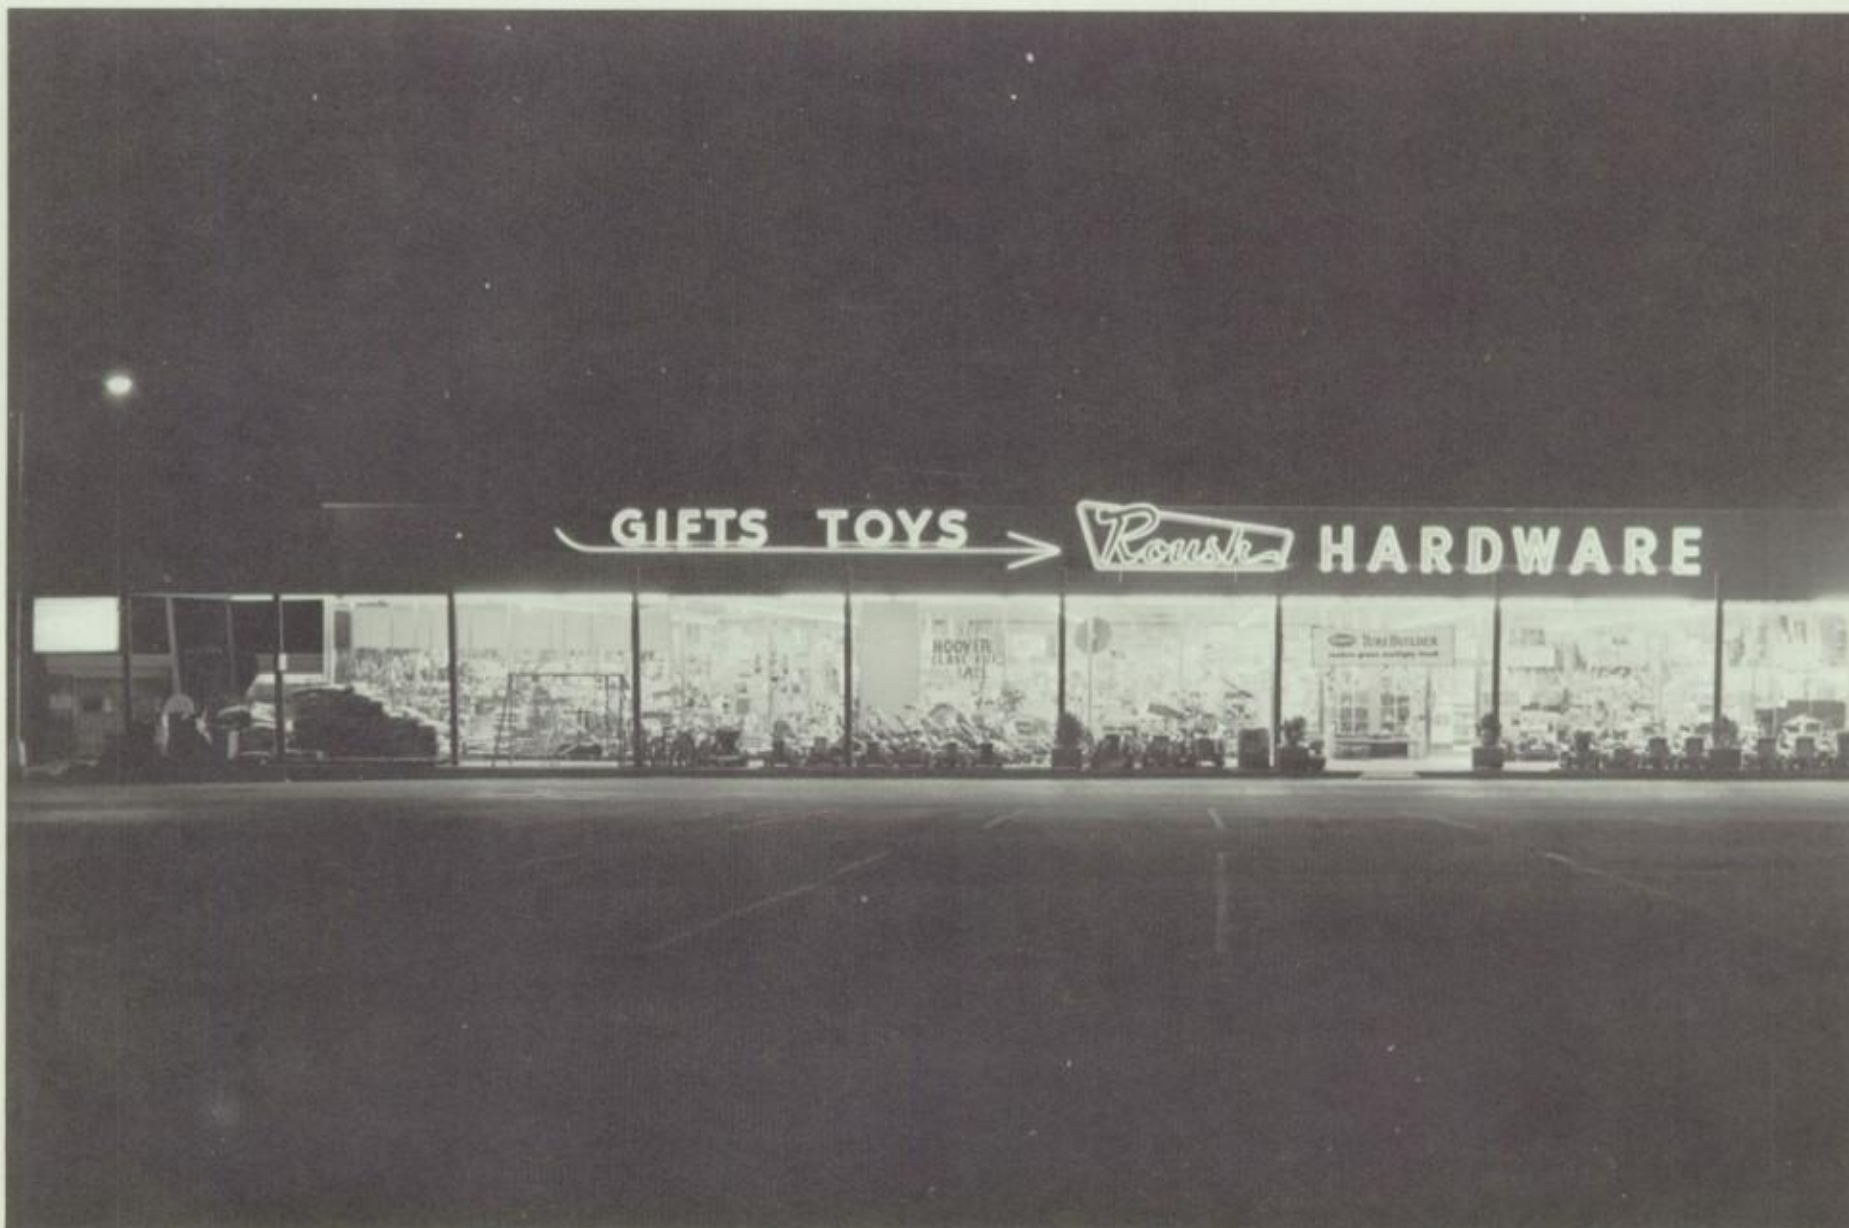

Need some gas, oil, or a complete engine overhaul? Drive, push or tow your car into **Guy's Shell**, State and Schrock. While your car is being repaired, you can do some shopping at the many stores only steps away. High quality products and skilled service are always yours at **Guy's Shell** where "Service is our Business."

If trouble arises in a different means of transportation take your worries to **Harris Shoe Repair** at 27 West Main Street. From a shoelace to an entire resoling and change in color, anything that can be done to a shoe **Harris Shoe Repair** can do. The name Neolite reflects the good brands used.

For those who live more to the South, and anyone shopping at Northland, stop at **Ray's Gulf**, on the corner of Morse Road and Cleveland Avenue. Dealing in fine quality products and service **Ray's** has everything to give your car longer life and excellent care.

For getting around town these businesses are best: Top: Ray's Gulf, Wilkin Motors, Harris Shoe Repair; Bottom: Raica's Westerville Taxi, Schott's Service Station and Guy's Shell.

Flanked by all kinds of lawn care equipment, Roush Hardware's two front entrances open up into the store which offers a complete assortment of all types of home and hardware needs.

SWEET SIXTEEN AND NEVER BEEN . . .

Yes . . . when members of the class of '67 were toddlers Roush Hardware too was in its infancy.

This year marks our sixteenth year of operation and thus our headline . . . "Sweet Sixteen and Never Been . . ." . . . we like to think we've never been undersold . . . we know quite frankly we've been kissed . . . 1000 times over by the fine people of Westerville, by your parents, aunts, uncles, grandparents, your faculty, the school system and most of all by YOU the student body of Westerville High School.

We like to look back over the past sixteen years with a certain satisfaction . . . much as you do as you look over your achievements in the classroom as you prepare yourself for tomorrow. We have made progress, we have grown, we have made friends, have learned to respect the opinions of others and have tried to make a real contribution to the community.

It is our sincere hope that each and every one of you will make the most of your education, that you will grow into community leaders, continue to support the businesses who have helped support the schools and be forever loyal to Westerville High School.

Your Volkswagen has a house in our garden! Well, a house for part of it. That's (top) a shot of one of our three warehouses which stock a five months supply of Genuine Factory Parts for the more than 150,000 VW's in Ohio and Kentucky. Our 60 authorized VW dealers have another three months supply of those same replacements on their shelves. We, **Midwestern VW Corporation**, exclusive distributor for Volkswagen products in Ohio and Kentucky, don't believe that anything as complex as an automobile can run forever and not have something wear out, get bumped, or scratched. So we back up our belief by being sure that when it happens, our factory trained technicians can put their hands on the right part right away to do the job right.

Locally-owned **Vincent Motors** feels the same way. A factory direct dealer in quality cars, **Vincent** has a complete line of Imperial, Chrysler, Plymouth, and Valiant automobiles. Above: Ohio State Bank prides itself in its complete customer service in loans and savings. Below: Mr. George Beachler offers honest and dependable counseling for your housing needs.

Beachler Realty, on Electric Avenue, imparted these poetical words:

Dear Seniors;

IF YOU THINK

If you think you are beaten, you are
If you think you dare not, you don't
If you think that you'd like to win
But you think you can't
It's almost a cinch you won't.

For out in the world you find
Success begins with a fellow's will
It's all in the state of mind
For many a race is lost
Before ever a step is run.

And many a coward fails
Before his work's begun
Think big and your deeds will grow
Think small and you'll fall behind
Think that you can and you will
It's all in the state of mind.

If you think you're outclassed, you are
You've got to think high to rise
You have to be sure of yourself before
You can ever win a prize.

Life's battles don't always go
To the stronger or the faster man
But sooner or later the man who wins
Is the fellow who thinks he can.

Offering a variety of financial, investing, and savings programs Ohio State Bank takes great pride in being a "Bank of Personal Service". Although OSB was started in 1950, it is relatively new in Westerville, having established a branch here in 1964 at 571 South State Street, as a part of the BancOhio Corporation. In three short years they have diversified their program to include regular and special checking accounts, savings accounts, safe deposit boxes, real estate loans, auto loans, personal loans and Home improvement loans. Ohio State Bank takes pride in its affiliations which especially applies to its membership in the Federal Deposit Insurance Corporation, just one more device that they employ to assure their dependability.

Don't talk to us about co-education.

We practically invented it. When we opened our doors, we opened them to both men and women. And, when we found qualified women, we were the first college to hire them for our faculty. If all this doesn't sound too startling, keep in mind we opened shop in 1847, when the prevailing opinion was that brains were male or female, and the best ones were always male.

We're one hundred and twenty years old, but neither ivy nor moss has ever gained a foothold to hamper our independent thinking. We're based on the church, oriented to the world, and our most cherished tradition is the encouragement we give to creative thought and action.

Write our Admissions Office. We can always use another leader.

Otterbein College

WESTERVILLE, OHIO, 43081

don't talk to us about Westerville either . . .

We can't claim that we helped "invent" Westerville High School, but we do claim to know a lot about it, the quality education it offers its students and the calibre of student that graduates from the system.

As an institution of higher learning Otterbein has an opportunity to look over many public education systems throughout the country . . . to analyze the quality of work being offered and to test the results through examination of potential students.

We do believe that the student body of Westerville High School has a lot to be thankful for . . . they are being given a splendid education . . . your system is keeping pace with modern education and your graduates are what we consider "quality" material.

When a Westerville High School graduate enrolls in Otterbein, we know he or she is prepared . . . we know they have been exposed to tremendous facilities, an enthusiastic and learned faculty and that they will succeed at Otterbein.

It's nice to have our neighbors to the east considered as "tops" . . . we're a bit greedy but frankly, we'd like more students from Westerville . . . if you haven't considered us . . . please do.

Variety in services available in Westerville is certainly exemplified by these establishments. Top: Walt's Barber Shop, Harry & Dot's Bait Store, and AJD Productions; Bottom: The Talk Of The Town, A Friend, and The Public Opinion.

Compliments Of A Friend

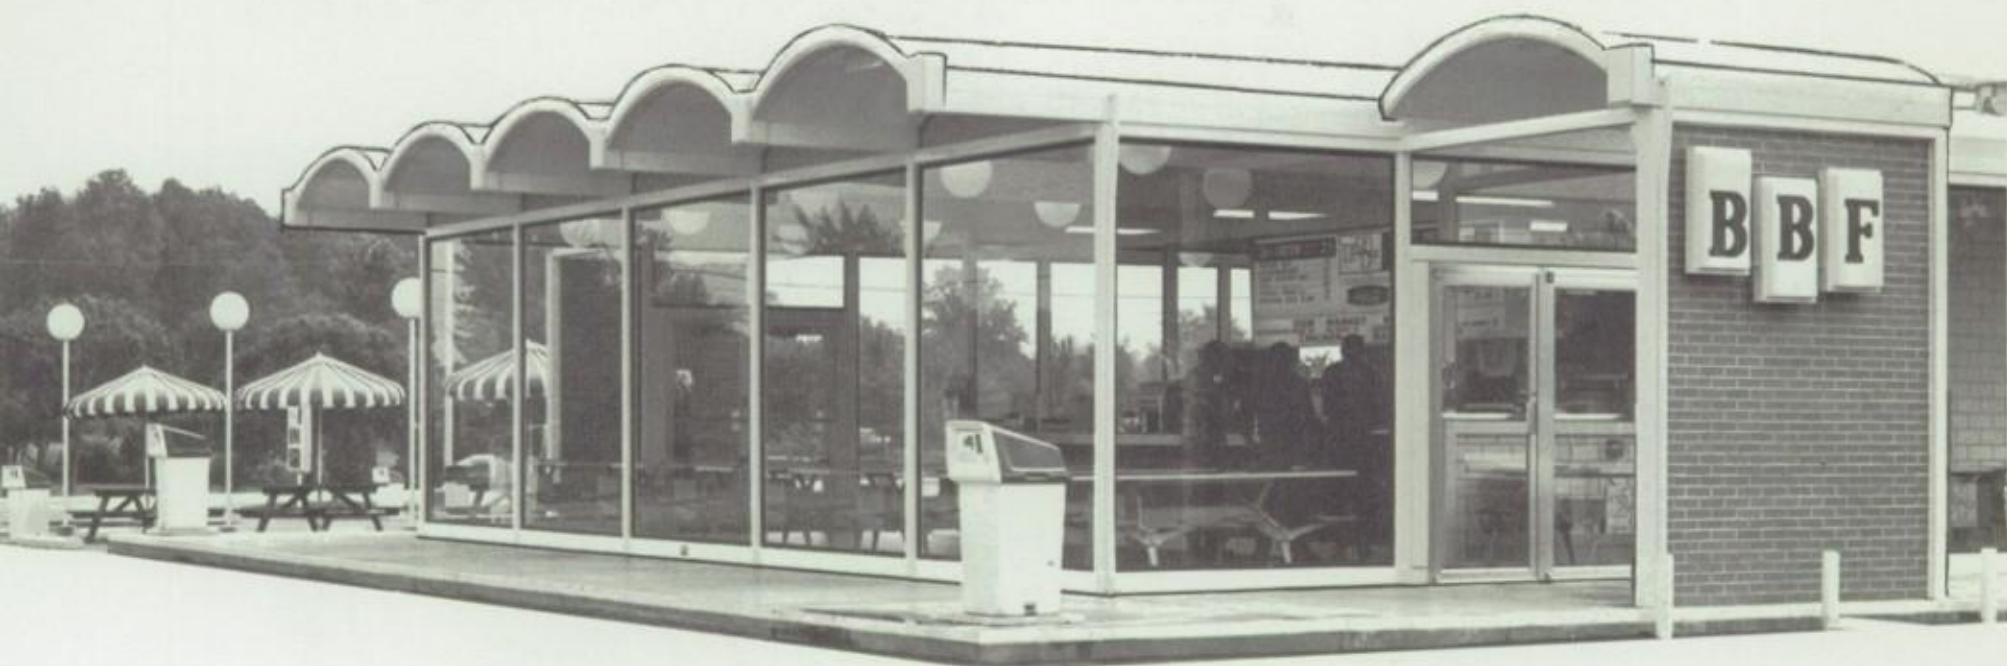

Celebrating their 100th year anniversary, the **Public Opinion** prides itself in the fact that it is Westerville's own newspaper. The **P.O.** maintains the tradition of "wanting to serve you." For only four dollars a year, this service is available every Thursday for and about Westerville citizens.

Located for seven years at 5256 Cleveland Avenue in the Westerville Shopping Center, **The Talk Of The Town** is unique in that it is competitive both locally and in creative exhibition. Locally, **The Talk Of The Town** boasts high quality styling techniques available Monday thru Friday from 9 a.m. to 9 p.m. and on Saturday from 8 to 5. In 1961 they won first place in commercial exhibit at the Westerville Fair.

Friendliness and service to please are trademarks of **Walt's Barber Shop**. Serving men both young and old alike for the past eight years at 42 N. State Street, Walt Mason and Ken Smith always strive to please.

The old cliché "variety is the spice of life" applies at **Harry and Dot's Bait Store**. In business for seven years at 7034 Sunbury Road, **Harry and Dot** offer a wide selection of baits and tackle for the sports-minded fisherman.

Imagination, creativity and beauty have become the assets of Bill Bravard, owner of **AJD Productions**. His accomplishments in the construction and design of sets for dramatic stage productions are well known to Westerville theater enthusiasts.

PLANNED COMMUNITIES, INC. INVITES
“LIVING ROOM”
YOU ON A TOUR TODAY!

Take the family on a tour of Planned Communities Country. You'll find more "living room" in a prime residential area.

Here we go . . . follow Olentangy Rv. Rd. to Bethel Rd. Turn north on scenic Godown Rd., here you'll discover (1) **SYCAMORE HILLS** . . . a rustic country site with handsome model homes on the hills. Community pool and recreation. Let's go on to (2) **INDIAN HILLS**. This is country club living. Lots of exciting model homes, and just look at that swim club on the banks of the Rocky Rill.

On our way to Annehurst Village we can visit Historic Worthington (3) or continue across Wilson Bridge Rd. From the River east you're still in Planned Communities Country. This beautiful piece of land will soon be (4) Olentangy Hills, our newest natural set-

ting. Number (5) on our map is the site of Anheuser-Busch. Via Shrock or Park Rd. we arrive at (6) **ANNEHURST VILLAGE**, in Westerville enjoying the city's schools and services. Otterbein College is nearby and Sharon Woods Park creates the biggest backyard in Franklin County for the Villagers. All new model homes here, too.

Dad will note you are less than 20 minutes to Broad & High in Planned Communities Country, city taxes prevail and all improvements are in. Shopping is convenient for Mother and recreation for the family is "built-in". We planned it that way. There really is lots of living home, and you've probably found your dream house . . . as so many others have . . .

DAUGHERTY'S PHOTOGRAPHS

49 E. College Ave.

Almost traditionally, now, it is **Daugherty's Photographs** to whom the Seniors at W.H.S. turn for their Senior Pictures. These, the most valued pictures at this stage of life, must be perfect. It is for this reason that **Daugherty's** is so often chosen. Better than good, **Daugherty's** has won blue ribbons from the Ohio Professional Photographers Association of which Robert Daugherty Sr. was a charter member. Since **Daugherty's** is a family operated organization they enjoy working with the people of the community as well as W.H.S. Seniors. Founded in 1933 as Green's Studio in 1948 it became **Daugherty's** and is located at 49 E. College here in Westerville.

By no means, however, is **Daugherty's** only interested in Westerville High. Personal portraits, family pictures, and photographs of such importance as weddings have long been a large part of the personalized work done. Custom picture frames and art prints are also available. All photography developing, enlarging, etc. is done by the **Daugherty's** and no work is sent out.

Even the sweltering heat during Commencement did not lessen Mr. Don Crawford's earnest advice to the seniors.

Mr. Craig Gifford, President of the School Board, commanded the seniors' undivided attention as he prepared to hand out the diplomas.

Fran Babcock expresses the feelings of all the seniors as she examines the end result of twelve years of work.
